Government of Bengal.

FORT WILLIAM, THE 1ST JULY 1879.

THE following Notification is published for general information.

H. L. HARRISON,
Offg. Secretary to the Government of Bengal.

HOME DEPARTMENT.

NOTIFICATION,—PUBLIC.

No. 1179.

Simla, the 30th June 1879.

THE Governor-General in Council has received with deep concern the announcement of the death of Lord Lawrence, late Viceroy and Governor-General of India. No statesman since Warren Hastings has administered the government of India with a genius and an experience so exclusively trained and developed in her service as those of the illustrious man whose life, now closed in the fulness of fame though not of age, bequeaths to his country a bright example of all that is noblest in the high qualities for which the Civil Service of India has justly been renowned, and in which, with such examples before it, it will never be deficient. The eminent services rendered to India by Lord Lawrence, both as ruler of the Punjab, in the heroic defence of British power, and as Viceroy in the peaceful administration of a rescued empire, cannot be fitly acknowledged in this sad record of the grief which she suffers by his death and of the pride with which she cherishes his name. The Viceroy and Governor-General in Council, however, desiring to give some public expression to those feelings, and to that national gratitude which is the best reward of national services, directs that the flag of Fort William shall during to-morrow, the 1st July, be lowered half-mast high, that thirty-one minute guns shall be fired at sunset from the Fort, and that the last gun shall be fired and the flag dropped as the sun sets. His Excellency in Council further directs that on this sorrowful occasion the same marks of national respect shall be simultaneously shown at all the other seats of Government in India, in order that throughout the length and breadth of the empire with whose history the fame of Lord Lawrence is imperishably associated honour may be rendered to the memory of the statesman who ruled India with a wisdom strengthened in her laborious service, and whose fortitude, severely tested, was splendidly displayed throughout her fiercest trial.

C. BERNARD,
Secretary to the Government of India.

NOTIFICATION.

The 26th June 1879.—In exercise of the powers conferred upon him by Section 1, Act IV (B.C) of 1873, the Lieutenant-Governor is pleased to direct that all births and deaths occurring after the 1st August 1879 within the limits of the municipality of Deoghur, in the Sonthal Pergunnahs, shall be registered.

H. L. HARRISON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 28th June 1879.—In exercise of the powers conferred by section 55 of the Indian Stamp Act, I of 1879, His Honor the Lieutenant-Governor of Bengal is pleased to make the following rules for regulating the supply and sale of stamps and stamped papers, the persons by whom alone such sale is to be conducted, and the duties and remuneration of such persons :—

I.—According to the rules made by the Governor-General in Council under sections 9, 15, 17, 32, 51, and 56 of the Act, and published at pages 307 to 309 of the *Gazette of India* dated 19th April 1879, there are three kinds of stamps for indicating the payment of duty on instruments under the Indian Stamp Act, namely,—

(1) *Impressed stamps*, that is to say, sheets of paper bearing the impression of stamps of different values engraved thereon, and sold to the public for use by them in accordance with the above rules.

(2) *Adhesive stamps* sold to the public for use by them in the case of instruments mentioned in section 10 of the said Act.

(3) *Stamped labels* to be affixed only by Government officers in the manner prescribed by Government.

The Collector of Calcutta and the Superintendent of Stamps, Calcutta, shall keep a supply of the stamped labels last mentioned, and shall also, upon any instrument mentioned in Rule 6 of the rules made by the Governor-General in Council, referred to above, being brought to them before it is executed, and upon application being made to them for that purpose, affix thereto a stamped label or labels of such value as the applicants may desire and pay for. The Superintendent of Stamps shall keep a supply of the two other descriptions of stamps, viz. *impressed stamps* and *adhesive stamps*, and shall issue them on indent to the Collectors of districts, Deputy Commissioners, and such other district officers as may be authorized by the Board to indent directly on the Stamp Office for stamps. The Collector, Deputy Commissioner, or such other officer as aforesaid shall keep the stamps in such manner, and under such rules, as the Board may direct, and shall issue them to the treasurer or stamp darogah at the head-quarters of each district, to Sub-divisional Nazirs, or to any of their subordinates entrusted with the custody and sale of stamps on behalf of Government, and the stamps shall be sold to the public through *ex-officio* or licensed vendors in the manner hereinafter prescribed.

II.—The treasurer or stamp darogah at the head-quarters of a district, the Sub-divisional Nazir, or any other subordinate officer entrusted with the custody and sale of stamps on behalf of Government, as mentioned in Rule I, shall be *ex-officio* vendors, and shall sell on behalf of Government stamps of the first two kinds, viz. impressed stamps and adhesive stamps, to licensed vendors and to the public on application.

III.—Such persons as may be licensed by the Collectors or Deputy Commissioners shall be licensed vendors, and shall sell to the public such stamps as are indicated in their licenses.

IV.—Every license shall specify the name of licensee, the description of stamps which may be sold under the license, the place of vend, and such other matters as may be necessary, and shall be signed by the authority granting it. The license shall be revocable at any time by the authority who grants it.

V.—Subject to Rule VII, every licensed vendor who purchases from Government by payment of ready money impressed and adhesive stamps shall receive the same at a discount at the following rates :—

	Value.	Calcutta, Howrah (Sudder Station), 24-Pergunnahs (Sudder Station).	All other places.
		Per cent.	Per cent
IMPRESSED STAMPS—3½ *per cent., or two pice in the rupee.*	Stamps not exceeding in value 8 annas each.	3½ = two pice in the rupee.	4¼ = three pice in the rupee.
ADHESIVE STAMPS sold to the public for use by them in the case of instruments mentioned in section 10 of the Indian Stamp Act.	Stamps exceeding in value 8 annas each, but not exceeding in value Rs. 5 each.	1 1/16 = one pice in the rupee.	3½ = two pice in the rupee.
	Stamps exceeding in value Rs. 5 each, but not exceeding in value Rs. 50 each.	1 1/16 = one pice in the rupee.	1 1/16 = one pice in the rupee.

VI.—No discount shall be given on account of the purchase of any stamp exceeding Rs. 50 in value, nor on any stamp applied on material furnished by the purchaser himself. Discount shall not be allowed if the total value of the quantity of stamps purchased at one time does not amount to Rs. 25 or upwards.

VII.—Licensed vendors alone are allowed discount on the purchase of stamps. No *ex-officio* vendor is allowed to purchase stamps at a discount for sale on his own account to the public.

VIII.—No licensed vendor shall be supplied with stamps on credit without the special sanction of Government.

IX.—Every licensed vendor shall at all times have stuck up in a conspicuous place outside the place of vend, a signboard bearing the name of the vendor, with the words "Licensed vendor of stamps" in the vernacular language of the district. He shall also have in the place of vend his license and the Acts of the Legislature and their schedules referring to the stamps sold by him, together with these rules in English, placed so that they can readily be seen and read by purchasers.

X.—Every *ex-officio* or licensed vendor shall write in the vernacular language of the district on the back of every impressed stamp which he sells a serial number, the date of sale, the name and residence of the purchaser, and the value of the stamp in full in words, and shall affix his signature to the endorsement; at the same time he shall make corresponding entries in a register to be kept by him in the following form :—

Serial number of stamps.	Date of sale.	Value of stamps.	Name and residence of purchaser.	REMARKS.

No vendor shall knowingly make a false endorsement on the stamp sold, or a false entry in his register.

XI.—No *ex-officio* or licensed vendor shall take for any stamp more than the value denoted thereon, and every such vendor shall without delay deliver any stamp which he has in his possession for sale on demand by any person tendering the value in any currency which would be accepted on behalf of Government by the Collector of the district.

XII.—No licensed vendor shall sell any stamps, the use of which has been ordered by competent authority to be discontinued.

XIII.—A licensed vendor shall sell stamps only at the place mentioned in his license.

XIV.—Every *ex-officio* vendor shall keep and render such accounts as may be prescribed from time to time by the Board of Revenue.

XV.—Every vendor shall allow the Collector of the district, or any officer duly authorized by such Collector or by the local Government, at any time to inspect his accounts and registers, and to examine the store of stamps in his possession.

XVI.—Every vendor shall, at any time on the demand of the Collector or other officer duly authorized by the local Government, deliver up all stamps or any class of stamps remaining in his possession; and if such stamps have been paid for, shall receive back the value thereof, less any discount which may have been allowed. A vendor resigning his license, or whose license is revoked, shall also be entitled to get back the value of the stamps remaining unsold, and which have been paid for and are fit for use, less the amount of discount allowed thereon.

XVII.—A licensed vendor may exchange unsold stamps which are fit for use for other stamps of the same class.

XVIII.—These rules shall come into force from the 1st August 1879.

H. L. HARRISON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 25th June 1879.—Under Section 71 of the Indian Forest Act VII of 1878, the Deputy Conservator of Forests in the Sunderbuns division is vested with the powers specified in clauses *C* and *D* of that section.

A. MACKENZIE,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 30th June 1879.—The following rules for the grant of leases for tea cultivation in the district of the Chittagong Hill Tracts have been sanctioned by the Lieutenant-Governor and are published for general information :—

RULES FOR THE GRANT OF LEASES FOR TEA CULTIVATION IN THE DISTRICT OF THE CHITTAGONG HILL TRACTS.

1. The lands that are generally available under these rules in the district of the Chittagong Hill Tracts lie within the following boundaries :—

On the North.—The Fenny River.
On the West.—The Regulation District of Chittagong.
On the South.—The province of Arrakan.
On the East.—The frontier line notified at page 1168 of the *Calcutta Gazette* of the 20th September 1876.

2. The following lands will not ordinarily be available under these rules :—

(*a*)—Lands comprised within the boundaries of the Myorie, Kaptai, Rainkheong, Sungoo, and Matamore protected forest reserves, or any reserves which may be taken up in the future by the Forest Department, and such other lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.

(*b*)—Lands not included in the above category, but which now bear *Jarool, Gurjan, Gambar,* or other valuable trees in compact blocks or patches, or on which valuable sunn khollas are situated.

(*c*)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as render it impolitic or unadvisable to grant such lands to any other person or persons for the purpose of tea cultivation.

(*d*)—Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed, or shall be kept in repair, from public funds, and that it be borne on the list of the district roads of the district.

(*e*)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette,* expressly exempt from the operation of these rules.

3. Every person, company, or association, desirous of obtaining a grant of land under these rules, must, in person or by a duly authorized agent, present an application, on plain paper, to the Deputy Commissioner of the District of Chittagong Hill Tracts.

4. The application must specify—

(*a*)—The name or names and address or addresses of the applicant or applicants, and of his or their authorized agent if any.

(*b*)—The area, situation and boundaries of the land applied for as far as they can be ascertained without a detailed survey.

(*c*)—The particulars, if any, which may appear to the applicant to bring any part of the land applied for within the exceptions mentioned in Rule 2. The application must also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for must be compact and capable of being enclosed in a ring fence; and if any part of the land touches on a public road or navigable river, the length of such road or river frontage must not exceed one-half the breadth of the lot applied for.

6. Not more than 800 acres will ordinarily be granted to any one applicant, company, or association; and when more than 800 acres are applied for, the applicant must set forth specially the grounds for such application, and give *primâ facie* guarantees that he possesses the requisite capital for working such larger area. All applications for more than 800 acres will be forwarded by the Deputy Commissioner to the Commissioner, who, if he desires to recommend compliance therewith, will forward them to the Board of Revenue who will take the orders of Government upon each case.

7. On receipt of an application for any area not exceeding 800 acres, the Deputy Commissioner must satisfy himself, as far as lies in his power, that the requirements of the rules have been complied with. If he considers that the application should be rejected, he will record an order to that effect, giving his reasons for such rejection. An appeal will lie from such order of rejection to the Commissioner of the division, if preferred within thirty days from the date of the order. If the Deputy Commissioner considers that an application for such area as it is within his power to grant should be entertained, or in the case of application for areas over 800 acres, when the orders of Government accepting the application have been received, the applicant or his agent will be required to deposit the cost of survey and demarcation to be made as hereinafter provided. The amount to be so deposited must be calculated at one rupee per acre of the total area applied for; if the area is found to be greater, the sum of one rupee per acre must be paid on account of such excess area before a preliminary lease is granted. Payments under this rule do not cover the cost of erecting permanent boundary marks under Rule 20.

8. On receipt of the sum payable under the preceding rule, and of an agreement signed by the applicant, or by his authorized agent, to pay such further sum as may be required for the purposes abovementioned, the Deputy Commissioner will record an order appointing a proper officer for the purpose of making full and detailed enquiries into its condition and circumstances.

9. The general object of such enquiry shall be to ascertain whether or not the land applied for can be granted under the rules in force; but the Deputy Commissioner may instruct the officer making the enquiry to furnish him with such other specific and detailed information as may seem to him to be necessary.

10. On completion of this enquiry, the officer making it will record the result thereof, and submit a report for the orders of the Deputy Commissioner. If the Deputy Commissioner, after considering the report and after calling for such explanations, oral or written, as he may deem necessary, shall be of opinion that the land applied for cannot be granted under the rules, and should not therefore be surveyed, he will record an order to that effect. An appeal will lie from such order to the Commissioner of the division, if preferred within thirty days from the date of the order.

11. If the Deputy Commissioner decides that the land applied for can be granted under the rules and should therefore be surveyed, he will record an order to that effect.

12. If the Deputy Commissioner finds the land, or any part of it, in the occupation of any person or persons, or of any village community, he will submit a full report of the circumstances for the orders of the Commissioner, stating in detail how he proposes to deal with such prior occupants; and if it is proposed to remove them, the compensation, if any, which the applicant undertakes to pay to such persons. The Commissioner will report his orders in all such cases for the information of Government.

13. If any claim or objection be preferred under Act XXIII of 1863, the Deputy Commissioner will proceed to dispose of the same in accordance with the provisions of that Act.

14. The officer who made the enquiry provided for by Rules 8 to 10 will, on receipt of an order to that effect from the Deputy Commissioner, proceed to point out to the Surveyor the boundaries of the land applied for, and such prominent features in it as may be useful for the purposes of the survey, and which should, in his opinion, be entered in the preliminary lease as hereinafter provided. The boundaries and other features abovementioned should be clearly marked and defined by the officer in presence of the Surveyor, and the latter should be furnished with a list of them signed by the said officer.

15. The Surveyor will then proceed to make the survey and put up such temporary boundary marks as are necessary for that purpose. He must prepare a map showing—

(*a*)—All natural features of the country lying within the boundaries as fixed by the officer who made the enquiry under the Rules 8 to 10,—*e.g.*, bheels streams, forest clumps, &c.

(*b*)—Such features of the country lying outside the boundary of the land to be surveyed as may serve to identify the latter and connect it with the revenue survey or other existing map.

The Surveyor is bound to bring to the notice of the Deputy Commissioner any fact which may come to his knowledge in the course of the survey, rendering it advisable that the land he is surveying should not be granted under these rules.

16. The map should ordinarily be on a scale of 16 inches to the mile. If possible the Surveyor's field-book should be copied at the back of it; if not, a copy of the field-book should be attached to, or accompany, the map. If the map be made originally in the vernacular, the Deputy Commissioner will cause it to be translated into English.

17. On the map being completed, it must be checked by an officer appointed by the Deputy Commissioner. If found to be incorrect, it will be amended by the Surveyor in conjunction with the officer abovementioned; if found to be correct, it will be laid before the Deputy Commissioner with the report of the officer who made the preliminary enquiry under Rules 8 to 10, and with all other papers connected with the case.

18. The Deputy Commissioner will then proceed to consider the application. A date for the purpose must be previously fixed by him and due notice of it given to the applicant, or to his authorized agent.

19. The Deputy Commissioner shall have power to reject an application at any stage of the proceedings under the rules if he sees reason to do so, refunding in such case to the applicant the deposit made by him on account of survey, or the balance thereof in the case of any portion of it having been expended in survey. He is authorized to reject an application when he does not consider that there is a *bonâ fide* intention on the part of the applicant to cultivate in tea the land applied for, or when it appears desirable to reserve the land for cultivation other than tea, or to preserve any forest standing on it. An appeal against every such order of rejection shall lie to the Commissioner of the division if preferred within thirty days of the date of the order.

20. If the Deputy Commissioner grants the application, he will without delay grant the applicant a lease in Form A of the appendix, and call upon him to execute a counterpart thereof. He will also direct him to mark out the land leased by a continuous trench, or in such other manner as the Deputy Commissioner may direct. Within three months of the grant of such lease, the lessee must, on pain of forfeiture of all rights in the land leased, mark out the land as above directed, and must further erect, at his own expense, such permanent

boundary marks as the Deputy Commissioner may direct. On the expiry of the three months the Surveyor must test the correctness of the boundary line and permanent marks, and report the result to the Deputy Commissioner, at the same time pointing out to the lessee or his representative, by written notice, any correction that may be required. If the corrections indicated are not made by the lessee or his representative within thirty days of the receipt of such notice, all rights in the land shall be liable to forfeiture to Government.

21. Whenever after receipt of an application as provided for in Rule 3, and after making such inquiries as he may deem necessary, the Deputy Commissioner shall be of opinion that there is no *primâ facie* objection whatever to the grant, under the rules, of the land applied for, he may put the applicant in preliminary and provisional possession of an area, not exceeding one-eighth of the estimated area of the land applied for, with the object of enabling the applicant to make preparations for commencing cultivation and getting the land in order. Provided that the applicant before obtaining such preliminary possession, shall have erected such boundary marks as the Deputy Commissioner may direct, and that the amount of all estimated charges incurred in connection with such preliminary occupation shall have been deposited by the applicant.

22. The order for, and conditions of, such preliminary occupation shall be in Form B in the appendix, and shall be addressed to the applicant. A copy of this order shall be signed by him as an acknowledgment of occupation, and as signifying his intention to abide by the same, and deposited with the Deputy Commissioner.

23. Grantees are not permitted to club or amalgamate their grants otherwise than by transfers duly registered, as provided for in the preliminary lease. Any unauthorized amalgamation will subject the holders of the grants in question to forfeiture of all right in the lands so amalgamated.

APPENDIX A.

Form of preliminary lease of land in *granted by the Deputy Commissioner*
of *to* *of*

1. THE lands covered by this lease are situated with the boundaries shown by the red lines in map No. , dated , and attached to the lease.

The lands may be described as being bounded as follows:—

North—
East—
South—
West—

Their area is more or less acres, and they are situated in the thana mentioned in the margin

2. The rights conveyed by the lease are heritable and also transferable, provided (*a*) that the entire grant and not a portion of it be transferred; (*b*) that the clearance conditions are duly observed by the transferer and transferee respectively; (*c*) that the transfer is registered in the Deputy Commissioner's office within twenty-one days of the date thereof; and (*d*) that a registration fee of four annas per acre be paid to the Deputy Commissioner on the occasion of every such transfer. If any transfer of the rights conveyed by this lease is made otherwise than in accordance with the foregoing provisions, all rights in the land shall be liable to be forfeited to Government. After the expiry of this preliminary lease no right shall be claimed otherwise than expressly provided for hereinafter.

3. The rent to be paid shall be as follows:—

Year of entry (*i.e.* from actual date of entry to 31st March following)	*Nil.*	
1st full year (from 1st April following date of entry) ...	*Nil.*	
2nd year	3	annas per acre.
3rd year	6	„ „
4th year	9	„ „
5th year	12	„ „

The rent shall be paid to the Deputy Commissioners (or to the Assistant Commissioner of Sungoo or Cox's Bazar sub-divisional) office in the following instalments:—

1st September ... one-half. | 1st March ... one-half.

4. The lessee shall either himself reside on or near to the lands covered by this lease, or he shall appoint a Manager or Agent who shall reside on or near to such lands, and who shall be provided with a full legal power to act on behalf of the principal in all matters arising out of, or concerning, the lands covered by the lease.

5. The lessee binds himself to conform to all the provisions of the rules for the grant of tea leases under which this lease is granted.

6. Five per cent. of the area of the lands shall be cleared by the end of the second year after the grant of this lease, and ten per cent. by the end of the third year.

7. Any land covered by the lease, which may at any time be required for a public purpose, may be taken up by Government, free of cost, on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of

any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provisions of the law in force for the time being for the acquisition of land for public purposes.

8. All rights to minerals or quarries of all kinds are reserved to Government.

9. No right of fishery and no right to dam up or otherwise obstruct the passage of any stream is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

10. The right of Government to levy such tolls as it may think proper on the forest produce exported from the land hereby leased either by land or water is reserved.

11. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made, provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection the Deputy Commissioner finds that 15 per cent. of the total area held under the lease has been brought under cultivation by means of good husbandry and actually bears tea plants, the lessee shall be entitled to the renewal of the lease for a further period of twenty years, and to renewals for similar periods in perpetuity, subject to the following conditions:—

(*a*)—Subject to any general or special orders of Government, the rent to be paid shall be fixed by the Commissioner, on the report of the Deputy Commissioner, on each occasion of renewal, but shall not exceed the rate of rent per acre paid in the neighbourhood at the time of renewal for the highest classes of lands under cultivation. If at any future time the administration of the tracts under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the Legislature, to impose such special taxation as may be deemed necessary, either by raising the rent or in some other mode. But under no other circumstances will the rent, which has now been fixed for a term of years on the principle above enunciated, be raised during the currency of such term;

(*b*)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferee to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased;

(*c*)—In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

12. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

13. If before the expiration of this preliminary lease no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements shall have been made by the Deputy Commissioner.

APPENDIX B.

To , *son of* , *resident of*

applicant.

With reference to your application to enter into an agreement in regard to the land mentioned below, for the purpose of cultivating tea, desiring immediately to enter upon occupation of some part of the land in question for the purpose of making preparations for, and for commencing such cultivation, I hereby authorize you to use for that purpose any lands lying within (here specify boundaries) and not exceeding 100 acres in all.

In the event of a lease being hereafter granted, the date of entry referred to in such lease shall be held to be not the date of this order, but the date of possession being given under such lease. In case of a lease being refused, no claim to compensation shall lie against the Government for any outlay incurred by you on the strength of this order. No rent shall be payable for land occupied during the currency of this order, the terms whereof shall expire on the 31st March next.

Occupation under this order, or after its expiry, without express conditions to the contrary, shall never be held to constitute any tenure other than a tenancy-at-will from year to year. You shall keep the boundary line and marks in repair and clear of jungle.

Deputy Commissioner.

I AGREE to the above conditions.

NOTIFICATION.

The 20th June 1879.—The Lieutenant-Governor directs that Bengal Act IV of 1879 (an Act to repeal certain sections of Bengal Act IV of 1866, and to provide for the levy of fees upon certain passenger boats and steam-ferries) shall come into force on the 1st July 1879.

2. Under clauses *f*, *k*, and *n* of section 7 of Act XII of 1875 (the Indian Ports Act), and the provisions of Bengal Act IV of 1879 aforesaid, the Lieutenant-Governor is pleased to prescribe the following rules for the regulation of passenger-boats and steam-ferries plying for hire within the Port of Calcutta. The rules shall take effect from the said 1st July 1879.

3. These rules do not affect vessels whose voyages ordinarily extend more than 30 miles from the limits of the Port proper.

RULES.

1. No passenger-boat or steam-ferry shall ply for hire either wholly within, or partly within and partly without the limits of the Port unless licensed and registered by the Port Commissioners as Conservators of the Port under the provisions of Act XII of 1875. No such boat or ferry shall be allowed to ply as aforesaid, except under the direction of a person licensed by the Port Commissioners.

2. Every application for the licensing and registration of a passenger-boat or steam-ferry must be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, or, in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorized to act for him, a description of the vessel and the number of passengers which it is intended to carry.

3. Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules. The license is not transferable, and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port.

4. No license shall be granted to any passenger-boat or steam-ferry until such vessel shall have been surveyed by a surveyor duly appointed for the purpose, and he shall have granted a certificate stating the following particulars:—

(*a*) That such vessel is in good order and suited for the accommodation of passengers.

(*b*) The number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night, or when the vessel is lying at anchor at other times.

(*c*) The number of persons in addition to the crew which may be safely carried therein at one time.

5. The number of every licensed and registered boat and steam-ferry shall be branded by the surveyor in some conspicuous part thereof.

6. Fees not exceeding the sums mentioned in the following schedule shall be payable for the issue, renewal, &c., of the licenses granted under these rules:—

Schedule of Charges.

		Not exceeding. Rs. A. P.
1.	For surveying, registering, branding and issuing license to passenger-boats or steam-ferries. For every passenger which such boat is to be licensed to carry ..	1 0 0*
2.	Passenger-boat plate showing number of license, crew, and passengers in English and vernacular...	2 0 0
3.	License and metal ticket for persons in charge of boats ...	0 8 0
4.	Endorsement of change of owner on register and license... ...	2 0 0
5.	Issue of new license to boats in lieu of those defaced or lost ..	0 8 0

7. The owner or his agent, or the person in charge of any licensed passenger-boat or steam-ferry, shall not permit any number of persons more than that for which such vessel has been licensed to be carried therein at one time, and shall not permit such vessel to ply for hire unless provided with the number of crew stated in the license. The vessel must be kept thoroughly clean.

8. In the computation of the number of persons in addition to the crew carried in any vessel, two children below the age of 12 years shall be counted as one person, and every two maunds weight or luggage shall be counted as equivalent to one person.

9. The license granted for any passenger-boat or steam-ferry may be revoked by the Port Commissioners whenever such vessel is, in the opinion of the Port Commissioners, unfitted for the conveyance of passengers, or when any breach of the conditions of the License or the Port Rules or the Sea Customs Act has been committed by the owner or his agent, or the person in charge.

10. No passenger-boat or steam-ferry shall obstruct the free navigation of the Port or the approaches to wharves, jetties, landing-stages, or occupy the portions of the bank set aside for bathing ghât.

11. Every passenger-boat or steam-ferry under weigh after dark shall carry a light in a lantern in the forepart of the vessel where it can be distinctly seen.

12. The Port Commissioners may, if they think fit, at any time order any passenger-boat or steam-ferry to be re-surveyed without any charge to the owners, and they may also revoke at any time any license granted for any such vessel, or

* Up to a maximum of Rs. 5 in the case of a passenger, rowing, or sailing boat, and of Rs. 50 in the case of a steamer or steam-ferry.

to the person in charge thereof, and it shall be competent to the Commissioners to refuse any application for the issue of a license.

13. Whenever any accident shall occur to a registered passenger-boat or steam-ferry, the person in charge or the owner shall at once proceed to the nearest River Police station and report the circumstances connected with the accident to the officer in charge.

14. When any property belonging to passengers or others is left in a passenger boat or steam-ferry unclaimed, the property so left shall be at once sent by the person in charge to the Superintendent, River Police, and a report of the circumstances connected with the property shall be entered in a book kept for that purpose by the police.

15. Any person in charge of a licensed passenger-boat or steam-ferry plying for hire in the Port, who shall without good reason refuse to carry a passenger in such vessel shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have his own license, and that of the vessel of which he is in charge, revoked.

16. Every licensed passenger-boat or steam-ferry, when plying, shall have its license on board, which shall be produced when required.

17. An owner of a passenger-boat or steam-ferry who may withdraw it from plying, except for the purpose of repairs or other sufficient cause, without giving 48 hours' notice to the Port Commissioners, shall, in addition to the penalty prescribed by Act XII of 1875 for a breach of these rules, be liable to have the license revoked.

18. Every person registered under Rule 1 shall be provided with a metal license ticket, upon which shall be legibly painted the number of his license, and every such person when in charge of a licensed vessel shall wear his ticket exposed to view. No person without such ticket shall be in charge of any passenger-boat or steam-ferry.

19. Whenever the number on any license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any license ticket shall have been lost or mislaid, an application shall be made to the Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, supply a new license ticket.

20. On the expiration or other determination of any license, the ticket shall be returned to the registering officer.

21. No license ticket shall be lent or transferred to any other person, and no such ticket shall be used by any unlicensed person.

22. No person in charge of any registered passenger-boat or steam-ferry plying within the limits of the Port shall use, or wear, or have any ticket resembling, or intended to resemble, the metal ticket granted under the authority of these rules.

23. Any person committing an infringement of any of the foregoing Port Rules is liable to a fine not exceeding one hundred rupees, under the provisions of Act XII of 1875.

24 All police officers shall have the same powers against offences and offenders under these rules as they have under section 6, Act III (B.C.) of 1872.

This line of boundary commences at the hill station markod S south of Belting Sib 2234, on the Jampoi range of hills forming the Hill Tipperah eastern frontier; it then runs along the whole course of the "Tulenpui" or "Sujjuk" river to its junction with the Kurnafuli river, a little north of Demagiri; thence it continues eastwards along this stream up to the junction of the "Tui Chong" river, after which it follows the whole course of this river to a point immediately to the south-east of the hill station of the Ohipum No. 5; then turning westwards, crosses the Ohipum range of hills, and joins the Thega Khall at a point midway between the hill stations of Saichal, Nos. 2 and 3, after which it follows the course of the

Thega Khall river to its source; then again turns south-westwards and follows the water-shed of the Weybong range of hills, until it meets the southern hill station of Keokradong on the south-eastern boundary of the Chittagong Hill Tracts, following the water-shed until it meets the frontier of that portion of the Arracan Hill Tracts in which order and regularity are maintained.

2. It is further notified, under the provisions of section 2 of the said Regulation, that all British subjects, except the Lushais of the Thanglowa and Sylu clans and the members of the frontier police while on active duty, are strictly prohibited from going beyond the inner line without a pass under the hand and seal of the Deputy Commissioner of the Chittagong Hill Tracts, or of such other officer as he may authorize to grant such pass.

3. The following form of pass is prescribed under section 4 of the said Regulation :—

This pass is granted to , son of resident of . It authorizes him to go beyond the inner line of the Chittagong Hill Tracts, and will remain in force from to .

The holder of this pass shall not collect any forest produce or tap India-rubber or kill any elephant whilst within the Lushai country.

He shall produce this pass whenever called on to do so by any officer or private of the Frontier Police force in charge of a frontier post or on patrol duty.

4. A fee of one rupee shall be payable on each pass, and no pass shall remain in force for more than six calendar months.

COMMUNICATIONS.

Dated the 18th June 1879.

No. 150.—*Notification.*—In supersession of the notifications noted on the margin, it is hereby notified, under section 2 of the Canals Act (V of 1864, B.L C.), that the provisions of the said Act shall apply to the following navigable rivers from the 1st September 1879:—

No. 147, dated the 7th April 1868.
Nos. 185 and 186, both dated the 22nd May 1876.

(1.) The river Bhagiruthee—throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

Under section 6 of the Canals Act, the Lieutenant-Governor directs that for the collection of tolls, stations shall be established on and after the 1st September 1879 at Surrupgunge, in the Nuddea district, at the confluence of the Jelinghee and Bhagiruthee rivers; at Jungypore, in the Moorshedabad district, on the Bhagiruthee river; and at Kissengunge, in the Nuddea district, on the Matabhanga river.

Toll shall be collected at Surrupgunge in the Nuddea district on—

(1.) Traffic passing up or down the Jelinghee river.

(2.) Traffic passing up the Bhagiruthee river.

(3.) Traffic passing down the Bhagiruthee river for which a pass is not produced shewing that the full amount of toll has already been paid at Jungypore.

At Kissengunge, in the Nuddea district, on—

(1.) Traffic passing up or down the Matabhanga river.

At Jungypore, in the Moorshedabad district, on—

(1.) Traffic passing up the Bhagiruthee for which a pass is not produced showing that the full amount of toll has already been paid at Surrupgunge.

(2.) Traffic passing down the Bhagiruthee.

The following shall be the limits of the different toll stations:—

(1.) *Surrupgunge Station, Bhagiruthee River.*—On the north a line drawn across the river from the point at which the boundary of the Nuddea Municipality meets the river. On the south a line drawn across the river from the southernmost point of the village of Nutun Bazar.

(2.) *Jelinghee River.*—On the north-east a line drawn across the river Jelinghee from the eastern boundary of the toll office compound. On the south the same as the southern limit of the Bhagiruthee.

(3.) *Kissengunge Station.*—On the north a line drawn across the river Matabhanga from the Mothurapore point. On the west a line drawn across the river from Joogiparah Ghât near the village of Shoneghatta. On the south-east a line drawn across the entrance of the river Echamutty.

(4.) *Jungypore Station.*—On the north a line drawn across the river at the point where the Balghatta nullah runs into the Bhagiruthee, and on the south a line drawn across the river from the lower Thakurbari Ghât to a point about 500 yards below the toll office.

Provided that in the case of the Surrupgunge toll station it shall be competent to the Toll Collector, by a written order to be recorded in his office, to remove the southern limits of that toll station during the dry season to any convenient place nearer to the toll office than the limit fixed above. And provided also that when the river rises it shall be competent to the Toll Collector of Jungypore, by a written order recorded in his office, to remove the northern limit of that toll station to a point not exceeding 300 yards below the sub-divisional office compound, and the southern limit to the south end of the village of Shahebgunge.

(5.) At the limits of each toll station a chowkey boat shall be stationed for the purpose of collecting passes, &c., and preventing the evasion of tolls. Also, at the limits of each station a flag shall be hoisted on the land, for the purpose of indicating to boatmen the situation of such limits.

Two extra toll stations shall be established during the rains, one at the Balghatta nullah, and the other at the Kanoopur nullah, subordinate to the Jungypore toll station in the Moorshedabad district.

Under section 6 of the Canals Act, the Lieutenant-Governor has fixed the rates in the following Schedule A for the levy of toll at the abovementioned places on the said rivers on and after the 1st September 1879:—

DRAFT.

The following draft rules are published for information under the provisions of section 11 of the "Canals Act, 1864" (No. V, B.L.C.), and have reference to the undermentioned navigable channels, viz.:—

(1.) The river Bhagiruthee throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

DRAFT RULES

1. Except as may be herein provided, every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every laden vessel, excepting steamers and flats, shall for the purpose of the "Canals Act, 1864," and of these rules be determined by the following measurements:—

(*a.*) The product of half the length of the vessel from stem to stern, measured along the waterline, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c.*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds are to be charged.

3. The tonnage of every empty vessel, excepting steamers and flats, shall for the purpose of the "Canals Act of 1864" and of these rules be determined, and tolls shall be levied thereon, under the same rules and by the same system of measurement as above laid down for laden vessels, with the following exception, viz.—

The measurement of the depth of an empty vessel shall be made from the gunwale to the bottom of the vessel, instead of being taken from the waterline, as in the case of a laden vessel.

4. The measurement of steamers and flats shall be taken to be as ascertained by the Master Attendant's Department at Calcutta for the payment by such vessels of the port dues under the Merchant Seamen's Act, subject to the following deductions: —

(*a.*) In the case of steamers, 35 per cent. of the tonnage of the hull, excluding the cabin accommodation altogether, will be allowed as the tonnage of the engine-room, coal-bunkers, &c., and toll will be levied on the remaining 65 per cent. of the tonnage.

(*b.*) In the case of flats, 10 per cent. of the tonnage will be allowed for accommodation, &c., and tolls will be levied on the remaining 90 per cent. of tonnage.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea rivers, as well as boats used by police officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to police officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

6. If a vessel, on which toll has been duly paid, be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day. Provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo-vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the Chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nuddea rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

10. Immediately after entering the Chowkey limits, the manjee of every cargo-vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring Mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix EI.), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix EII.), which shall entitle him to pass the Chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the Mohurir in charge of the Chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the Mohurir a ticket in the form annexed (Appendix EIII), which shall entitle such vessel to pass Chowkey limits without further charge.

14. Passenger boats having on board cargo other than that is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip, shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the Chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th; and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer, and 8 A.M. and 5 P.M. in winter.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such applications shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

.21. Any officer of Government or other person claiming exemption under rule 5 shall be supplied by the measuring Mohurir with a certificate in the form annexed (Appendix EIV), and shall fill up and return such form to the Mohurir, who shall thereupon grant a passenger ticket in form (EIII). In case of doubt as to the good faith of any claim to exemption from toll, the measuring Mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timbers exceeding in all twenty in number, shall pass into or through any of the Nuddea rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

24. For every vessel or raft, or fleet of vessels or of rafts, and for every timber which shall pass into, or out of, or through any of the Nuddea rivers in violation of rules 22 and 23, the owner thereof or the person in charge shall, on conviction by a Magistrate under section 18 of the "Canals Act, 1864," be punishable by a fine not exceeding Rs. 10 for each vessel, raft, or timber in excess of the number authorized, besides being subjected to the payment of the prescribed toll on the same. The payment of the toll shall, if necessary, be enforced in the manner described in section 9 of the "Canals Act, 1864."

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations, may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand; and on depositing such amount as the Board of Revenue may determine, they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorized to receive payment thereof.

27. Refusal to pay the toll on steamers or flats, except on those which are furnished with a certificate under rule 25, or evasion, or attempt at evasion, of such payment, will be dealt with under sections 9 and 10 of the "Canals Act, 1864;" except that, instead of the vessel being seized and detained as directed in section 9, any separate cargo or stores, the sale-proceeds of which will be sufficient to defray the amount of toll that should be paid, and which can, without inconvenience or danger to itself or to the rest of the cargo, be taken out of the vessel, shall be so taken out and detained, and subsequent proceedings shall be taken thereon as directed in section 9.

28. Any person who may without just cause refuse to pay any toll demanded of him by the officers of the toll establishment, or who may evade, or attempt to evade, any such toll, or who may be a party to the transfer, or attempted transfer, of any ticket or pass, or who may without reasonable cause neglect or refuse to place his vessel in any situation in which he may be required by the Toll Collector to place it, or who may without reasonable cause neglect or refuse to remove his vessel from the measuring ghât after measurement, or unload cargo without the permission of the Toll Collector, shall be punishable under section 10 of Act V of 1864 (B.L.C.), on conviction before a Magistrate, with a fine which may amount to Rs. 50, or with simple imprisonment in lieu of fine which may extend to one month.

29. Any person who shall without sufficient excuse neglect or refuse to produce when called upon by the Toll Officers, or by any other person whose duty it may be to check the collection of tolls on the rivers, any ticket or pass which he may be required by these rules to produce, shall be liable to pay tolls, whether he shall or shall not have previously paid them, and shall also be liable to a fine under section 10 of the Canals Act which may amount to Rs. 50.

30. Complaints against the conduct of the subordinate officers and enquiries for information must be preferred to the Toll Collector.

IRRIGATION.

The 1st July 1879.

No. 164.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for additional land required for retired embankment in the village of Jaggatpore, Pergunnah Kismat Kasijerah, zillah Midnapore, it is hereby declared that for the above purpose three pieces of land measuring 2 beegahs and 5 chittacks of standard measurement are required within the aforesaid village of Jaggatpore.

This declaration is made, under the provision of Section 6 of Act X of 1870, to all whom it may concern.

DRAFT RULES PROPOSED UNDER ACT III (B. C.) OF 1876.

Dated the 26th May 1879.

No. 145.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 1154 to 1159, Part I, of the *Calcutta Gazette* of the 23rd October 1878.

D. B. HORN,
for Joint-Secy. to the Govt. of Bengal,
P. W. Dept., Irrign. Branch.

RULES UNDER ACT III (B. C.) OF 1876.

1. The Collector, before awarding compensation under section 16, or making a reference under section 17, of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur.

3. Water shall not ordinarily be granted where the length of the village channel, from its head to its point of contact with the village boundary, exceeds two (2) miles.

4. Water for irrigation shall not be supplied, except through a village channel so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*)—the water will pass without wastage;

(*b*)—the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation will not be obstructed.

5. Persons desirous (i) of constructing a village channel, (ii) of registering a channel already constructed, (iii) of taking water from a village channel, or (iv) of taking water from any outlet provided by Government, shall prefer a written application to the Divisional Canal Officer, or to some officer duly authorised by him to receive such applications. In the first two cases (i) and (ii), if the application be received by an officer subordinate to the Divisional Canal Officer, it shall be forwarded to him for orders.

6. An application under rule 5 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions :—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-divisional Canal Officer.

(*b*)—That the Sub-divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called "Suttadar"), known or ascertained to be a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of a Suttadar, the Sub-divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

(*d*)—That the Collector shall appoint a headman (to be called Tehsildar) whose sole duty will be to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the village channel.

(*e*)—That the Tehsildar shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under rule 11.

(*f*)—That previous to water being taken for any field, a written application shall be made to the Sub-divisional Canal Officer or any subordinate authorized by the Divisional Canal Officer to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B) from competent authority.

(*g*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates that there is likely to be difficulty in the realization of the water-rates, he shall intimate the same to the Collector, in whose option it shall be to require payment of water-rates in advance, and the Collector shall inform the Divisional Canal Officer of any villages where he considers that water should not be granted without previous payment.

(*h*)—That any other cultivators in the same village, able and willing to irrigate their lands from the village channel, may, subject to the approval of the Divisional Canal Officer, be admitted as shareholders in it, on paying their proportionate share of the first cost and maintenance thereof, to be determined by the amount of irrigable land held by them.

(*i*)—That all alterations in the number of shareholders or distribution of shares shall be reported to the Sub-divisional Canal Officer for the sanction of the Divisional Canal Officer.

7. The Divisional Canal Officer is empowered to pay to the Suttadar appointed under rule 8 the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

8. The allowance to the Suttadar for duties connected with that village channel, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be one-half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

9. The allowance to the Tehsildar of a village channel for collecting the water-rates shall be one-half anna in the rupee on the amount actually paid in by him. If the Tehsildar shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be within the discretion of the Collector to pay him the allowance on the whole or on any part of such arrears.

10. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

11. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

12. The Sub-divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that the village channel is not maintained in proper repair. In the case of any such closure of a registered channel, immediate report thereof, with any necessary explanation, shall be made to the Divisional Canal Officer.

13. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the Suttadars of village channels. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Canal Officer to stop any supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates, under section 76 (*b*), shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person or through their headman, to the nearest Sub-divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (*c*) the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follow :—

WATER-RATES.

NOTE.

1 Cottah ... ... = 1 361 25 s. feet.
1 Beegha ... ... = 27,225 00 „
1 Acre .. . . = 43,560·00 „

18. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

19. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

20. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The Suttadar will be held personally responsible for the due observance of this rule and of rules 19 to 23 and 24.

21. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

22. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

23. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated.

24. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The Suttadar to be held responsible for reporting such waste of water.

25. When the original crop sown in a field, irrigated by the canal water, fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

26. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

27. All water-rates shall become due on the dates noted on the "permits," as herein below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.—15th April.
Water-rate on summer crops, cheena, &c.—15th August.
Water-rate on bhadoi crops, early rice, Indian-corn, murwa, &c.—30th November.
Water-rate on annual and winter crops, sugarcane, aghani rice, joaur, &c.—31st January.

28. In the case of lands held in bhaoli, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the bhaoli rents, in the same proportion as the produce is divisible amongst them.

29. Collection of all water-rate shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

30. Objections to the demand addressed to the Collector shall, if remission be claimed on the score of short supply or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The collection of the demand shall not be suspended on account of any such objection.

31. Claims for remission referred by the Collector and admitted by the Divisional Canal Officer shall be reported by him for the sanction of the Superintending Canal Officer,

except in cases where remissions are made on account of excess areas having been charged for, or wrong name entered in the khatiauni.

32. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

33. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

34. In special cases not otherwise provided for by these rules, and in cases in which water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may dèem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

35. If a cultivator is dissatisfied with the entries made against him in the khatiauni, whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the Suttadar of his watercourse, with the Divisional or Sub-divisional Canal Officer at least seven days prior to the cutting of the crop.

36. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

37. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

38. The Ameen appointed to measure up the area irrigated in any village shall, before leaving it, make over the khusras to a Mohurir, who will then compile the khatiauni. A copy of the khatiauni will be taken by the Putwaree, who must, as a rule, make it himself; but if he cannot from any cause do so, the Mohurir must make it, and the Putwaree is to be held responsible that he gets a copy.

39. The copy of the khatiauni thus made shall be hung up in some conspicuous place in the village, and slips in the prescribed form (Appendix D), showing the amount he will have to pay, area irrigated, &c., shall be prepared by the Putwaree and given to each ryot.

40. The allowance to the Putwaree for the above work shall be one-quarter anna in the rupee on the collections, and shall be paid to him by the Collector on his being satisfied that the work has been properly done.

41. The measurements of each crop irrigated shall be made as soon as practicable, and every care should be taken to have the khatiauni hung up in the village at least fifteen days before the crop is cut, so that the ryot may make his complaints, if he have any, in good time.

42. In case of any subsequent alteration of the khatiauni, owing to correction of clerical errors, &c., such alteration shall be at once communicated to the Putwaree to enable him to correct the village copy and slips accordingly.

43. The Zilladar shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-divisional Canal Officer shall also check the Ameens' measurements as often as he possibly can. If it be found that any Ameen wilfully or frequently makes wrong measurements, he shall be punished by dismissal, and shall be declared incapable of obtaining further employment under Government.

At the time the stamps are first punched a serial number should be entered on every document (including certified copies issued) immediately below the stamps, and in column 1 of this register; in the remaining columns of which will be entered the amount of the fees of each kind realized on the document. The entries in this register will be totalled daily, and the results entered in the Daily Abstract Register.

No. 26, dated 21st June 1879.

The attention of the Judges having been called to the fact that the Circular Order No. 12, dated 31st March 1879, lays down a rule for the guidance of the subordinate Courts in a matter which may more conveniently be left to be disposed of by a judicial decision, I am directed to say that the said Circular is hereby cancelled, and, in lieu thereof, the Court desires that all District Judges and all Moonsiffs at out-stations will publicly impress upon Pleaders of all grades a sense of their responsibility to the Courts in which they practise in the matter of accepting vakalutnamahs from parties themselves, or from persons professing to be authorized by special or general powers of attorney to act on behalf of other persons.

2. The Courts accept vakalutnamahs on the responsibility of Pleaders. A Pleader accepting a vakalutnamah purporting to be executed by his client in person is bound to satisfy himself that it was so executed. When it purports to be executed by a third party on behalf of his client, he is bound to ascertain that such person has been duly empowered by the client to appoint a Vakeel, and has himself executed the vakalutnamah.

3. The Judges and Moonsiffs above mentioned, after reading and explaining this order to the Pleaders at their stations, will record a proceeding setting forth that they have done so, to which the Pleaders will be requested to attach their signatures.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER FOR BENGAL FOR THE YEAR 1878.

FINANCIAL DEPARTMENT—SANITATION.

Calcutta, the 24th June 1879.

RESOLUTION.

READ—

Annual Report of the Sanitary Commissioner for Bengal for the year 1878.

Note on the progress made in birth and death registration in British India by the Sanitary Commissioner with the Government of India, dated 28th April 1879, forwarded under cover of Home Department circular No. 5—121, dated 16th May 1879.

The eleventh Annual Report of the Sanitary Commissioner is submitted in the curtailed form prescribed by the Secretary of State in his despatch of the 27th June 1878. The usual sections on Meteorology, the European Army, the Native Army and Jails, are accordingly omitted.

2. The fifth section of the old form therefore virtually becomes the first of the present report and is devoted to the vital statistics of the province. In this respect also there is a considerable change from the report of last year, viz. in the registration of births. This

Vital statistics.

Government, in paragraph 19 of its resolution on the report for 1877, directed the discontinuance of the registration of births as being too imperfect, and of too little service to warrant its continuance. The Government of India, however, in acknowledging the report and resolution, requested a reconsideration of these orders, and it was accordingly directed that births should be registered in all first-class municipalities. As a fact, however, they have been registered in 51 second-class municipalities and 13 unions, besides the 25 first-class municipalities. Hence the births among a population of 2,314,625 only (according to the last census) have been registered this year against the births among a population of 58,281,453 last year. As regards the registration of deaths, however, there has been no practical change; the mortality has been registered of a population, according to the last census, of 59,998,435 against 59,993,332 in 1877.

Births.

3. The births registered were 1,785 still-born and 45,288 born alive, giving a ratio of 19·56 per mille. Although the female population in the towns under registration is only estimated at 47·5 per cent., and consequently some reduction in the birth-rate is to be expected, still it is evident that the number registered can hardly exceed half the number of actual births. Even in Calcutta, where the organization is so much more complete, it is found impossible to obtain correct, or even approximately correct, birth statistics. It is useless therefore attempting to make any use of these figures as a whole. It appears, however, that among the 89 towns in which births were registered, six registered over 40 births per mille, including one (Jamalpore) in which the births reached 55·67 per mille. As births are undoubtedly more numerous proportionately in the rural tracts, it seems probable that 50 per mille would not be at all too high a rate for the province as a whole; in fact, looking to the enormous mortality among children in the first year, referred to below, the rate can hardly be less in a normal year.

Deaths.

4. The registered deaths only amounted to 17·73 per mille, but in judging of the value of this record, a wide distinction must be drawn between urban and rural registration. In 429 urban circles the ratio of registered mortality was 35·13 per mille, while in the 1,295 rural circles it was only 17·01. The urban registration shows an increase upon last year, when the rate of recorded deaths was only 32·49 per mille, but rural registration fell off from 17·39 to 17·01, and consequently, owing to the vast preponderance of the rural over the urban populations, the rate of mortality registered over the whole province declined from 17·96 to 17·73.

Falling off in the registration of deaths in 1878.

5. This is the first year in which there has been a decline, the ratio having gradually risen from 3·92 per mille in 1870 to 17·96 in 1877. Dr. Coates seems unwilling to admit that there can have been any real falling off. Paragraphs 69 and 70 of last year's report indicated such special and exceptional exertions on behalf of the Magistrates and District Superintendents that apparently very different results were anticipated, and accordingly the Sanitary Commissioner contends that the diminished registration is solely due to the termination of the cholera epidemic in Chittagong, Noakholly and Backergunge, where the registered deaths from that scourge were only 3,023 in 1878 against 49,733 in 1877. As this gives a difference of 46,710, and the falling-off in registered deaths in the whole province only amounted to 13,485, there is under other heads and in other districts a considerable increase.

6. This argument is valid so far as it goes, but it loses sight of the consideration that there is every reason to suppose that, while cholera was less prevalent in 1878 than in 1877, the former year was on the whole much the more unhealthy of the two, and the aggregate mortality in it was greater. This is certainly the general impression based upon the widespread prevalence of fevers of a malarious type, and it is fully borne out by the statistics of registration where they can be relied upon. Thus in Calcutta the registered mortality in 1878 was 38·1 per mille, as against 31·9 per mille in 1877, and this in spite of deaths from cholera having declined from 1,418 to 1,338. In the suburbs the registered mortality was 66·94 per mille against 62·38 in 1877, cholera, however, increasing from 2,018 in 1877 to 2,364 in 1878.

7. Still more to the point, however, is the evidence of the mortality in jails, cantonments, and lunatic asylums, as these are spread over the province, and therefore furnish a test to a certain extent of the death-rate in all parts of the Lower Provinces. In jails the average mortality in 1878 was 71·7 per mille on average strength, as against 50·6 per mille in 1877; in cantonments 30·85 per mille in 1878 against 24·25 per mille in 1877; and in lunatic asylums 95 per mille in 1878 against 65 per mille in 1877. These statistics, all converging as they do to the same conclusion, and corroborating the *á priori* probability that high prices would conduce to an anæmic condition among the poorer classes with fixed incomes; and especially among the very old or very young and pauper community, seem to the Lieutenant-Governor almost decisive in proof of an increase of general mortality in 1878 as compared with 1877, and show that accurate registration in the rural circles has fallen off relatively even more than it has done absolutely.

8. Indeed this result need not cause any surprise looking to the very inadequate machinery available for rural registration and to the influences on which its success has to depend. The primary registrars are with very few exceptions the village chowkidars, over whom, especially in all the smaller villages not brought under Act VI (B.C.) of 1870, the district officials can exercise but a very slender control. When a stir is made by the Magistrate or the District Superintendent, a certain portion of the chowkidars, the more amenable to influence, exert themselves and bring in returns approaching to correctness; others, however, especially those who receive no regular pay, cannot be brought to exert themselves. Up to a certain point, if the pressure from above is sustained, improvement will continue; but after reaching the point at which it becomes apparent that little if anything results from their exertions, the zeal both of officials and subordinates must decline. Thus it is almost evident that where registration is not compulsory, and where the chowkidars are badly and irregularly paid, registration can only be brought up to a certain point, after which further progress will necessarily be very slow.

Comparative accuracy in Orissa.

9. It cannot be expected that rural registration in the Lower Provinces will attain even to the approximate accuracy which is reached in the Central Provinces, or even in the Panjab or North-Western Provinces. The village machinery in Bengal, and the hold of Government officials over this machinery, is infinitely weaker than in temporarily settled provinces. The only part of Bengal which at all corresponds with the Central Provinces in this respect is Orissa, where the greater part of the land is temporarily settled, rent suits are still decided by the Collectors, chowkidars have service lands, and patwaris and canongoes are general; and though Orissa is in many respects a backward province, and the conservative tendencies of the Ooriyas might be expected to prove unmanageable, it is precisely in these districts that rural registration is least imperfect. In Appendix II, the Sanitary Commissioner gives the full details of registration in all those districts in which the ratio of registered mortality exceeds 25 per mille, as prescribed in paragraph 13 of the Government Resolution on the report for 1877. The seven districts which fall under this category are Hooghly, the 24-Pergunnahs, Moorshedabad, Patna, Cuttack, Pooree, and Balasore, that is, all the three temporarily settled districts and but four out of the remaining districts in Bengal. If, however, the figures are analysed, the result is still more decisive. In all the four districts first named, the average is largely due to the populous and numerous towns in which registration is on a better footing. Omitting these towns, rural registration *per se* declines to—

Hooghly	...	24·09 per mille.
24-Pergunnahs	...	19·88 „
Moorshedabad	...	24·73 „
Patna	...	23·35 „

or in no single case above 25 per mille; whereas, excluding the urban registration in Orissa, it is found that—

Cuttack registered	...	26·67 per mille.
Balasore „	...	26·10 „
Pooree „	...	28·02 „

so that it is eventually ascertained that the only districts which in their rural

circles registered over 25 per mille are the three temporarily settled districts of Orissa.

10. In other provinces the results of rural registration for 1877, the latest year the reports of which have been received, were—

Berar	27·9
Central Provinces	23·08
Punjab	19·
North-Western Provinces and Oude	18·99
Burmah	15·03
Assam	10 6

Thus if 1877 is a fair test of 1878 in other parts of India, the statistics of rural registration in Orissa need fear comparison with no other province in the Bengal Presidency.

Accurate registration in towns more important than in rural circles.

11. It should also be remembered that, looking to the objects of registration, it is much more important for the present to secure an approach to accuracy in towns than in the country. One of the chief objects of correct registration is to draw the attention of the Government officials, and of the more intelligent residents, to the insanitary condition of places where mortality is exceptionally high, and thus as far as possible to remedy the evil: or, as the Sanitary Commissioner with the Government of India expresses it, in reviewing the results in 1877, "the object of registration is to localise disease, so that the causes which produce it may be sought out and if possible removed; to bring to the notice of the people any excessive mortality occurring, so that they may be impressed with the importance of bestirring themselves in sanitary reform." But while this object is to some extent attainable in towns, it must be for many years to come altogether unattainable in the interior. In the case of a town, the area which forms the unit of registration is comparatively small; the town itself is regulated by sanitary rules of more or less efficiency; it has a governing body to enforce these rules, and municipal funds to admit of carrying out improvements. If it is shown therefore that any particular town is exceptionally unhealthy, some good effect may reasonably be looked for.

12. On the other hand, the rural units of registration are almost always thannas extending over areas of from 100 to 300 square miles, and containing from 200 to 600 villages; in each of these villages nothing is done, nothing can be done, for sanitation except by the spontaneous adoption of improved habits among the people. If registration were sufficiently accurate to prove that in any thanna the mortality had been excessive, little or nothing would have been thereby gained. It would still be a matter of difficulty to ascertain to which villages of the thanna the excess was due; and even if this were ascertained, there is hardly a village in Lower Bengal the sanitary arrangements of which would not be condemned in *toto* by an inspecting officer, and the carrying out of his most elementary recommendations would cost more than the heaviest rate imposed upon the village and devoted to this sole purpose would realize, even were such a measure possible. There is no staff of officers to superintend the work; no village authority that could be relied upon to enforce attention to orders. As the Sanitary Commissioner with the Government of India remarks: "The Government can never cleanse India by any legislative enactment, or remove the many defects which more or less affect the inhabitants of every town and village throughout the country. This must be the work of the people themselves acting individually and through municipalities;" and where there are no municipalities, and individual action has to be relied upon, it must evidently be a work of time and education.

Urban registration.

13 It is therefore gratifying to observe that registration appears to be much more accurate in the towns. Deaths are at present registered in 93 municipalities and unions, containing a population of 2,370,803 inhabitants, and the rate of deaths registered in them as a whole was 35·13 per mille. The rate in Calcutta during the same period was 38·1, and if the death-rate in provincial towns is not on the whole greater than in Calcutta, a fair standard of accuracy would appear to have been attained. Of these 93 towns, however, 11 registered less

than 15 per mille, and 5 more registered between 15 and 20 per mille; the registration in the former must have been, and in the latter probably was, defective. If these are omitted, the average would be raised to very nearly the rate recorded in Calcutta.

14. In other provinces of the Bengal Presidency the death-rate registered in towns in 1877 was as follows:—

Central Provinces	35·86
Burmah	34·73
Punjab	33·
Assam	32·3
Berar	31·4
North-Western Provinces and Oude	29·43

15. It appears therefore that in all parts of the country either towns are much more unhealthy than villages, or urban registration is much more perfect. Looking to the accuracy said to have been attained in the Central Provinces, it appears probable that if registration could be improved in the few towns referred to above, in which it is still defective, urban registration in Bengal might be considered to be fairly correct.

16. The more the prospect of obtaining accurate registration in towns and municipalities appears attainable, the more important it becomes to test these figures and detect the points in which they are still imperfect; more especially it appears desirable to do this as regards the ages and sexes of persons recorded as deceased. The tables at present appended to the report are Form II, sexes of the deceased; Form III, months in which deaths are recorded; Form IV, ages of deceased persons; Form V, classes. In each of these forms the figures are for the whole province, rural and urban circles being combined. Form VI shows the causes of death, and in this form only the rural and urban circles are shown separately. Hence there are no materials in the report for ascertaining to what extent infant mortality has been registered in towns, and how far the relative mortality as regards the sexes is reasonable and probable. It seems to the Lieutenant-Governor that as the urban statistics are evidently far more accurate than the rural, and also, as accuracy in them is of more importance, it would be advisable to exhibit next year's urban circles and rural circles separately as regards age, sex, and class.

17. Taking the figures for Bengal as a whole, the mortality among males was 20·00 per mille, and among females 15·47, while the percentage of deaths among children below one year of age to total deaths was 12·75. As the experience of 20 years in England gives about 20 to 18·35 as the relative mortality of males and females, and 24·23 as the percentage of deaths under one year to total deaths, this would seem to indicate defective registration as regards female and infant mortality. As it is far from certain that the proportion of living males to females is as great in England as in India, the inference regarding female mortality is not very decisive, but so far as infant mortality is concerned the subject well deserves special attention. Dr. Payne has clearly shown from the statistics of Calcutta that, in this city at any rate, the extent of infant mortality is appalling. He calculates the ratio of deaths under one year to births at 320 per mille in 1876, 348 per mille in 1877, and 364 per mille in 1878, this being exclusive of children born dead. Moreover about half of these deaths occur within 15 days of birth. The causes of this mortality which is peculiar to native children—European infants not dying at more than one-fourth of the above rates—are fully discussed at paragraphs 19 to 34 of his report as Health Officer of the Municipality for 1876. On the other hand, it is admitted that, were it not for the marvellously injudicious treatment of infants, the climate of India would be more favourable to infant life than that of England. If, as is supposed, registration in the Central Provinces is accurate, the mortality there during the first year of life is 147 per mille boys and 143 per mille girls, or an average of 145 per mille, which is not very different from the English rate.

18. It would be very interesting if the Sanitary Commissioner could obtain figures in some of the municipalities where registration is most reliable, which would show whether infant mortality in mofussil towns at all approaches the excessive rate in Calcutta.

Places which recorded the highest mortality.

19. The places that recorded a mortality above 4 per cent. during the last two years are shown below, together with the death-rate per mille in each :—

			Jamalpore	...	44·58
			Burhea	...	44·40
			Revilgunge	...	43·30

It is remarkable that, while the same four towns are found at the top of the list in either year, no other town occurs in both lists except Kendrapara.

Pooree.

20. In Pooree the heavy mortality might be expected; cholera alone carried off 23·66 per mille in 1877 and 23· in 1878, being more destructive there in either year than in any other town in Bengal. The fever rate was comparatively low, 5·68 in 1877 and 10·31 in 1878. The cholera mortality in this city brings out most prominently the evil effects of the pilgrim traffic in propagating this disease, and fully justifies the efforts made in other large towns along the route, *e.g.*, Cuttack and Midnapore, to divert the traffic and prevent the stream of pilgrims entering the towns.

English Bazar.

21. In English Bazar cholera was destructive to life in 1877, but not so to any extent in 1878, the ratios being 14·85 and 1·08. Fever, on the contrary, caused a mortality of 24·65 in 1877 and 39·89 in 1878. Neither of these municipalities was visited by the Sanitary Commissioner either in 1877 or 1878, and Dr. Coates should take an early opportunity of inspecting them, especially the latter, and ascertaining whether the excessive mortality can be traced to any special and preventible causes.

Serampore.

22. In Serampore 4·00 per mille of the deaths are due to cholera and 29·04 to fevers in 1877, and 5·60 to cholera and 42·63 to fever in 1878. In either year bowel-complaints also contributed considerably to the mortality. The town was inspected by the Sanitary Commissioner in December 1878, and a copy of his report has been received by Government. He recommends the extension of Act VI (B.C.) of 1878 to the town, empowering the Commissioners to control public and private latrines—a recommendation which the Lieutenant-Governor is glad to see has been accepted by the Municipal Commissioners. As regards drainage, a survey is being made, pending which he declines to make any positive recommendation, but inclines to favour a scheme by Mr. Pellew, the late Magistrate of Hooghly, which is now under consideration. The following extract from his report acquires a special interest, looking to the fearful mortality that has occurred during the year:—"The action of the municipality in regard to drainage is greatly hampered by important drains being claimed as private property and forthwith closed, thus rendering litigation and much expense necessary, which hitherto has ended in the decision of the courts being in favour of the owners. The decision in favour of Tariny Churn Bose has led to Rishra and Mohesh remaining undrained, which is the cause of much sickness in those localities." As regards private latrines, Dr. Coates describes them as being very bad, and remarks that it is "surprising that such unhealthy and disgusting arrangements should be allowed to continue." The Lieutenant-Governor hopes that the Commissioners will give their best attention to this subject, which is believed to be now under their consideration; in many respects it must be admitted that they have done much for the town.

23. The mills in Serampore have attracted about 20,000 workmen, and Dr. Coates recommends that attention be paid to the improvement of the sanitation of their huts. The collection of this large number of laborers, however, suggests another and more hopeful solution of the heavy mortality in Serampore, viz., that the population has materially increased, and that the recorded deaths represent a mortality among over 40,000 persons, instead of the 24,440 shown at the last census. It may well be that in many of the smaller towns the population has increased so much since the last census that the retention of these figures as the basis of the mortality rate must be deceptive.

Suburbs of Calcutta.

24. The excess mortality in the suburbs of Calcutta, as compared with the town of Calcutta, has for some time past attracted attention, and the present year, in which the Calcutta death-rate was 38·01, and that of the suburbs 66·94, is no exception to the rule. Of this, cholera, which is debited with a ratio of 7·84 per mille in 1877, caused 9·19 in 1878, while fever is shown as causing 26·09 and 30·77 in these two years. Looking to the great similarity between the populations of Calcutta and the suburbs, their habits, their occupations, and the climate in which they live, it would certainly seem that the sanitation of Calcutta, whatever its faults, has done much to benefit the town, and that to its drainage and water-supply it owes the undoubted fact that year by year its mortality is more than one-third less than that of the suburbs.

Season of greatest mortality

25. The comparative uniformity as regards the period at which the greatest and least mortality occurs is sufficient to justify the conclusion that it is now pretty well established that the beginning of the cold weather is the most unhealthy time of the year in the Lower Provinces. This year, as in the preceding year, and also in the average of the five preceding years, December was the month of highest mortality. April came next to it and then January, instead of November as in the preceding five years, but November came fifth; and in both years and in the average of years it is found that the mortality falls in January and February, increases in March and April, then decreases to July, when it rises a little to the end of September, and then very rapidly in October, November, and December.

Schemes for improving registration

26. In paragraphs 8 to 10 of the report, the Sanitary Commissioner explains the measures that are being taken to improve registration throughout the country both by his office and by the local officers. The measures adopted by Captain Ramsay, District Superintendent of Patna, are specially commended and are described as follows:—

"But of all the schemes to improve registration, the one most worthy of notice and of general adoption is that which was inaugurated at Patna by Captain H. M. Ramsay, the District Superintendent of Police, who paid great attention to the subject, and whose services deserve acknowledgment. For the purpose of ascertaining the geographical prevalence of crime in Patna, Captain Ramsay divided the police stations and outposts into beats and placed each in charge, as far as possible, of 20 chowkidars. In order to utilize this arrangement for the purpose of improving registration, he instituted an index or table, showing the names of the chowkidars in each beat, the number of houses in charge of each, the number of deaths reported by him, and the percentages of deaths reported from every 100 houses. On the supposition that each house contains five persons, he calculated that the percentage of deaths in every 100 houses represents the number of deaths among 500 persons, and that this number of deaths multiplied by two shows the ratio of deaths per 1,000 of the population. Thus, say 36 deaths are reported to have occurred in 120 houses:—

	Deaths per 100 houses of 500 persons.	Deaths per 1,000 of population.
∴ $36 \times 100 \div 120$	$= 30 \times 2 =$	60

After inspecting a station or outpost, Captain Ramsay prepares this table, arranging in it the names of the chowkidar in order of merit, that is, in accordance with the number, highest to lowest, of deaths reported in proportion to the number of houses in their charge respectively, and having paraded the chowkidars, he asks those who have been remiss or careless in reporting deaths, as ascertained from his table, if their own conscience does not tell them whether he is right or wrong in imputing neglect to them. This procedure has been found to have great effect on the men, and has tended to make them more careful in the discharge of this portion of their duty. If other Superintendents of Police would only interest themselves in this manner, registration in Bengal would not compare so unfavorably with those of the other provinces of India. The world will have statistics, and we may as well adopt means of getting them as perfect as possible."

27. It must not be lost sight of that the primary and essential duty of the police is the prevention and detection of crime and the maintenance of order, and if they see the District Superintendents paying more attention to mortuary statistics than to their more normal duties, the importance of the latter may unduly suffer by the relative prominence given to the former. But even if it is assumed, as is perhaps fair, that the attention which Captain Ramsay bestows on his regular police duties, when inspecting thannas and outposts, is such as to prevent the possibility of any such misconception, still it seems open to question whether the system is not overdone. However true it may be that a tolerably regular death-rate will be found to occur over large bodies of persons, and taking a year as the unit—and even then great fluctuations are observable—this can hardly be applied to small bodies and short periods. Captain Ramsay probably visits each station about twice a year, and the population under each chowkidar would not exceed 80 to 100 houses. It can scarcely be expected that the mortality among some 500 persons every six months will be so regular as to make it safe 'to appeal to the conscience' of any chowkidar whose deaths fall short of the required ratio. It may be remarked also that the statistics of the Patna district at the census of 1872 gave a population of 5·78 per house, or much nearer 6 than 5, the figure adopted by Captain Ramsay.

Irregular payment of Chowkeedars.

28. Dr. Coates again urges the desirability of the wages of the chowkidars being paid into the treasury and issued to them through the District Superintendent of Police. Of the benefit of this proposal, so far as increasing the hold of the police over the chowkidars is concerned, there cannot be two opinions; but the Sanitary Commissioner does not point out how it is to be effected. In regard to villages brought under Act VI (B.C.) of 1870, the punchayets appoint the chowkidars, collect their wages, and by section 43 of the Act also pay them. In villages not under that Act, the chowkidars collect their own wages so far as they can. The Magistrate has no legal authority to enforce payment, and if the chowkidar has once collected what he can, nothing would be gained by requiring him to pay it into the treasury and draw it out again.

Question whether returns are ever falsified.

29. It must not, however, be supposed from these comments that the Lieutenant-Governor in any way depreciates the advantage of obtaining correct statistics, or that he would do otherwise than approve and encourage all well-considered, well-sustained and practicable measures for effecting this object. He cannot, however, shut his eyes to the mischief done by basing conclusions on utterly unreliable statistical returns. As regards the possible falsification of returns in paragraph 12 of the Resolution on the report for 1877, the Sanitary Commissioner was directed to give his best attention to this question, and to report upon it this year. In paragraph 12 of this year's report, Dr. Coates states that all districts, except seven, have replied to his enquiry on the point, and that—

"The replies from the rest show that no instances of falsification have been known to have occurred. Some of these reports state moreover that, on the contrary, several are the cases in which omissions to record deaths have occurred, that errors of diagnosis are frequent, and that in districts where the reports of the chowkidars are checked by returns furnished by punchayets, village-headmen, putwaries and others, the danger of detection is great. At Durbhunga, however, it was detected in a case of criminal prosecution that the name of a deceased person had been altered in the registers; the object was to show that the death of a person supposed to have been murdered had been reported in due course."

30. This is satisfactory as far as it goes, but it would have been more so if the report had explained the nature of the enquiry made by the local officers to test the returns. If they merely relied on the fact of hearing of no such cases, the absence of any evidence to the falsity of the returns would not be worth much. Obviously, where no one is injured by false, imaginary, or double entries of deaths, many years might elapse before attention would be drawn to the subject. If in some of the rural and urban circles in which the mortality has been most suspiciously regular for two or three years in succession, a hundred consecutive entries were taken at random and tested, and it was found that in every case there had been a real casualty corresponding to the entry, the result would furnish good ground for inferring that no such falsification was taking place. Even if at present this is not practised, it must be evident that such measures as those adopted by Captain Ramsay, and described above, must induce a tendency

in that direction. First one chowkidar, and then another, whose clients refuse to die in the proper proportion, will take to supplementing the defects of nature by the resources of imagination, and if they succeed without being detected, the practice will soon spread. On this point the remarks of the Sanitary Commissioner with the Government of India are well worthy of attentive consideration :—

"As regards both birth and death registration, it may be said, in conclusion, that no pressure ought on any account to be put either on the police or other authorities concerned. If anything of this kind be attempted, it must lead to most disastrous consequences. Petty fines in municipalities, if levied judiciously, will no doubt have a good effect; and any gentle pressure of this kind put on the *people* will tend to better registration. But this is a very different thing from putting pressure on the police, from urging them to return deaths or births according to the Sanitary Commissioner's ideas of what they ought to be, or of placing different districts and other places in order of merit according to their recorded mortality. If the police or other local authorities have an idea that they will be judged in this way, there will be no want of deaths; and registration, instead of making progress, will go from bad to worse."

Cantonments.

31. In cantonments the mortality among natives was 30 85 per mille in 1878 against 24·25 in 1877, but Fort William shows only 1·12 per mille, and is therefore described by the Sanitary Commissioner as the healthiest. The Lieutenant-Governor observes that in 1877 the mortality in Fort William was *nil*, and in 1876 1·02 per mille. These rates in successive years would indicate such marvellous salubrity of the Fort, as regards the 900 to 1,000 natives living in it, that it is impossible to avoid the inference that either the mortality is not recorded, or that all natives living in the Fort, and falling ill there, usually remove outside its limits before death has time to intervene.

Port of Calcutta.

32. The number of sailors visiting Calcutta during the year is estimated at 18,965 of all nationalities as against 29,819, exclusive of foreigners, reported in 1877. Of these, 3,292, or about 175 per mille, were admitted to hospital, but only 80, or 4·21 per mille, died. The mortality was not so high as the Lieutenant-Governor would have anticipated, but as many of the sailors who visit the port only remain a few days, and most of them only a few weeks, it is of course very much higher than it looks. As regards the locality from which the sickness occurred, the Sanitary Commissioner states that the Hastings Ghât moorings were the unhealthiest, and next to that the Esplanade and Jetty moorings; but he bases this opinion on the absolute number of seamen admitted to hospital from the ships. Surely this datum alone, without any reference to the number of ships anchored off each place, and the number of sailors in them, is insufficient.

33. The Lieutenant-Governor is very glad to observe that nearly all the vessels leaving the port, except some Arabs, took away a supply of water from the hydrants, and that the arrangements for supplying it to the shipping are reported to be satisfactory. The total amount paid for water during the year was Rs. 54,865.

Cholera.

34. Section VI of the report is devoted to the general history during the year of the chief diseases, foremost among which is cholera. Although it is a somewhat hazardous inference to make, there appear to be grounds for supposing that as a fact mortality from exceptional diseases, such as cholera or small-pox, is reported with far greater accuracy than mortality from old age or more ordinary causes. Thus in Noakholly, where a cholera epidemic was raging in 1877, the mortality rose to 36·21, but with the cessation of the epidemic the ratio has fallen in 1877 to 10 46 only. As this can only be about one-third of the real mortality, we are led to the inference either that the cholera mortality in 1877 attained to the fearful proportion of above 70 per mille of the population, instead of 23·96 as reported, or that, however inaccurate registration may be in regard to ordinary diseases, it is more accurate as regards the more special diseases. If this hypothesis is correct, it may be assumed that the decline in deaths from cholera in 1877 (155,305 as against 196,390 in 1876) continued in 1878, when only 95,152 deaths are recorded.

35. The amount of cholera which occurred at the large fairs, detailed in paragraph 51 of the report, was on the whole very small; and if it can be accepted that all that occurred was reported, the results were very satisfactory. The

Sanitary Commissioner's opinion is that 'to no other disease in Bengal have preventive measures been so directly beneficial than to this most rapidly fatal of all.' Dr. Coates adds: 'My conviction has become stronger and stronger that there is a connection between impure water and cholera, and the one, in Bengal at least, is the chief (I would not make it absolute or conclusive) exciting cause of the other.'

36. Noakholly and Chittagong, which suffered so cruelly from cholera in 1876-77 after the cyclone, were almost entirely exempt from the disease in 1878. Not so Pooree, however, which both as a town and as a district was visited with equal severity in either year. It has been already remarked that this seems almost conclusive as to the effects of the pilgrimage. The Civil Surgeon of Cuttack evidently shares in this opinion, but the Magistrate appears to question it, mainly on the ground that the maxima and minima periods of cholera do not invariably correspond with the greatest and least pressure of pilgrims. He also seems to assume that the pilgrims can only carry cholera with them, and cannot contract it on the journey, as he argues that they could only introduce it on their *return* journey from Pooree. But places on the line of pilgrimage have to apprehend the cholera which pilgrims contract on the road, owing to their debilitated condition from fatigue and irregular habits, quite as much as the poison which they convey from other places. Granted that the germs are external to them in the water they drink, or the air they breathe, pilgrims are much more liable to their influence than ordinary well-nurtured residents.

Small-pox.

37. The year was on the whole a bad one for small-pox, the recorded mortality from which was 12,410 against 8,088. The Sanitary Commissioner seems to consider that the practice of inoculation, openly where it is not prohibited, and furtively where it is, is mainly responsible for the outbreaks of small-pox, and quotes with approval the remarks of Dr. Moorhead, Civil Surgeon of Cuttack, in favour of making vaccination compulsory. He also mentions with special approval the exertions of Mr. Armstrong, the Magistrate of Pooree, to induce the people to accept vaccination.

Fever.

38. Fever was generally very prevalent, probably much more so than during the preceding year, though it is chiefly in towns that the registration indicates its increase. In the rural tracts it is shewn as the cause for a mortality of 12·19 per mille, against 11·69 in 1877; whereas in towns it accounts for 18·02 against 15·87. In this, as in preceding years, December was the month of maximum and July of minimum mortality. The experience of many years past shows that invariably fever is at its worst in December or November, and at its best in June or July.

39. It is not necessary to repeat the remarks made last year as to the connection between fever and drainage. The subject is now, it is hoped, attracting the attention of most local officers, and all well-considered proposals meet with the best consideration of Government. The drainage works in Rungpore have most materially affected the public health there. The excessive mortality from fever in Serampore has been already referred to, and it is gratifying to observe that the health of Dinagepore has materially improved. How far this is due to the improvements effected on the suggestions of the Committee of Enquiry is a matter of doubt, as measures following on their suggestions would scarcely have had time to produce any effect within the year 1878. The Civil Surgeon ascribes it to the greater inundation of the Purnabhaba; but it must in fairness be remarked that in other places similar causes are often referred to as accounting for an increase of fever.

Section VII.—40. The vaccination report which is due from the Surgeon-General for Bengal has not yet been received. It will be separately dealt with in the Medical Department.

Section VIII, Military sanitary works, is blank for Bengal.

Sanitary works, civil.

Section IX.—41. The number of municipalities and unions shown by the Sanitary Commissioner is 176, with a population of 2,985,110 and income of Rs. 22,03,272, or about 12 annas per head. Of this, 26 per cent. is shewn as having been expended on sanitary works, 24 per cent. on police, and 42 per cent. on other objects. The difference, 8 per cent., represents the surplus of income over expenditure.

42. Most of this expenditure is incurred on works of a recurring character connected with latrines, drains, wells, tanks; as regards new works, Dr. Coates writes—

"One great drawback to progress, however, is that schemes proposed by municipalities for correcting defects, although attempted to be carried out at once, have to be abandoned, owing to the large outlay required for the purpose not being available Instead of doing nothing, it would be better if such schemes were judiciously divided into parts, to be taken up and carried out one after another according to their respective urgency and as funds become available. I am always careful not to suggest measures too great for execution or too expensive to be paid for."

43 Paragraphs 142 to 191 detail the measures that are being taken in each municipality to improve its sanitation. The Lieutenant-Governor is glad to observe that the subject attracts so much attention on the part of the district and municipal officers.

44. Dr. Lethbridge carried on the duties of the Sanitary Commissioner for the first 11 days of the year, Dr. Harvey held the office from the 12th January to the 13th August, Dr. Joubert from that date till the 19th November, and Dr Coates, who submits this report, resumed charge of his appointment on that date. 23 towns and municipalities were visited during the year, seven of them during the last month of it by Dr. Coates. The duties of the Sanitary Commissioner must suffer from such frequent changes, and the Lieutenant-Governor has taken measures to obviate this in future.

General Remarks

45. The remarks of Dr. Coates in paragraphs 207 to 213, on the subject of drains and public and private latrines, &c., are well worthy of the careful attention of all municipalities, and form an interesting termination to a well-written and instructive report.

46. Dr. Coates closes his report with two suggestions—

(1.)—To be allowed to print the statistics of each town and district, and circulate them quarterly, to show each Magistrate and Police Officer where others are succeeding better than himself;

(2)—To utilize Civil Surgeons more generally as Vice-Chairmen of Municipalities.

47. As regards (1), the same subject is adverted to in paragraph 13 of the remarks by the Sanitary Commissioner with the Government of India, who writes—

"Another stimulus to correct registration is the publication in the local Gazette of abstracts of the death and birth returns. Most of the provinces carry this out to a greater or less extent. In this Presidency, the North-Western Provinces, Punjab, Central Provinces and Berar, all publish such monthly statements, and in addition both the Punjab and Central Provinces publish weekly statements for municipal towns. Bengal has hitherto published nothing."

48. As regards municipalities which have adequate means to register correctly, the measure ought to be productive of good, and should certainly be adopted. As regards rural circles, it must be remembered that it is only by reaching the chowkidars that improvements can be hoped for, and it can scarcely be hoped that the publication of statistics, however widespread, will influence them. It may influence no doubt the Magistrates and District Superintendents, and through them the Police Sub-Inspectors; but the warning of Dr. Cunningham already quoted in this resolution ought not to be lost sight of, and it is much to be feared that, if police officers find their merits guaged by their percentages, there will be an improvement in the percentages that will outstrip the most sanguine expectations. The Lieutenant-Governor desires therefore that, if the rural statistics are published, they may be shown separately from the municipalities, and that too much stress may not be laid on the success of officers who show the highest percentages.

49. As regards the appointment of Civil Surgeons to be Vice-Chairmen of Municipalities, the Lieutenant-Governor is very doubtful whether it would produce the result expected, viz., the greater influencing of Native Commissioners in the direction of sanitary reform. The Civil Surgeon is already *ex-officio* a Commissioner of every municipality in his district, and this surely gives him an opportunity of pressing his views upon the notice of the Commissioners in all sanitary matters. The office of Vice-Chairman, however, is to

the fullest extent an executive office, requiring attention to roads, culverts, the removal of obstructions, accounts, and other details of municipal administration for which the Civil Surgeons as such would not necessarily have any aptitude, though there would of course be exceptions There is nothing, however, in the law which prevents the Civil Surgeon filling the post, and if such appointments are recommended with the consent of the officers themselves, the Lieutenant-Governor will not object to give the proposal a trial.

ORDER.—Ordered that a copy of this Resolution, and of the report, be submitted to the Government of India, Home Department, for information.

Ordered also that copies of the Resolution be forwarded to the Surgeon-General, Bengal, for information and communication to all Civil Surgeons and Medical Officers in charge of civil stations.

Ordered also that copies of the Resolution be forwarded to the Sanitary Commissioner for Bengal, and to the Judicial, Political (Medical), and Public Works Department of this Government for information, and to all Commissioners of Divisions for information and guidance and for communication to District Officers.

By order of the Lieutenant-Governor of Bengal,

ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS IN BRITISH SIKKIM, AND OF THE GOVERNMENT QUINOLOGIST FOR 1878-79.

FINANCIAL DEPARTMENT.—AGRICULTURE.

Calcutta, the 19th June 1879.

RESOLUTION.

READ—

Letter from the Superintendent of the Royal Botanical Garden, Calcutta, and of the Government Cinchona Cultivation in Bengal, No. 470, dated 8th May 1879, submitting the Annual Report of the Government Cinchona Plantation in British Sikkim for the year 1878-79.

Letter from the Government Quinologist, No. 70, dated 13th May 1879, submitting his Annual Report for the year 1878-79.

Both Dr. King and Mr. Wood have been very punctual in the submission of their reports to Government.

The operations in the plantation during the past year were greatly retarded by the unusual drought of the cold season, which caused the death of a number of old trees, and prevented the planting out of young trees. The consequence was that the plantation only admitted of being extended by 120¾ acres, against 250 acres in the previous year, namely, 75 acres in the new or Sittong division, and 45¾ acres in the old plantations at Rishap and Mungpoo.

2. During the year, 353,415 red bark trees (*C. Succirubra*) were planted out, namely 24,725 in Rishap and Mungpoo, to replace old plants uprooted in taking the bark crop, and 328,690 on new land,—124,590 in Rishap and Mungpoo, and 204,100 in Sittong. In addition to the above, 300 plants of a hybrid species were planted at Mungpoo, and 3,328 at Sittong, and the nursery stock of it was considerably increased during the year. Special attention was paid to the propagation of the yellow bark tree (*C. Calisaya*), the most valuable of all the medicinal barks, and it is encouraging to find that at the end of the year there were in the nursery beds 60,000 cuttings and seedlings in the Mungpoo division and 1,000 in the Sittong division, which will all be shortly fit for transfer to the permanent plantations. This is also the first season during which *Cinchona Calisaya* has been cropped, and about 1,400lb. of the dry bark obtained. This tree is, however, very capricious in growth, and no locality with perfectly suitable climatic conditions for it has yet been found in British Sikkim. Dr. King has therefore been authorized to visit Java to ascertain the conditions under which the Dutch have there succeeded in growing the tree cheaply. In the meantime its cultivation should be pushed on as rapidly as circumstances will permit. The total number of cinchona

plants of all varieties planted out at the close of the year under review was 4,028,055, of which 3,589,965 were of the red bark species.

3. As a considerable quantity of bark (278,958lb) remained on the hands of the Quinologist at the close of 1877-78, it was not thought desirable to collect during the year under review more bark crop than was necessary to meet the requirements of the febrifuge factory. Only 261,659lb were therefore taken, namely, yellow bark 13,967lb, grey bark 812lb, and red bark 246,880lb. The aggregate bark yielded in former years amounted to 873,242lb, so that the total produce, including the crop of the past year, is 1,134,901lb.

4. As usual, the crop was taken by one of the three methods of harvesting—uprooting, coppicing and thinning, thus—

	lbs.
Uprooting	52,484
Coppicing	14,464
Thinning	194,711
Total ...	261,659

The result of the operations of the year under review confirms the experience of previous years that about 2,000lb per acre may be taken as the average yield on uprootal of red bark trees from seven to ten years old. Four acres of the yellow bark planted in 1871-72 yielded, when coppiced, 7,530lb, or at the rate of 1,882½lb per acre.

5. The total expenditure on the plantation amounted to Rs. 64,650-5-10, of which Rs. 12,758-0-3 represented the capital expenditure and proportion of establishment for the Sittong division, which has not yet come into bearing. The remaining sum of Rs. 51,892-5-7 was on account of the working and proportion of establishment of the older plantations (Rungbee, Rishap, and Mungpoo), and therefore forms the working expenditure of the year.

6. The continuous increase in the amount of febrifuge manufactured by Dr. Wood is very marked. The outturn of the last five years has been—

	lb.	oz.
1874-75	48	10
1875-76	1,940	6
1876-77	3,750	12
1877-78	5,162	0
1878-79	7,007	0
Total ...	17,908	12

but notwithstanding this rapid development of the manufacture, the increasing confidence in the efficacy of the febrifuge has raised the demand for it so much, that the consumption of the past year greatly exceeded the quantity manufactured. To meet this growing demand the scale of manufacture at Mungpoo has been extended. The cost of the febrifuge manufactured, including the cost of the bark, was Rs. 76,459-12-11, or at Rs. 10-14-7 per pound, which is nearly one rupee per pound less than it was in the year 1877-78.

	lb.	oz.
The quantity of febrifuge on stock on 1st April 1878 was ...	3,404	4
Manufactured during 1878-79	7,007	0
Total quantity for disposal ...	10,411	4

This quantity was thus distributed—

To Medical Depôt, Calcutta	4,000	0
Ditto, Bombay	1,200	0
Ditto, Madras	300	0
To Straits Settlements	30	0
Sold to the public	2,401	12
Samples, loss in packing, consumed in experiments, &c. ...	23	11
	7,955	7
In store on 31st March 1879	2,455	13
Total ...	10,411	4

7. The financial results of the year have been most satisfactory, the revenue from the sale of the drug to the Government depôts and to the public amounted to Rs. 1,32,519-1, as shown below:—

	Rs.	A.	P.	Rs.	A.	P.
Sold to the public	41,042	7	0			
Credit Medical Depôt, Calcutta ...	66,200	0	0			
Ditto, Bombay ...	19,827	8	0			
Ditto, Madras ...	4,952	0	0			
Credit from Straits Settlements ...	497	2	0			
				1,32,519	1	0

The expenditure was as follows:—

On plantation as stated in paragraph 5 above	51,892	5	7			
Quinologist's expenses including the proportion of his salary ...	27,091	2	7			
				78,983	8	2

The excess of income over expenditure therefore amounts to Rs. 53,535-8-10, but from this should be deducted Rs. 11,123-1-3, being the reduction in the value of stock in hand due to the excess of sales over manufacture. This leaves a nett profit of Rs. 42,412-7-7.

8. The total amount of capital, with interest at 4 per cent., that has been sunk in the cinchona plantations and in the manufactory is approximately 10 lakhs of rupees; the receipts for the year under review therefore, after paying all expenses, yielded interest of about 4¼ per cent. on the capital outlay, and even if subsequent years show no improvement, as it may be confidently assumed they will do, a sufficient annual income, on the system of accounts followed above, would almost have been realized.

9. But this system of computing profits fall very far short of doing justice to the real benefit which the Government has derived from the cinchona plantations. The 5,500lb of alkaloid taken by the different medical departments replaced an equal amount of quinine that would otherwise have been purchased and supplied on indent to hospitals and dispensaries. At the very moderate rate of Rs. 80 per pound, the cost of this would have come to Rs. 4,40,000, and this amount, *plus* the actual sales to the public and Straits Settlements, Rs. 41,540, in all Rs. 4,81,540, is the true measure of the gain to Government from the cinchona manufacture. Looking at the financial question in this way, as may most fairly be done, the plantations by the end of the current year will have cleared off the entire capital that has been invested in them.

10. The Lieutenant-Governor approves of the Superintendent's proposal to take 350,000lb of bark as the estimated crop of the year 1879-80.

11. With a view to facilitate the systematic working of the new or Sittong division, it is necessary that it should be surveyed and mapped as soon as possible. The Government of India will be moved to issue the necessary instructions on the subject to the Survey Department.

12. The Committee which was appointed in 1877 to ascertain whether the febrifuge could be improved by eliminating any of its constituents has not yet submitted its final report. But it is satisfactory to note that the further experience in the use of the drug during the past year has increased the confidence of the public and of the medical profession in its virtues, as is evidenced by the increasing demand for it.

13. The question of manufacturing a superior drug which would not be exposed to the prejudices which have so long delayed the free distribution of the present febrifuge is still under consideration, and awaits the report of the Special Committee appointed to consider the subject. It will probably be found advisable to manufacture at a slightly increased cost a preparation composed of the three sulphates—Cinchonidine, Cinchonine and Quinine—in conjunction.

14. The Lieutenant-Governor thanks Dr. King and Mr. Wood for their valuable services during the year; his acknowledgments are also due to Mr. Gammie, resident manager of the cinchona plantation, who continues to supervise the plantation and manufacture with singular efficiency and intelligence, and has well earned the approbation of the Superintendent.

ORDER.—Ordered that a copy of the Resolution, and of the reports referred to, be submitted to the Government of India in the Department of Revenue, Agriculture and Commerce for information; also that copy be forwarded to the Superintendent, Botanical Garden, in charge of the Cinchona Plantation, and to the Government Quinologist, for information.

Ordered further that copies be forwarded to the Government of Madras, and to the Surgeon-General, Bengal, and the Medical Department of this office, for information.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secretary to the Govt. of Bengal.

LIBERALITY OF BABOO RAMGOVIND JAGADEB OF KENDRAPARA.

No. 102PJ, dated Cuttack, the 29th May 1879.

Memo. by the Commissioner of the Orissá Division.

COPY, together with a translation of the Baboo's letter offering the scholarship, forwarded to the Secretary to the Government of Bengal, General Department, for the information of Government, with the recommendation that the offer be accepted and an acknowledgment conveyed to the Baboo.

2. It will be seen that he proposes to remit the amount annually to the treasury. It will be more convenient, and will ensure the permanence of the scholarship, if he deposits Government securities yielding the amount, and the Collector may be asked to suggest the adoption of this course.

No 40PJ, dated Cuttack, the 28th April 1879.

From—P. NOLAN, ESQ., Offg. Magistrate of Cuttack,

To—The Commissioner of the Orissa Division.

I HAVE the honor to forward, with the recommendation that it be submitted to Government, an offer in writing made by Baboo Ramgovind Jagadeb of Kendrapara to found a scholarship of Rs. 40 per annum for the first successful candidate from the Kendrapara sub-division at the Sanskrit examination to be held at Cuttack. It has subsequently been arranged with the Baboo that the Committee of Public Instruction of the district shall give the scholarship; that the preference should be given first to a native of the sub-division, failing such to a naturalized resident in the same; failing both to a native of any other part of the district.

2. I think that the offer should be accepted, and the Committee of Public Instruction takes the same view. If it is, the founder may be thanked and requested to deposit securities sufficient to yield the Rs. 40 a year.

Translation of a Petition forwarded by Baboo Ram Govind Jagadeb, of Kata, Pergunnah Tikun, in the District of Cuttack, to the address of the Deputy Magistrate in charge of the Kendrapara Sub-division.

STATES that Government having passed orders for the general diffusion of Sanskrit learning, and for holding periodical examinations for the purpose of conferring honorary titles on successful candidates, in order to further the cause by other inducements, he contemplates offering a reward of Rs. 40 annually to those pundits who shall be successful out of the sub-division. On the intimation of the offer being accepted by the Commissioner or the Collector being given him, he will arrange to remit the amount annually to the treasury. He requests that the scholarship be designated as "Gourishyam Scholarship."

No. 320T, dated Darjeeling, the 9th June 1879.

From—A. MACKENZIE, Esq., Secretary to the Government of Bengal, General Dept.
To—The Commissioner of the Orissa Division.

IN acknowledging the receipt of your endorsement No. 102PJ of the 29th ultimo, with enclosures, I am directed to inform you that the Lieutenant-Governor accepts the liberal offer of Baboo Ramgovind Jagadeb of Kendrapara to found a scholarship of Rs. 40 per annum for the first successful candidate at the Sanskrit examination to be held at Cuttack, preference being given first to a native of the Kendrapara sub-division, failing such to a naturalized resident of the sub-division, and failing both these to a native of any other part of the district. I am to request you will convey to the Baboo the Lieutenant-Governor's acknowledgments, and that you will suggest to him that it would ensure the permanence of the scholarship were he to deposit Government securities yielding Rs. 40 annually in the hands of the Director of Public Instruction and Accountant-General, Bengal, instead of making annual payments as proposed.

2. There is no objection to the scholarship in question being named the "Gourishyam Scholarship."

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTE.

Barometric Pressures.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. Papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperatures.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by *o*, and one completely overcast by 1*o*.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

[Second Publication.]

NOTIFICATION.

The 30th June 1879.—The following rules for the grant of leases for tea cultivation in the district of the Chittagong Hill Tracts have been sanctioned by the Lieutenant-Governor and are published for general information :—

RULES FOR THE GRANT OF LEASES FOR TEA CULTIVATION IN THE DISTRICT OF THE CHITTAGONG HILL TRACTS.

1. The lands that are generally available under these rules in the district of the Chittagong Hill Tracts lie within the following boundaries :—

On the North.—The Fenny River.
On the West.—The Regulation District of Chittagong.
On the South.—The province of Arrakan.
On the East.—The frontier line notified at page 1168 of the *Calcutta Gazette* of the 20th September 1876.

2. The following lands will not ordinarily be available under these rules :—

(*a*)—Lands comprised within the boundaries of the Myorie, Kaptai, Rainkheong, Sungoo, and Matamore protected forest reserves, or any reserves which may be taken up in the future by the Forest Department, and such other lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.

(*b*)—Lands not included in the above category, but which now bear *Jarool, Gurjan, Gambar,* or other valuable trees in compact blocks or patches, or on which valuable sunn khollas are situated.

(*c*)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as render it impolitic or unadvisable to grant such lands to any other person or persons for the purpose of tea cultivation.

(*d*)—Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed, or shall be kept in repair, from public funds, and that it be borne on the list of the district roads of the district.

(*e*)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

3. Every person, company, or association, desirous of obtaining a grant of land under these rules, must, in person or by a duly authorized agent, present an application, on plain paper, to the Deputy Commissioner of the District of Chittagong Hill Tracts.

4. The application must specify—

(*a*)—The name or names and address or addresses of the applicant or applicants, and of his or their authorized agent if any.

(*b*)—The area, situation and boundaries of the land applied for as far as they can be ascertained without a detailed survey.

(*c*)—The particulars, if any, which may appear to the applicant to bring any part of the land applied for within the exceptions mentioned in Rule 2. The application must also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for must be compact and capable of being enclosed in a ring fence ; and if any part of the land touches on a public road or navigable river, the length of such road or river frontage must not exceed one-half the breadth of the lot applied for.

6. Not more than 800 acres will ordinarily be granted to any one applicant, company, or association ; and when more than 800 acres are applied for, the applicant must set forth specially the grounds for such application, and give *primâ facie* guarantees that he possesses the requisite capital for working such larger area. All applications for more than 800 acres will be forwarded by the Deputy Commissioner to the Commissioner, who, if he desires to recommend compliance therewith, will forward them to the Board of Revenue who will take the orders of Government upon each case.

7. On receipt of an application for any area not exceeding 800 acres, the Deputy Commissioner must satisfy himself, as far as lies in his power, that the requirements of the rules have been complied with. If he considers that the application should be rejected, he will record an order to that effect, giving his reasons for such rejection. An appeal will lie from such order of rejection to the Commissioner of the division, if preferred within thirty days from the date of the order. If the Deputy Commissioner considers that an application for such area as it is within his power to grant should be entertained, or in the case of application for areas over 800 acres, when the orders of Government accepting the application have been received, the applicant or his agent will be required to deposit the cost of survey and demarcation to be made as hereinafter provided. The amount to be so deposited must be calculated at one rupee per acre of the total area applied for ; if the area is found to be greater, the sum of one rupee per acre must be paid on account of such excess area before a preliminary lease is granted. Payments under this rule do not cover the cost of erecting permanent boundary marks under Rule 20.

8. On receipt of the sum payable under the preceding rule, and of an agreement signed by the applicant, or by his authorized agent, to pay such further sum as may be required for the purposes abovementioned, the Deputy Commissioner will record an order appointing a proper officer for the purpose of making full and detailed enquiries into its condition and circumstances.

9. The general object of such enquiry shall be to ascertain whether or not the land applied for can be granted under the rules in force; but the Deputy Commissioner may instruct the officer making the enquiry to furnish him with such other specific and detailed information as may seem to him to be necessary.

10. On completion of this enquiry, the officer making it will record the result thereof, and submit a report for the orders of the Deputy Commissioner. If the Deputy Commissioner, after considering the report and after calling for such explanations, oral or written, as he may deem necessary, shall be of opinion that the land applied for cannot be granted under the rules, and should not therefore be surveyed, he will record an order to that effect. An appeal will lie from such order to the Commissioner of the division, if preferred within thirty days from the date of the order.

11. If the Deputy Commissioner decides that the land applied for can be granted under the rules and should therefore be surveyed, he will record an order to that effect.

12. If the Deputy Commissioner finds the land, or any part of it, in the occupation of any person or persons, or of any village community, he will submit a full report of the circumstances for the orders of the Commissioner, stating in detail how he proposes to deal with such prior occupants; and if it is proposed to remove them, the compensation, if any, which the applicant undertakes to pay to such persons. The Commissioner will report his orders in all such cases for the information of Government.

13. If any claim or objection be preferred under Act XXIII of 1863, the Deputy Commissioner will proceed to dispose of the same in accordance with the provisions of that Act.

14. The officer who made the enquiry provided for by Rules 8 to 10 will, on receipt of an order to that effect from the Deputy Commissioner, proceed to point out to the Surveyor the boundaries of the land applied for, and such prominent features in it as may be useful for the purposes of the survey, and which should, in his opinion, be entered in the preliminary lease as hereinafter provided. The boundaries and other features abovementioned should be clearly marked and defined by the officer in presence of the Surveyor, and the latter should be furnished with a list of them signed by the said officer.

15. The Surveyor will then proceed to make the survey and put up such temporary boundary marks as are necessary for that purpose. He must prepare a map showing—

(*a*)—All natural features of the country lying within the boundaries as fixed by the officer who made the enquiry under the Rules 8 to 10,—*e.g.*, bheels streams, forest clumps, &c.

(*b*)—Such features of the country lying outside the boundary of the land to be surveyed as may serve to identify the latter and connect it with the revenue survey or other existing map.

The Surveyor is bound to bring to the notice of the Deputy Commissioner any fact which may come to his knowledge in the course of the survey, rendering it advisable that the land he is surveying should not be granted under these rules.

16. The map should ordinarily be on a scale of 16 inches to the mile. If possible the Surveyor's field-book should be copied at the back of it; if not, a copy of the field-book should be attached to, or accompany, the map. If the map be made originally in the vernacular, the Deputy Commissioner will cause it to be translated into English.

17. On the map being completed, it must be checked by an officer appointed by the Deputy Commissioner. If found to be incorrect, it will be amended by the Surveyor in conjunction with the officer abovementioned; if found to be correct, it will be laid before the Deputy Commissioner with the report of the officer who made the preliminary enquiry under Rules 8 to 10, and with all other papers connected with the case.

18. The Deputy Commissioner will then proceed to consider the application. A date for the purpose must be previously fixed by him and due notice of it given to the applicant, or to his authorized agent.

19. The Deputy Commissioner shall have power to reject an application at any stage of the proceedings under the rules if he sees reason to do so, refunding in such case to the applicant the deposit made by him on account of survey, or the balance thereof in the case of any portion of it having been expended in survey. He is authorized to reject an application when he does not consider that there is a *bonâ fide* intention on the part of the applicant to cultivate in tea the land applied for, or when it appears desirable to reserve the land for cultivation other than tea, or to preserve any forest standing on it. An appeal against every such order of rejection shall lie to the Commissioner of the division if preferred within thirty days of the date of the order.

20. If the Deputy Commissioner grants the application, he will without delay grant the applicant a lease in Form A of the appendix, and call upon him to execute a counterpart thereof. He will also direct him to mark out the land leased by a continuous trench, or in such other manner as the Deputy Commissioner may direct. Within three months of the grant of such lease, the lessee must, on pain of forfeiture of all rights in the land leased, mark out the land as above directed, and must further erect, at his own expense, such permanent

boundary marks as the Deputy Commissioner may direct. On the expiry of the three months the Surveyor must test the correctness of the boundary line and permanent marks, and report the result to the Deputy Commissioner, at the same time pointing out to the lessee or his representative, by written notice, any correction that may be required. If the corrections indicated are not made by the lessee or his representative within thirty days of the receipt of such notice, all rights in the land shall be liable to forfeiture to Government.

21. Whenever after receipt of an application as provided for in Rule 3, and after making such inquiries as he may deem necessary, the Deputy Commissioner shall be of opinion that there is no *primâ facie* objection whatever to the grant, under the rules, of the land applied for, he may put the applicant in preliminary and provisional possession of an area, not exceeding one-eighth of the estimated area of the land applied for, with the object of enabling the applicant to make preparations for commencing cultivation and getting the land in order. Provided that the applicant before obtaining such preliminary possession, shall have erected such boundary marks as the Deputy Commissioner may direct, and that the amount of all estimated charges incurred in connection with such preliminary occupation shall have been deposited by the applicant.

22. The order for, and conditions of, such preliminary occupation shall be in Form B in the appendix, and shall be addressed to the applicant. A copy of this order shall be signed by him as an acknowledgment of occupation, and as signifying his intention to abide by the same, and deposited with the Deputy Commissioner.

23. Grantees are not permitted to club or amalgamate their grants otherwise than by transfers duly registered, as provided for in the preliminary lease. Any unauthorized amalgamation will subject the holders of the grants in question to forfeiture of all right in the lands so amalgamated.

APPENDIX A.

Form of preliminary lease of land in *granted by the Deputy Commissioner of* *to* *of*

1. THE lands covered by this lease are situated with the boundaries shown by the red lines in map No. , dated , and attached to the lease.

The lands may be described as being bounded as follows:—

North—
East—
South—
West—

Their area is more or less acres, and they are situated in the thanna mentioned in the margin.

2. The rights conveyed by the lease are heritable and also transferable, provided (*a*) that the entire grant and not a portion of it be transferred; (*b*) that the clearance conditions are duly observed by the transferer and transferee respectively; (*c*) that the transfer is registered in the Deputy Commissioner's office within twenty-one days of the date thereof; and (*d*) that a registration fee of four annas per acre be paid to the Deputy Commissioner on the occasion of every such transfer. If any transfer of the rights conveyed by this lease is made otherwise than in accordance with the foregoing provisions, all rights in the land shall be liable to be forfeited to Government. After the expiry of this preliminary lease no right shall be claimed otherwise than expressly provided for hereinafter.

3. The rent to be paid shall be as follows:—

Year of entry (*i.e.* from actual date of entry to 31st March following)	*Nil.*	
1st full year (from 1st April following date of entry) ...	*Nil.*	
2nd year	3	annas per acre.
3rd year	6	„ „
4th year	9	„ „
5th year	12	„ „

The rent shall be paid to the Deputy Commissioner's (or to the Assistant Commissioner of Sungoo or Cox's Bazar sub-divisional) office in the following instalments:—

1st September ... one-half. | 1st March ... one-half.

4. The lessee shall either himself reside on or near to the lands covered by this lease, or he shall appoint a Manager or Agent who shall reside on or near to such lands, and who shall be provided with a full legal power to act on behalf of the principal in all matters arising out of, or concerning, the lands covered by the lease.

5. The lessee binds himself to conform to all the provisions of the rules for the grant of tea leases under which this lease is granted.

6. Five per cent. of the area of the lands shall be cleared by the end of the second year after the grant of this lease, and ten per cent. by the end of the third year.

7. Any land covered by the lease, which may at any time be required for a public purpose, may be taken up by Government, free of cost, on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of

any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provisions of the law in force for the time being for the acquisition of land for public purposes.

8. All rights to minerals or quarries of all kinds are reserved to Government.

9. No right of fishery and no right to dam up or otherwise obstruct the passage of any stream is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

10. The right of Government to levy such tolls as it may think proper on the forest produce exported from the land hereby leased either by land or water is reserved.

11. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made, provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection the Deputy Commissioner finds that 15 per cent. of the total area held under the lease has been brought under cultivation by means of good husbandry and actually bears tea plants, the lessee shall be entitled to the renewal of the lease for a further period of twenty years, and to renewals for similar periods in perpetuity, subject to the following conditions:—

(*a*)—Subject to any general or special orders of Government, the rent to be paid shall be fixed by the Commissioner, on the report of the Deputy Commissioner, on each occasion of renewal, but shall not exceed the rate of rent per acre paid in the neighbourhood at the time of renewal for the highest classes of lands under cultivation. If at any future time the administration of the tracts under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the Legislature, to impose such special taxation as may be deemed necessary, either by raising the rent or in some other mode. But under no other circumstances will the rent, which has now been fixed for a term of years on the principle above enunciated, be raised during the currency of such term;

(*b*)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferee to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased;

(*c*)—In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

12. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

13. If before the expiration of this preliminary lease no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements shall have been made by the Deputy Commissioner.

APPENDIX B.

To , *son of* , *resident of*
applicant.

With reference to your application to enter into an agreement in regard to the land mentioned below, for the purpose of cultivating tea, desiring immediately to enter upon occupation of some part of the land in question for the purpose of making preparations for, and for commencing such cultivation, I hereby authorize you to use for that purpose any lands lying within (here specify boundaries) and not exceeding 100 acres in all.

In the event of a lease being hereafter granted, the date of entry referred to in such lease shall be held to be not the date of this order, but the date of possession being given under such lease. In case of a lease being refused, no claim to compensation shall lie against the Government for any outlay incurred by you on the strength of this order. No rent shall be payable for land occupied during the currency of this order, the terms whereof shall expire on the 31st March next.

Occupation under this order, or after its expiry, without express conditions to the contrary, shall never be held to constitute any tenure other than a tenancy-at-will from year to year. You shall keep the boundary line and marks in repair and clear of jungle.

Deputy Commissioner.

I AGREE to the above conditions.

Applicant.

NOTIFICATION.

The 20th June 1879.—The Lieutenant-Governor directs that Bengal Act IV of 1879 (an Act to repeal certain sections of Bengal Act IV of 1866, and to provide for the levy of fees upon certain passenger boats and steam-ferries) shall come into force on the 1st July 1879.

2. Under clauses *f*, *k*, and *n* of section 7 of Act XII of 1875 (the Indian Ports Act), and the provisions of Bengal Act IV of 1879 aforesaid, the Lieutenant-Governor is pleased to prescribe the following rules for the regulation of passenger-boats and steam-ferries plying for hire within the Port of Calcutta. The rules shall take effect from the said 1st July 1879.

3. These rules do not affect vessels whose voyages ordinarily extend more than 30 miles from the limits of the Port proper.

RULES.

1. No passenger-boat or steam-ferry shall ply for hire either wholly within, or partly within and partly without the limits of the Port unless licensed and registered by the Port Commissioners as Conservators of the Port under the provisions of Act XII of 1875. No such boat or ferry shall be allowed to ply as aforesaid, except under the direction of a person licensed by the Port Commissioners.

2. Every application for the licensing and registration of a passenger-boat or steam-ferry must be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, or, in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorized to act for him, a description of the vessel and the number of passengers which it is intended to carry.

3. Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules. The license is not transferable, and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port.

4. No license shall be granted to any passenger-boat or steam-ferry until such vessel shall have been surveyed by a surveyor duly appointed for the purpose, and he shall have granted a certificate stating the following particulars:—

(*a*) That such vessel is in good order and suited for the accommodation of passengers.

(*b*) The number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night, or when the vessel is lying at anchor at other times.

(*c*) The number of persons in addition to the crew which may be safely carried therein at one time.

5. The number of every licensed and registered boat and steam-ferry shall be branded by the surveyor in some conspicuous part thereof.

6. Fees not exceeding the sums mentioned in the following schedule shall be payable for the issue, renewal, &c., of the licenses granted under these rules:—

Schedule of Charges.

		Not exceeding. Rs. A. P.
1.	For surveying, registering, branding and issuing license to passenger-boats or steam-ferries. For every passenger which such boat is to be licensed to carry ...	1 0 0*
2.	Passenger-boat plate showing number of license, crew, and passengers in English and vernacular...	2 0 0
3.	License and metal ticket for persons in charge of boats	0 8 0
4.	Endorsement of change of owner on register and license... ...	2 0 0
5.	Issue of new license to boats in lieu of those defaced or lost ...	0 8 0

7. The owner or his agent, or the person in charge of any licensed passenger-boat or steam-ferry, shall not permit any number of persons more than that for which such vessel has been licensed to be carried therein at one time, and shall not permit such vessel to ply for hire unless provided with the number of crew stated in the license. The vessel must be kept thoroughly clean.

8. In the computation of the number of persons in addition to the crew carried in any vessel, two children below the age of 12 years shall be counted as one person, and every two maunds weight or luggage shall be counted as equivalent to one person.

9. The license granted for any passenger-boat or steam-ferry may be revoked by the Port Commissioners whenever such vessel is, in the opinion of the Port Commissioners, unfitted for the conveyance of passengers, or when any breach of the conditions of the License or the Port Rules or the Sea Customs Act has been committed by the owner or his agent, or the person in charge.

10. No passenger-boat or steam-ferry shall obstruct the free navigation of the Port or the approaches to wharves, jetties, landing-stages, or occupy the portions of the bank set aside for bathing ghât.

11. Every passenger-boat or steam-ferry under weigh after dark shall carry a light in a lantern in the forepart of the vessel where it can be distinctly seen.

12. The Port Commissioners may, if they think fit, at any time order any passenger-boat or steam-ferry to be re-surveyed without any charge to the owners, and they may also revoke at any time any license granted for any such vessel, or

* Up to a maximum of Rs. 5 in the case of a passenger, rowing, or sailing boat, and of Rs. 32 in the case of a steamer or steam-ferry.

to the person in charge thereof, and it shall be competent to the Commissioners to refuse any application for the issue of a license.

13. Whenever any accident shall occur to a registered passenger-boat or steam-ferry, the person in charge or the owner shall at once proceed to the nearest River Police station and report the circumstances connected with the accident to the officer in charge.

14. When any property belonging to passengers or others is left in a passenger boat or steam-ferry unclaimed, the property so left shall be at once sent by the person in charge to the Superintendent, River Police, and a report of the circumstances connected with the property shall be entered in a book kept for that purpose by the police.

15. Any person in charge of a licensed passenger-boat or steam-ferry plying for hire in the Port, who shall without good reason refuse to carry a passenger in such vessel shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have his own license, and that of the vessel of which he is in charge, revoked.

16. Every licensed passenger-boat or steam-ferry, when plying, shall have its license on board, which shall be produced when required.

17. An owner of a passenger-boat or steam-ferry who may withdraw it from plying, except for the purpose of repairs or other sufficient cause, without giving 48 hours' notice to the Port Commissioners, shall, in addition to the penalty prescribed by Act XII of 1875 for a breach of these rules, be liable to have the license revoked.

18. Every person registered under Rule 1 shall be provided with a metal license ticket, upon which shall be legibly painted the number of his license, and every such person when in charge of a licensed vessel shall wear his ticket exposed to view. No person without such ticket shall be in charge of any passenger-boat or steam-ferry.

19. Whenever the number on any license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any license ticket shall have been lost or mislaid, an application shall be made to the Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, supply a new license ticket.

20. On the expiration or other determination of any license, the ticket shall be returned to the registering officer.

21. No license ticket shall be lent or transferred to any other person, and no such ticket shall be used by any unlicensed person.

22. No person in charge of any registered passenger-boat or steam-ferry plying within the limits of the Port shall use, or wear, or have any ticket resembling, or intended to resemble, the metal ticket granted under the authority of these rules.

23. Any person committing an infringement of any of the foregoing Port Rules is liable to a fine not exceeding one hundred rupees, under the provisions of Act XII of 1875.

24. All police officers shall have the same powers against offences and offenders under these rules as they have under section 6, Act III (B.C.) of 1872.

COMMUNICATIONS.

Dated the 18th June 1879.

No. 150.—*Notification.*—In supersession of the notifications noted on the margin, it is hereby notified, under section 2 of the Canals Act (V of 1864, B.L.C.), that the provisions of the said Act shall apply to the following navigable rivers from the 1st September 1879 :—

No. 147, dated the 7th April 1868.
Nos. 185 and 186, both dated the 22nd May 1876.

(1.) The river Bhagiruthee—throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

Under section 6 of the Canals Act, the Lieutenant-Governor directs that for the collection of tolls, stations shall be established on and after the 1st September 1879 at Surrupgunge, in the Nuddea district, at the confluence of the Jelinghee and Bhagiruthee rivers; at Jungypore, in the Moorshedabad district, on the Bhagiruthee river; and at Kissengunge, in the Nuddea district, on the Matabhanga river.

Toll shall be collected at Surrupgunge in the Nuddea district on—

(1.) Traffic passing up or down the Jelinghee river.

(2.) Traffic passing up the Bhagiruthee river.

(3.) Traffic passing down the Bhagiruthee river for which a pass is not produced shewing that the full amount of toll has already been paid at Jungypore.

At Kissengunge, in the Nuddea district, on—

(1.) Traffic passing up or down the Matabhanga river.

At Jungypore, in the Moorshedabad district, on—

(1.) Traffic passing up the Bhagiruthee for which a pass is not produced shewing that the full amount of toll has already been paid at Surrupgunge.

(2.) Traffic passing down the Bhagiruthee.

The following shall be the limits of the different toll stations :—

(1.) *Surrupgunge Station, Bhagiruthee River.*—On the north a line drawn across the river from the point at which the boundary of the Nuddea Municipality meets the river. On the south a line drawn across the river from the southernmost point of the village of Nutun Bazar.

(2.) *Jelinghee River.*—On the north-east a line drawn across the river Jelinghee from the eastern boundary of the toll office compound. On the south the same as the southern limit of the Bhagiruthee.

(3.) *Kissengunge Station.*—On the north a line drawn across the river Matabhanga from the Mothurapore point. On the west a line drawn across the river from Joogiparah Ghât near the village of Shoneghatta. On the south-east a line drawn across the entrance of the river Echamutty.

(4.) *Jungypore Station.*—On the north a line drawn across the river at the point where the Balghatta nullah runs into the Bhagiruthee, and on the south a line drawn across the river from the lower Thakurbari Ghât to a point about 500 yards below the toll office.

Provided that in the case of the Surrupgunge toll station it shall be competent to the Toll Collector, by a written order to be recorded in his office, to remove the southern limits of that toll station during the dry season to any convenient place nearer to the toll office than the limit fixed above. And provided also that when the river rises it shall be competent to the Toll Collector of Jungypore, by a written order recorded in his office, to remove the northern limit of that toll station to a point not exceeding 300 yards below the sub-divisional office compound, and the southern limit to the south end of the village of Shahebgunge.

(5.) At the limits of each toll station a chowkey boat shall be stationed for the purpose of collecting passes, &c., and preventing the evasion of tolls. Also, at the limits of each station a flag shall be hoisted on the land, for the purpose of indicating to boatmen the situation of such limits.

Two extra toll stations shall be established during the rains, one at the Balghatta nullah, and the other at the Kanoopur nullah, subordinate to the Jungypore toll station in the Moorshedabad district.

Under section 6 of the Canals Act, the Lieutenant-Governor has fixed the rates in the following Schedule A for the levy of toll at the abovementioned places on the said rivers on and after the 1st September 1879:—

DRAFT.

The following draft rules are published for information under the provisions of section 11 of the "Canals Act, 1864" (No. V, B.L.C.), and have reference to the undermentioned navigable channels, viz.:—

(1.) The river Bhagiruthee throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

DRAFT RULES

1. Except as may be herein provided, every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every laden vessel, excepting steamers and flats, shall for the purpose of the "Canals Act, 1864," and of these rules be determined by the following measurements:—

(*a.*) The product of half the length of the vessel from stem to stern, measured along the waterline, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c.*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds are to be charged.

3. The tonnage of every empty vessel, excepting steamers and flats, shall for the purpose of the "Canals Act of 1864" and of these rules be determined, and tolls shall be levied thereon, under the same rules and by the same system of measurement as above laid down for laden vessels, with the following exception, viz.—

The measurement of the depth of an empty vessel shall be made from the gunwale to the bottom of the vessel, instead of being taken from the waterline, as in the case of a laden vessel.

4. The measurement of steamers and flats shall be taken to be as ascertained by the Master Attendant's Department at Calcutta for the payment by such vessels of the port dues under the Merchant Seamen's Act, subject to the following deductions: —

(*a.*) In the case of steamers, 35 per cent. of the tonnage of the hull, excluding the cabin accommodation altogether, will be allowed as the tonnage of the engine-room, coal-bunkers, &c., and toll will be levied on the remaining 65 per cent of the tonnage.

(*b.*) In the case of flats, 10 per cent. of the tonnage will be allowed for accommodation, &c., and tolls will be levied on the remaining 90 per cent. of tonnage.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea rivers, as well as boats used by police officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to police officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

6. If a vessel, on which toll has been duly paid, be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day. Provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo-vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the Chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nuddea rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

10. Immediately after entering the Chowkey limits, the manjee of every cargo-vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring Mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix EI.), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix EII.), which shall entitle him to pass the Chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the Mohurir in charge of the Chowkey boat at the rate of four annas for each car of the vessel, and shall receive from the Mohurir a ticket in the form annexed (Appendix EIII), which shall entitle such vessel to pass Chowkey limits without further charge.

14. Passenger boats having on board cargo other than that is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip, shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the Chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th; and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer, and 8 A.M. and 5 P.M. in winter.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such applications shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

.21. Any officer of Government or other person claiming exemption under rule 5 shall be supplied by the measuring Mohurir with a certificate in the form annexed (Appendix EIV), and shall fill up and return such form to the Mohurir, who shall thereupon grant a passenger ticket in form (EIII). In case of doubt as to the good faith of any claim to exemption from toll, the measuring Mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timbers exceeding in all twenty in number, shall pass into or through any of the Nuddea rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

24. For every vessel or raft, or fleet of vessels or of rafts, and for every timber which shall pass into, or out of, or through any of the Nuddea rivers in violation of rules 22 and 23, the owner thereof or the person in charge shall, on conviction by a Magistrate under section 18 of the "Canals Act, 1864," be punishable by a fine not exceeding Rs. 10 for each vessel, raft, or timber in excess of the number authorized, besides being subjected to the payment of the prescribed toll on the same. The payment of the toll shall, if necessary, be enforced in the manner described in section 9 of the "Canals Act, 1864."

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations, may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand; and on depositing such amount as the Board of Revenue may determine, they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorized to receive payment thereof.

27. Refusal to pay the toll on steamers or flats, except on those which are furnished with a certificate under rule 25, or evasion, or attempt at evasion, of such payment, will be dealt with under sections 9 and 10 of the "Canals Act, 1864;" except that, instead of the vessel being seized and detained as directed in section 9, any separate cargo or stores, the sale-proceeds of which will be sufficient to defray the amount of toll that should be paid, and which can, without inconvenience or danger to itself or to the rest of the cargo, be taken out of the vessel, shall be so taken out and detained, and subsequent proceedings shall be taken thereon as directed in section 9.

28. Any person who may without just cause refuse to pay any toll demanded of him by the officers of the toll establishment, or who may evade, or attempt to evade, any such toll, or who may be a party to the transfer, or attempted transfer, of any ticket or pass, or who may without reasonable cause neglect or refuse to place his vessel in any situation in which he may be required by the Toll Collector to place it, or who may without reasonable cause neglect or refuse to remove his vessel from the measuring ghât after measurement, or unload cargo without the permission of the Toll Collector, shall be punishable under section 10 of Act V of 1864 (B.L.C), on conviction before a Magistrate, with a fine which may amount to Rs. 50, or with simple imprisonment in lieu of fine which may extend to one month.

29. Any person who shall without sufficient excuse neglect or refuse to produce when called upon by the Toll Officers, or by any other person whose duty it may be to check the collection of tolls on the rivers, any ticket or pass which he may be required by these rules to produce, shall be liable to pay tolls, whether he shall or shall not have previously paid them, and shall also be liable to a fine under section 10 of the Canals Act which may amount to Rs. 50.

30. Complaints against the conduct of the subordinate officers and enquiries for information must be preferred to the Toll Collector.

DRAFT RULES PROPOSED UNDER ACT III (B. C.) OF 1876.

Dated the 26th May 1879.

No. 145.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 1154 to 1159, Part I, of the *Calcutta Gazette* of the 23rd October 1878.

D. B. HORN,
for Joint-Secy. to the Govt. of Bengal,
P. W. Dept., Irrign. Branch.

RULES UNDER ACT III (B. C.) OF 1876.

1. The Collector, before awarding compensation under section 16, or making a reference under section 17, of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur.

3. Water shall not ordinarily be granted where the length of the village channel, from its head to its point of contact with the village boundary, exceeds two (2) miles.

4. Water for irrigation shall not be supplied, except through a village channel so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*)—the water will pass without wastage;

(*b*)—the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation will not be obstructed.

5. Persons desirous (i) of constructing a village channel, (ii) of registering a channel already constructed, (iii) of taking water from a village channel, or (iv) of taking water from any outlet provided by Government, shall prefer a written application to the Divisional Canal Officer, or to some officer duly authorised by him to receive such applications. In the first two cases (i) and (ii), if the application be received by an officer subordinate to the Divisional Canal Officer, it shall be forwarded to him for orders.

6. An application under rule 5 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions :—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-divisional Canal Officer.

(*b*)—That the Sub-divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called "Suttadar"), known or ascertained to be a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of a Suttadar, the Sub-divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

(*d*)—That the Collector shall appoint a headman (to be called Tehsildar) whose sole duty will be to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the village channel.

(*e*)—That the Tehsildar shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under rule 11.

(*f*)—That previous to water being taken for any field, a written application shall be made to the Sub-divisional Canal Officer or any subordinate authorized by the Divisional Canal Officer to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B) from competent authority.

(*g*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates that there is likely to be difficulty in the realization of the water-rates, he shall intimate the same to the Collector, in whose option it shall be to require payment of water-rates in advance, and the Collector shall inform the Divisional Canal Officer of any villages where he considers that water should not be granted without previous payment.

(*h*)—That any other cultivators in the same village, able and willing to irrigate their lands from the village channel, may, subject to the approval of the Divisional Canal Officer, be admitted as shareholders in it, on paying their proportionate share of the first cost and maintenance thereof, to be determined by the amount of irrigable land held by them.

(*i*)—That all alterations in the number of shareholders or distribution of shares shall be reported to the Sub-divisional Canal Officer for the sanction of the Divisional Canal Officer.

7. The Divisional Canal Officer is empowered to pay to the Suttadar appointed under rule 8 the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

8. The allowance to the Suttadar for duties connected with that village channel, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be one-half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

9. The allowance to the Tehsildar of a village channel for collecting the water-rates shall be one-half anna in the rupee on the amount actually paid in by him. If the Tehsildar shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be within the discretion of the Collector to pay him the allowance on the whole or on any part of such arrears.

10. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

11. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

12. The Sub-divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that the village channel is not maintained in proper repair. In the case of any such closure of a registered channel, immediate report thereof, with any necessary explanation, shall be made to the Divisional Canal Officer.

13. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the Suttadars of village channels. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Canal Officer to stop any supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates, under section 76 (*b*), shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person or through their headman, to the nearest Sub-divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (*c*) the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follow:—

WATER-RATES.

Sone Canals.

Class.	NATURE OF CROP.	FLOW IRRIGATION PER			LIFT IRRIGATION PER			Per
		Cottah.	Beegha.	Acre.	Cottah.	Beegha.	Acre.

NOTE.

1 Cottah ... ... = 1,361·25 s. feet.
1 Beegha ... ... = 27,223 00 „
1 Acre ... ... = 43,560 00 „

18. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

19. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

20. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The Suttadar will be held personally responsible for the due observance of this rule and of rules 19 to 23 and 24.

21. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

22. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

23. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated.

24. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The Suttadar to be held responsible for reporting such waste of water.

25. When the original crop sown in a field, irrigated by the canal water, fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

26. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

27. All water-rates shall become due on the dates noted on the "permits," as herein below stated, and shall be paid within one month of such dates:—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.—15th April.
Water-rate on summer crops, cheena, &c.—15th August.
Water-rate on bhadoi crops, early rice, Indian-corn, murwa, &c.—30th November.
Water-rate on annual and winter crops, sugarcane, aghani rice, joaur, &c.—31st January.

28. In the case of lands held in bhaoli, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the bhaoli rents, in the same proportion as the produce is divisible amongst them.

29. Collection of all water-rate shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

30. Objections to the demand addressed to the Collector shall, if remission be claimed on the score of short supply or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The collection of the demand shall not be suspended on account of any such objection.

31. Claims for remission referred by the Collector and admitted by the Divisional Canal Officer shall be reported by him for the sanction of the Superintending Canal Officer,

except in cases where remissions are made on account of excess areas having been charged for, or wrong name entered in the khatiauni.

32. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

33. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

34. In special cases not otherwise provided for by these rules, and in cases in which water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

35. If a cultivator is dissatisfied with the entries made against him in the khatiauni, whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the Suttadar of his watercourse, with the Divisional or Sub-divisional Canal Officer at least seven days prior to the cutting of the crop.

36. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

37. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

38. The Ameen appointed to measure up the area irrigated in any village shall, before leaving it, make over the khusras to a Mohurir, who will then compile the khatiauni. A copy of the khatiauni will be taken by the Putwaree, who must, as a rule, make it himself; but if he cannot from any cause do so, the Mohurir must make it, and the Putwaree is to be held responsible that he gets a copy.

39. The copy of the khatiauni thus made shall be hung up in some conspicuous place in the village, and slips in the prescribed form (Appendix D), showing the amount he will have to pay, area irrigated, &c., shall be prepared by the Putwaree and given to each ryot.

40. The allowance to the Putwaree for the above work shall be one-quarter anna in the rupee on the collections, and shall be paid to him by the Collector on his being satisfied that the work has been properly done.

41. The measurements of each crop irrigated shall be made as soon as practicable, and every care should be taken to have the khatiauni hung up in the village at least fifteen days before the crop is cut, so that the ryot may make his complaints, if he have any, in good time.

42. In case of any subsequent alteration of the khatiauni, owing to correction of clerical errors, &c., such alteration shall be at once communicated to the Putwaree to enable him to correct the village copy and slips accordingly.

43. The Zilladar shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-divisional Canal Officer shall also check the Ameens' measurements as often as he possibly can. If it be found that any Ameen wilfully or frequently makes wrong measurements, he shall be punished by dismissal, and shall be declared incapable of obtaining further employment under Government.

PART VI.

Bills of the India Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 26th June 1879, and was referred to a Select Committee :—

No. 8 of 1879.

A Bill to provide for the grant of Probates of Wills and Letters of Administration to the estates of certain deceased persons.

Preamble.

WHEREAS it is expedient to provide for the grant of probate of wills and letters of administration to the estates of deceased persons in cases to which the Indian Succession Act, 1865, does not apply; It is hereby enacted as follows :—

Short title.

1. This Act may be called "The Probate and Administration Act, 1879:"

Local extent.

It applies to the whole of British India;

Commencement.

and it shall come into force on the first day of January 1880.

Portions of Indian Succession Act extended to grants of probate or administration in the case of Hindús, &c.

2. The following portions of the Indian Succession Act, 1865, as amended by Act No. XIII of 1875 (*to amend the law relating to Probates and Letters of Administration*), by Act No. II of 1877 (*to amend Act No. XIII of* 1875), and by the District Delegates Act, 1879 (that is to say) :—

sections 179 to 186 (both inclusive);
sections 188 and 189;
sections 191 to 199 (both inclusive);
part XXX;
part XXXI, except section 239;
parts XXXIII to XL (both inclusive),

shall, notwithstanding anything contained in section 331, or any order passed by the Governor-General in Council under section 332, of that Act, apply in the case of every Hindú, Muhammadan, Buddhist and person exempted under section 332 of that Act dying on or after the said first day of January 1880.

Addition to section 199 of said Act.

3. The portions of the said Act thus applied shall be read as if after section 199 the following were inserted (that is to say) :—

"199A. When the deceased has died intestate, administration of his estate may be granted to any person who, according to the rules for the distribution of the estate of an intestate applicable in the case of such deceased, would be entitled to the whole or any part of such deceased's estate.

"When several such persons apply for administration, it shall be in the discretion of the Court to grant it to any one or more of them.

"When no such person applies, it may be granted to a creditor of the deceased."

Amendment of section 256 of said Act.

4. In section 256 of the said Act as applied by this Act, after the word "committed" the following shall be inserted (namely) : "and, if the Judge so direct, any person to whom probate shall be granted."

Power to refuse letters of administration

5. Notwithstanding anything hereinbefore contained, it shall, except in cases to which the Hindú Wills Act, 1870, applies, be in the discretion of the Court to refuse, for reasons to be recorded by it in writing, to grant any application for letters of administration made under this Act

Saving clause.

6. Nothing herein contained shall—

(*a*) validate any testamentary disposition which would otherwise have been invalid;

(*b*) invalidate any such disposition which would otherwise have been valid;

(*c*) vest in an executor or administrator any property of a deceased person which would other-

wise have passed by survivorship to some other person;

(*d*) deprive any person of any right of maintenance to which he would otherwise have been entitled; or

(*e*) affect the rights, duties, and privileges of the Administrator-General of Bengal, Madras, or Bombay.

Interpretation-clause.

7. In this Act, and in the said sections and parts of the Indian Succession Act as applied by this Act, all words defined in section three of that Act shall, unless there be something repugnant in the subject or context, be deemed to have the same meaning as the said section three has attached to such words respectively.

Probate and administration to be granted only under this Act.

8. No probate of a will or letters of administration to the estate of any Hindú, Muhammadan, Buddhist or person exempted as aforesaid dying on or after the said first day of January 1880, shall be granted by any Court in British India except under this Act.

Amendment of Act XXI of 1870.

9. The following amendments shall be made in the Hindú Wills Act, 1870 (namely):—

(*a*). For the portion of section two commencing with the words "sections one hundred and seventy-nine" and ending with the words "administrator with the will annexed" the words "and section one hundred and eighty-seven" shall be substituted.

(*b*). In section three, for the words "one hundred and three and one hundred and eighty-two" the words "and one hundred and three" shall be substituted.

(*c*). The third clause of the same section and the last clause of section six shall be repealed.

Nothing in this section shall apply to the case of any testator or intestate dying before the said first day of January 1880.

Validation of grants of probate and administration made since first January 1866.

10. All grants of probate of the will or letters of administration to the estate of any deceased Hindú, Muhammadan or Buddhist, or any person exempted by the Governor-General in Council from the provisions of the Indian Succession Act, which may have been made since the first day of January 1866, shall, whenever such grant would have been lawful if this Act had been in force, be deemed to have been made in accordance with law.

STATEMENT OF OBJECTS AND REASONS.

As the law of British India at this moment stands, there is, speaking generally, no means of conferring upon any one a complete and conclusive title as representative of the estate of a deceased Hindú, Muhammadan or Buddhist or other person exempt from the operation of the Indian Succession Act.

The Hindú Wills Act is at present limited in its operation to the Presidency-towns and Lower Bengal; and, even if the proposal to extend it to other parts of British India, now under consideration, is carried out, it will still only apply to cases of testamentary succession among Hindús.

The grant of a certificate under Act XXVII of 1860 makes the person who has obtained it a representative only for certain very limited purposes; and, though in the Bombay Presidency a certificate purporting to confer larger powers may be obtained under Regulation VIII of 1827, it is by no means clear what the status of the holder of such a certificate precisely is.

In the Presidency-towns probates of the wills and letters of administration to the estates of deceased Natives can be granted under the Supreme Court Charters in cases to which the Succession Act and the Hindú Wills Act do not apply; but the representative status conferred by such grants falls far short of that conferred by similar grants in the case of deceased European British subjects.

2. From this state of things much trouble and litigation at times result. The heirs may be very numerous; their interests may differ in degree; some of them may be minors or otherwise incapacitated; others may be residing at a distance; the titles of some may be disputed; the settlement of claims against the estate may thus be a matter of endless complication; the making of a satisfactory title to any portion of it which it may be necessary to sell may be impossible.

3. The necessity of devising some means of removing these difficulties was brought to the notice of the Government of India some time ago by Mr. Broughton, then Administrator-General of Bengal, and now a Judge of the Calcutta High Court; and a Bill drafted by him was circulated for the opinions of local authorities. That Bill, while guarding against any interference with the succession laws of the classes in question, went in effect to apply to them the provisions of the Indian Succession Act relating to probate and administration, and, amongst others, those provisions which make the grant of probate or letters of administration a condition precedent to the establishment of any right derived by succession from a deceased person.

4. The reports of the local authorities have now been received, and their purport may be briefly described by saying that while there is a considerable body of opinion in favour of providing the means of obtaining probate of the will or letters of administration to the estate of any deceased person when those interested desire to do so, the proposal to insist on probate or letters of administration as essential has been generally condemned, as tending to impose upon a multitude of poor and ignorant people in cases where there is no difficulty or dispute an unnecessary amount of trouble and expense.

5. The present Bill has been drawn on the lines thus indicated. It applies to the estates of all persons not at present governed by the Indian Succession Act the portions of that Act relating to the grant of probate and administration and the powers, duties and procedure of executors and administrators, omitting, however, those sections (187 and 190) which make it compulsory to obtain probate or administration, and also those sections (200 to 207) which lay down the order according to which the various persons interested are entitled to administration on an intestacy.

6. These latter sections it would be impossible to apply, as they are in part based on a law of intestate succession differing from that of the classes for which the Bill has been drawn. The only rule it seems possible to lay down for these classes is the broad one that the grant shall follow the interest; that, when several persons inheriting portions of the estate claim administration, the

Judge may grant it to any one or more of them as he thinks fit, and that, when no such person applies, he may grant it to a creditor.

7. This is the rule laid down by section 3 of the Bill; and, as it is apprehended that in some cases of family feuds a person entitled to a trifling share of the deceased's estate might apply for administration merely for the purpose of harassing his co-heirs by compelling them to apply, a full discretion has been reserved (in section 5) to refuse, for reasons recorded, to grant any application.

8. The Indian Succession Act, following the English law, provides for the taking of security for the due discharge of his office only from an administrator, it being considered that in the case of an executor who is selected by the testator himself such security can safely be dispensed with. But amongst the classes to which this Act will apply cases will, it is apprehended, occasionally occur in which it may be expedient to take security even from an executor; and accordingly a section (4) has been inserted in the Bill amending section 256 of the Succession Act in such a manner as to give a power to the Court to require an executor to give security.

9. Section 6 of the Bill saves in the fullest manner the substantive laws of succession of the classes to which the Bill applies.

10. Section 8 is intended to put an end to the imperfect grants of probate and administration under the old Supreme Court Charters already referred to.

11. The portions of the Hindu Wills Act specified in section 9 are repealed merely because they are re-enacted with a wider application in the present Bill. Section 10 is intended to remove all doubt as to the validity of certain grants of probate and administration which have been made in British Burma.

Secy. to the Govt. of India,
Legislative Department.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 26th June 1879, and was referred to a Select Committee:—

No. 9 of 1879.

A Bill to make further provision for the grant of Probate and Letters of Administration in non-contentious cases.

WHEREAS it is expedient to make further provision for the grant of probate and letters of administration in non-contentious cases; It is hereby enacted as follows:—

Preamble.

Short title. 1. This Act may be called "The District Delegates Act, 1879:"

Extent. It extends to the whole of British India;

Commencement. and it shall come into force on the first day of January 1880.

Addition of section after section 235 of Succession Act. 2. After section 235 of the Indian Succession Act, 1865, the following section shall be added:—

Power to appoint Delegate of District Judge to deal with non-contentious cases. "235A. The High Court may, from time to time, appoint such judicial officers within any district as it thinks fit, to act for the District Judge as Delegates to grant probate and letters of administration in non-contentious cases, within such local limits as it may from time to time prescribe:

Provided that, in the case of High Courts not established by Royal Charter, such appointment be made with the previous sanction of the Local Government.

Persons so appointed shall be called District Delegates."

Addition of section after section 241 of same Act. 3. After section 241 of the said Act, the following section shall be added:—

Probate and letters of administration may be granted by Delegate. "241A. Probate and letters of administration may, upon application for that purpose to any District Delegate, be granted by him in any case in which there is no contention, if it appears by petition (verified as hereinafter mentioned) that the testator or intestate, as the case may be, at the time of his death resided within the jurisdiction of such Delegate."

Addition to sections 244 and 246 of same Act. 4. To sections 244 and 246 of the said Act, respectively, the following words shall be added: "and when the application is to a District Delegate, the petition shall further state that the deceased at the time of his death resided within the jurisdiction of such Delegate."

Substitution of section for section 251 of same Act. 5. For section 251 of the said Act, the following section shall be substituted:

Caveats against grant of probate or administration. "251. Caveats against the grant of probate or administration may be lodged with the District Judge or a District Delegate; and immediately on any caveat being lodged with any District Delegate, he shall send a copy thereof to the District Judge; and immediately on a caveat being entered with the District Judge, a copy thereof shall be given to the District Delegate, if any, within whose jurisdiction it is alleged the deceased resided at the time of his death, and to any other Judge or District Delegate to whom it may appear to the District Judge expedient to transmit the same."

Amendment of section 253 of same Act. 6. In section 253 of the said Act, after the word "Judge" the words "or officer," and after the word "made" the words "or notice thereof has been given of its entry with some other Delegate," shall be inserted.

Addition of sections after section 253 of same Act. 7. After section 253 of the said Act, the following sections shall be added:—

District Delegate when not to grant probate or administration. "253A. A District Delegate shall not grant probate or letters of administration in any case in which there is contention as to the grant, or in which it other-

wise appears to him that probate or letters of administration ought not to be granted in his Court.

"*Explanation.*—By 'contention' is understood the appearance of any one in person or by his recognized agent, or by a pleader duly appointed to act on his behalf to oppose the proceeding.

Power to transmit statement to District Judge in doubtful cases where no contention.

"253B. In every case in which there is no contention, but it appears to the District Delegate doubtful whether the probate or letters of administration should or should not be granted, or when any question arises in relation to the grant, or application for the grant, of any probate or letters of administration, the District Delegate may, if he thinks proper, transmit a statement of the matter in question to the District Judge, who may direct the District Delegate to proceed in the matter of the application, according to such instructions as to the Judge may seem necessary, or may forbid any further proceeding by the District Delegate in relation to the matter of such application, leaving the party applying for the grant in question to make application to the Judge.

Procedure where there is contention, or District Delegate thinks probate or letters of administration should be refused in his court.

"253C. In every case in which there is contention, or the District Delegate is of opinion that the probate or letters of administration should be refused in his Court, the petition, with any documents that may have been filed therewith, shall be returned to the person by whom the application was made, in order that the same may be presented to the District Judge; unless the District Delegate thinks it necessary, for the purposes of justice, to impound the same, which he is hereby authorized to do; and in that case the same shall be sent by him to the District Judge."

Amendment of sections 254, 255, and 308 of same Act.

8. In the said Act, sections 254 and 255, respectively, after the words "I, Judge of the District of ," the words "*(or* Delegate appointed for granting probate or letters of administration in *(here insert the limits of the Delegate's jurisdiction)*;" and in section 308, after the words "District Judge by whom" the words "or by whose District Delegate" shall be inserted.

Introduction of the words "or District Delegate" in certain sections of same Act.

9. In the said Act, sections 246, 250, 255, and 259, after the words "District Judge," and in section 250 and section 254 (when it first occurs) after the word "Judge," the words "or District Delegate" shall be inserted respectively.

STATEMENT OF OBJECTS AND REASONS.

The Indian Succession Act as originally framed by the Law Commissioners empowered the District Judge to appoint judicial officers to act for him as delegates to grant probates or letters of administration in non-contentious cases much in the same way as the District Registrars appointed under the Court of Probate Act, 1857, do in England; but the provisions relating to this matter were struck out of the Bill by the Select Committee, partly because they were deemed unnecessary, and partly because it was apprehended that the power which was to be conferred on District Judges would give rise to abuse.

If, however, the Bill which has been drafted to provide for granting probate of the wills and administration to the estates of persons now exempted from the operation of the Indian Succession Act becomes law, it is probable that the business of granting probate and administration will increase to such an extent that the District Judges will be unable to dispose of it without assistance.

The present Bill has accordingly been framed with a view to replacing in the Succession Act, with some slight modifications in point of form, the sections removed from it by the Select Committee; but, in order to avoid as far as possible the danger of abuse apprehended by the Select Committee, the power of appointing the delegates has been vested not in the District Judges, but in the High Courts, and its exercise has in the case of High Courts not established by Royal Charter been made subject to the previous sanction of the Local Government.

THE following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 26th June 1879, and was referred to a Select Committee:—

No. 11 of 1879.

A Bill to provide for the holding of property by certain Religious Congregations.

Preamble.

WHEREAS it is expedient to simplify the manner in which certain congregations associated for the purpose of maintaining religious worship may hold certain property acquired for such purpose; It is hereby enacted as follows:—

Short title.

1. This Act may be called "The Religious Congregations Act, 1879:"

Commencement.

It shall come into force at once; and

Local extent.

shall extend to the whole of British India;

but nothing herein contained shall apply to any Hindús, Muhammadans or Buddhists, or any persons whom the Governor General in Council may, from time to time, by notification in the *Gazette of India*, exclude from the operation of this Act.

Appointment of new trustees in cases not otherwise provided for.

2. When any congregation associated for the purpose of maintaining religious worship has acquired, or hereafter shall acquire, any moveable proprety,

or any immovable property for—

(*a*) a church, chapel, meeting-house or other place for religious worship,

(*b*) a dwelling-house for the minister of such congregation, with offices and garden,

(*c*) a hall or rooms for the meeting and transaction of the business of such congregation,

and such property has been or hereafter shall be vested in trustees in trust for such congregation,

and it becomes necessary to appoint a new trustee in the place of any such trustee or of any trustees appointed in the manner hereinafter prescribed,

and no manner of appointing such new trustee is prescribed by any instrument by which such property was so vested or by which the trusts on which it is held have been declared, or such new trustee cannot for any reason be appointed in a manner so prescribed,

such new trustee may be appointed in such manner as may be agreed upon by such congregation, or by a majority of not less than two-thirds of the members actually present at the meeting at which the appointment is made.

Appointment under section 2 to be recorded in a memorandum under the hand of the chairman of the meeting.

3. Every appointment of new trustees under section two shall be made to appear by some memorandum under the hand of the chairman for the time being of the meeting at which such appointment is made.

Such memorandum shall be in the form set forth in the schedule hereto annexed, or as near thereto as circumstances allow, and shall be executed in the presence of such meeting, and attested by two or more credible witnesses.

Property to vest in new trustees without conveyance.

4. When any new trustees have been appointed whether in the manner prescribed by any such instrument as aforesaid or in the manner hereinbefore provided, the property subject to the trust shall forthwith, notwithstanding anything contained in any such instrument, become vested, without any transfer, conveyance or other assurance, in such new trustees and the old continuing trustees jointly, or, if there are no old continuing trustees, in such new trustees wholly, upon the same trusts and with and subject to the same powers and provisions as it was vested in the old trustees.

Saving of existing modes of appointment and conveyance.

5. Nothing herein contained shall be deemed to invalidate any appointment of new trustees, or any conveyance of any property which may hereafter be made as heretofore was by law required.

THE SCHEDULE.

(*See section* 3.)

Memorandum of the choice and appointment of new trustees of the (*describe the church, chapel or other buildings and property*) situate at a meeting duly convened and held for that purpose (*in the vestry of the said*) on the day of 18 , A. B. of Chairman.

Names and descriptions of all the trustees on the constitution or last appointment of trustees made the day of

(*here insert the same*).

Names and descriptions of all the trustees in whom the said (*chapel*) and property now become legally vested.

First.—Old continuing trustees:—

(*here insert the same*).

Second.—New trustees now chosen and appointed:—

(*here insert the same*).

Dated this day of 187 .

Signed by the said A. B. as Chairman of the said Meeting, at and in the presence of the said Meeting on the day and year aforesaid in the presence of—

A. B.,

Chairman of the said Meeting.

E. F.

STATEMENT OF OBJECTS AND REASONS.

CERTAIN members of the Simla Union Church, so far back as the year 1873, drew the attention of Government to the hardship under which they laboured in being unable, without constantly recurring trouble and expense, to keep up a permanent and effective body of trustees to whom to commit the property of the Church. The Secretary to the Calcutta Missionary Conference about the same time made a similar representation to Government; and there are probably other bodies associated for religious purposes in India who experience like difficulties.

2. The present Bill is drawn on the lines of 13 & 14 Vic., c. 28 (commonly known as Peto's Act), which was passed to meet a similar difficulty felt by Religious Societies in England. It differs from that Act, however, first in applying only to Religious Congregations and not to Societies formed for purposes of education; and secondly in providing for the case of moveable as well as immoveable property.

3. It simply provides that, if property of certain specified descriptions is conveyed to trustees in trust for any Religious Congregation, and no special provision is made for the appointment of new trustees, new trustees may be appointed in such manner as that Congregation may determine, and further, that on the appointment of new trustees whether in exercise of the powers thus conferred or otherwise, the property shall vest in them without any further conveyance.

4. Hindus, Muhammadans and Buddhists are excepted from the provisions of the Bill, as it is thought undesirable to interfere with the laws regulating their endowments.

RAJSHAHYE AND COOCH BEHAR DIVNS. 10	Dinagepore, July 4 '79	2·88	Light showers every day. Weather cool. State of crops most satisfactory. Price of rice 10 to 15 seers a rupee.
11	Rajshahye, „ 5 „	7·81	Weather—cooler and more seasonable. Rivers much increased. Rain every day up to evening of 4th; at times very heavy. It is feared that autumn rice and jute crops suffered to some extent owing to heavy rain. Winter rice sowing also stopped in some places. Heavy rain, however, very favorable for *ropa dhan* in western part of district, which is an undulating tract. Price of rice rising; it is now being sold at about eight seers a rupee, and in some hâts in centre of district it has not been procurable lately, being kept back by dealers. Public health good.
12	Rungpore, „ 4 „	2·60	Weather—rainy and cool with easterly wind. State and prospects of crops continue good. Cholera and small-pox abating.

27	Shahabad, „ 5 „	1·40	Rainfall in interior much greater than at Sudder station. Prospects of crops exceedingly favourable.
28	Durbhunga, „ 5 „	4·26	Weather—cloudy, with occasional heavy showers and east wind. Rain more than sufficient for sowing and transplanting. Prospects of crops satisfactory. General health of people good, although cholera not quite disappeared.
29	Mozufferpore, „ 5 „	2·92	Weather—cool and showery. *Bhadoi* sowings and transplantation of rice seedlings being made, but not so fast as could be wished in parts of Mozufferpore and Seetamurhee sub-divisions, owing to continued rains and backwardness of seedlings. At Mozufferpore rain fell nearly every day of week. In Hajeepore sub-division prospects good. Fine weather much wanted in northern half of district. Cholera slowly decreasing.
	Hajeepore ...	2·41	
	Seetamurhee ...	1·62	
30	Sarun, „ 5 „	4·65	Weather—cloudy and rainy; east wind prevailing. Rain general throughout district. *Bhadoi* sowings nearly completed. All crops promising, but a little sunny clear weather wanted for maize, which has begun to suffer in some places. Paddy seed being put in nurseries. Prices slightly fallen. Cholera still prevalent.
	Sewan ...	4·07	
31	Chumparun, „ 5 „	1·96	Weather—showery. State and prospects of crops good. Cholera still very prevalent and rather worse.
BHAGULPORE DIVISION. 32	Monghyr. July 5 „	6·89	Weather—cloudy, with occasional heavy rain. Prospects continue good. Rain general and good for *bhadoi* sowings. Cholera at Jamalpore, Shekhpura, and other places.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore 0·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

D. B. Horn,

for Joint-Secy. to the Government of Bengal,
P. W. Dept., Irrigation Branch.

The 2nd July 1879.

Eastern Bengal Railway.

Report on the Goods Traffic for the four weeks ending the 24th May 1879.

Dated Calcutta, the 21st June 1879.

From—W. INNES, ESQ., Acting Traffic Superintendent, Eastern Bengal Railway,
To—The Agent, Eastern Bengal Railway Company, Sealdah.

THE total weight of goods carried over this railway during the above period was 6,41,699 maunds, which, as compared with the corresponding period of last year, shows an increase of 34,496 maunds. This increase is chiefly in the following articles, viz.:—

Hides, jute, drums, salt, sugar, tea, and tobacco.

The articles showing the largest decrease are grain, including rice, Railway material, foreign, seeds, and miscellaneous goods.

Increases.

Hides ... ... Mds. 5,344

This staple shows a large increase, owing to a large demand for export.

Jute ... ... Mds. 1,12,953

This article shows a very large increase in drums, owing to an increased demand in the market, and the high prices lately ruling in Calcutta.

Salt ... ... Mds. 23,152

Chiefly owing to the duty being reduced, and I am glad to state that the increase appears to be steadily going on.

Sugar ... ... Mds. 6,596

This staple shows an increase, owing to a greater demand in the market.

Tea ... ... Mds. 3,888

This increase is in consequence of tea now being carried from Cachar by our small steamers.

Tobacco .. .. Mds. 3,129

This staple shows an increase this month, the demand fluctuating according to the market.

Decreases.

Grain, including rice ... ... Mds. 69,520

This decrease is owing to the scarcity in the Eastern Districts. Grain and rice have lately been sent to these districts from Calcutta.

Railway material, foreign ... ... Mds. 3,805

This is owing to the small quantity of material required for the Northern Bengal State Railway now.

Seeds ... . Mds. 29,453

This shows a decrease owing to the failure of the crops.

Miscellaneous goods ... ... Mds. 12,613

These staples show a material decrease, owing to causes already given.

I attach the usual statement of increases and decreases.

The 15th July 1879.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

IT is hereby notified, under Section 5 of the "Indian Treasure Trove Act (VI of 1878)," that on the 26th May 1879 treasure consisting of the things noted below, valued in the aggregate at Rs. 128-10-3, was found in the compound of one Nunna Rungacharlu at Dowlaishvaram, in the Rajahmundry taluk, Godavari district, Madras Presidency.

2. All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Godavari district at his office on 10th December 1879, in order to the matter being inquired into and determined in accordance with the provisions of the Act.

99 rupees, small.
1 gold mohur.
1 brass button.
1 silver thread.
2 neck ornaments.
1 piece of a gold earring.
1 copper pot, which contained the above things.
1 silver coin.
2 small rupees.

W. C. HOLMES,
Asst., for Collector, Godavari District, Madras Presidency.

NOTIFICATION.

The 27th June 1879.—It is hereby notified for general information that from and after the 1st October 1879 no shroff-marked, notched, or otherwise defaced silver coin shall be received in any public treasury in Bengal in payment of Government demands.

The following rules for checking the practice of defacing the coinage of British India have been approved by the Lieutenant-Governor, and are hereby published for general information and for the guidance of district officers in the Lower Provinces of Bengal:—

A.—All public treasuries in the mofussil shall, with convenient despatch, remit all shroff marked, notched, or otherwise defaced silver coin in their custody, which has not lost more than two per cent. in weight, to the Presidency Bank, which will credit the mofussil treasury with the amount as a remittance. The Presidency Bank will cause all coin thus remitted, and also all similar coin in its custody, to be exchanged at the Currency Office for notes or legal coin. The Currency Offices will transmit the defaced coin thus received, with any similarly defaced coin in the currency reserve, to the Calcutta Mint, to be exchanged for legal coin. No shroff-marked, notched, or otherwise defaced silver coin shall henceforth be issued from any public treasury.

B.—The Mint will receive at their nominal value all such coins, and will bear the expense of their re-coinage. But soldered coins, if found in remittances, will as heretofore be cut and returned to the poddar or remitted for delivery to the Mint, where they will be valued as usual. Coins of which more than two per cent. in weight has been reduced otherwise than by reasonable wearing will be received in the Mint only as bullion.

C.—After 1st October 1879 no such defaced coin shall be received in payment of Government demands.

D.—The officers authorized so to do under the Indian Coinage Act shall cut or break in pieces any such defaced coin tendered to them, the weight of which shall have been reduced otherwise than by reasonable wear; the broken pieces being returned to the person who tendered the coin.

E.—If such defaced coin is not so reduced in weight as to justify its destruction, the officer to whom it is tendered should offer to accept it at the rate of one rupee per tolah of its actual weight; and coin so accepted should be remitted to the Presidency Bank, and thence to the Currency Office at Calcutta, as before directed, with a view to its being exchanged and re-coined.

H. L. HARRISON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 15th July 1879.—With reference to the notification defining the revised boundaries of the Hooghly and Chinsurah Municipality, dated the 18th February last, published at page 157, Part I of the *Calcutta Gazette* of the 19th idem, it is hereby notified that this Municipality includes the barracks and the area within the boundary pillars of the Chinsurah Cantonments, which are situated within and surrounded by the Municipality as therein defined.

H. L. HARRISON,
Offg. Secy. to the Govt. of Bengal.

The 15th July 1879.—The following revised rules under the Bengal License Act, 1878, are published for general information.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secy. to the Govt. of Bengal.

Revised Rules for the Administration of the Bengal License Act, sanctioned by Government for districts other than Calcutta, under Section 39 of Act I (B.C.) of 1878.

Persons liable to taxation.

1.—Every person carrying on any trade, dealing, or industry, whose annual earnings from such trade, dealing, or industry, amount to Rs. 100 or upwards, must take out and pay for a license under this Act.

Collective net profits to be taxed.

2.—A person who carries on more than one trade, dealing, or industry, is to be taxed not separately on the profits from each trade, dealing, or industry, but on the collective net profits derived from all such trades, dealings, or industries.

Designation of license.

3.—When a person or firm carries on two or more trades, dealings, or industries, coming under more than one designation in Schedule A of the Act, the assessment will be made with reference to the *total* profits from all such trades, dealings, or industries, but it is within the discretion of the Collector to determine under which particular designation the license will be granted.

Assessment of person in more districts than one.

4.—A person not specially exempted, is liable to taxation in any district in which he may be found carrying on any trade, dealing, or industry, and such person should be assessed in each district, it being left to him to claim exemption under section 5 of the Act in any district if his profits in that district are below Rs. 100.

Assessment of persons in more circles than one.

5.—A person carrying on a trade, dealing, or industry, in more than one circle in the same district, should be assessed by each Circle Officer independently with reference to the profits derived from his trade, dealing, or industry, in his particular circle, and the Collector of the district, after comparing and collecting the returns of the various Circle Officers, will determine the place in which the total and final assessment should be made. This place will usually be that in which the assessee's principal place of business is situated, but the Collector may order that the place of assessment shall be any other place of business of the assessee if he considers that the convenience of the assessee will be more consulted by this arrangement. In each case in which it comes to the notice of a Circle Officer that a person assessed by him carries on his trade, dealing, or industry in another circle in the same district, a special report shall be made by him to the Collector.

Profits how to be estimated.

6.—In estimating the amount of profits derived from any trade, dealing, or industry, the expenses incurred in carrying on such trade, dealing, or industry, must be excluded; but the amount expended on things not directly connected with it, such as the maintenance of the licensee or his family, must not be excluded, as such amounts form part of the taxable profits of the licensee.

Persons exempted under the Act.

7.—Under section 4 of the Act no person earning his livelihood solely by agriculture, no cultivator of land, who does not keep a shop or stall for the sale of his produce, and no person receiving rent in kind who merely disposes of the produce so received as rent, is liable to license tax. All servants receiving fixed wages, whether their duties are such as would ordinarily

make them liable under the Act or not, including all mechanics and artizans paid by wages, are exempted from the operation of the Act No person shall be liable to taxation under the License Act by reason of his applying to agricultural produce raised by him or received by him as rent, the processes ordinarily necessary for making such produce marketable, but any person who applies the said processes to any other agricultural produce and prepares the same for the market, shall be deemed to be a trader in respect of such produce.

General instructions as to classes liable under the Act.

8.—Any agriculturist who (besides cultivating land) carries on any trade, dealing, or industry, which would, if it formed his sole occupation, subject him to tax, must take out a license with reference to the amount of his earnings from such separate trade, dealing, or industry. Care must be taken in assessing such a person to discriminate between his earnings from his trade or industry and his earnings from his agriculture. Agricultural profits must not on any account be taxed. So, again, no zemindar or rent receiver is liable to tax in respect of his rents. But if he carry on the business of a mahajun or money-lender, he should be required to take out a license in respect of his business profits. There will ordinarily be little difficulty in distinguishing between the case of a zemindar, who occasionally makes advances to his tenants with the object of assisting them, and the case of a zemindar who regularly carries on 'mahajuni' for his own profit. The former should on no account be taxed under this Act. The latter must take out a license.

Collectors will ordinarily have little difficulty in deciding, generally, whether a man's occupation can be described as a 'trade' or 'dealing.' These words are intended to cover all the operations of commerce, large or small.

Incidence of taxation.

9.—In determining under which class, or which grade of a class of the schedules annexed to the Act a person is liable to be assessed, the Collector must endeavour so to regulate the incidence of the tax that the fee payable by any person shall not exceed 2 per cent. upon his annual earnings. No enquiry is to be made into the amount of a licensee's income, but the Collector may make an estimate of it from any information, which may be available to him, and should generally consider what rate of tax the licensee's apparent circumstances would warrant his imposing. It will be for the licensee to show that the rate of tax proposed is beyond the maximum to which he is liable under the Act. Under class VI the ordinary fee will be Rs. 2; but if, in any case, that fee would seem to press hardly upon the licensee, it may be reduced to Re. 1.

Table of fees

10.—The following table may serve as a guide to the Collector in fixing the rate of fees—

Under Schedule A.

Class.	Grade	Minimum taxable income.	Rate of tax
		Rs.	Rs.
I	1	25,000	500
	2	10,000	200
II	.....	5,000	100
III	.....	2,500	50
IV	.....	1,000	20
V	.....	250	5
VI	1	100	2
	2	100	1

Illustration.

Thus a person whose annual earnings are estimated to be between Rs. 5,000 and Rs. 10,000, should be assessed under class II unless he falls within the description of persons chargeable under class I, in which class the assessees will be divided into grades and charged with a fee of Rs. 500 or Rs. 200 respectively, according as their income is estimated at Rs. 25,000 or under.

But any person falling under any of the descriptions in class I, may claim to be put in a lower class if the fee charged under class I is more than 2 per cent. upon his annual earnings.

Duties of Collectors.

11.—In the assessment and collection of the tax the Collector of the district is subject to the control of the Commissioner and the Board of Revenue.

By whom operations under the Act to be conducted.

12.—The Collector must retain in his own hands the general supervision of the operations under the Act; but he may, with the sanction of the Board, make over by written order any specific duties to any qualified Assistant or Deputy or Sub-Deputy Collector at head-quarters.

The sanction of Government is not necessary for the exercise and performance (subject to the Collector's orders) by an Assistant or Deputy Collector of any or all of the duties and powers conferred on a Collector under the Act. It is only necessary in the case when any other officer than those above named has been appointed for the purpose.

Division of districts into circles

13.—For the purposes of this Act each district will be divided into circles which should be identical with the existing sub-divisions of the district, and be numbered consecutively, beginning with the sudder division.

Establishment to be employed.

14.—Each circle will be placed in charge of a Circle Officer who, as a general rule, will be the Sub-divisional Officer himself. In the case of the sudder sub-division the circle may be placed in charge of a Deputy Collector assisted by one or more Circle Officers, with such scale of establishment as the Board may sanction. When the Circle Officer is not the Sub-divisional Officer himself, the Sub-divisional Officer will perform such duties in the way of supervising and assisting the Circle Officers as the Collector may assign to him.

15.—No officer while continuing to hold and to perform the duties of his appointment in the regular establishment of a Collector's office should be employed to make or revise assessments under the Act, save with the previous sanction of Government, which should be obtained through the Board.

Security.

16.—Circle Officers and other persons not in the service of Government must, when entrusted with the receipt and collection of money, give security to the extent determined by the Board of Revenue. In fixing the amount of security in each case the Collector will, to some extent, be guided by a consideration of the circumstances of the circle in which the officer is employed, the facility for making frequent remittances of the collections of the tax to the head-quarters or sub-divisional treasury, and the number of licensees who are expected to apply for licenses.

Preparation of lists of villages.

17.—The Collector will cause a list to be prepared in form A. of all the villages in each circle, and of every person in each village, who is *prima facie* chargeable under the Act according to his trade, dealing, or industry. The list of persons assessed in the previous year shall form the basis of this list. The Collector will examine the list and check it by such means as are open to him, making such alterations as he may consider necessary; and the list when so corrected and revised, will be published locally under section 15 of the Act. Collectors should take care to test the assessments as much as possible by personal enquiry, conducted either by themselves or by some experienced subordinate. Special care will be necessary in assessing licensees under the first four classes. The work of assessment should be completed in every district by August at the latest. In their cold weather tours Collectors and Sub-divisional Officers must carefully check the lists and assessments in as many villages as possible.

Correction of errors in assessment.

18.—The Collector is at liberty to correct at any time any serious errors in assessment which may come to his knowledge; but unless the errors are really serious, it is better for him merely to note the correction for next year's list, and not to press the licensee to take out a revised license. Generally, it may be said that errors

in the classifications of the first four classes should, as a rule, be corrected as soon as discovered. Errors in the two last classes should, as a rule, be merely noted for correction in next year's lists.

Publication of lists.

19.—Three copies of each list will be required for publication, viz. one for the village, one for the Sub-divisional Officer, and one for the police-station. It will not be necessary to publish the circle lists as a whole at any other place than the sub-divisional office. The parts of the list applicable to each village or town must be published in the village or town concerned, and at every police-station a complete list must be published for all villages lying within the jurisdiction. With the list the notification in form B. should invariably be published.

Place and manner of publication of lists and notifications.

20.—The publication of the list and notification should be made by affixing them on some conspicuous part, readily accessible to the public of the bazar, police-station, sub-divisional office, or village, as the case may be.

Certificate of publication.

21.—The peon or other officer entrusted with the publication of the list and notification in any village or town must be provided with a perwannah or written order in form C., which should be endorsed with a certificate, to be filled in by the peon or other publishing officer, stating the time, place, and manner of publication, and the names of two persons in whose presence the publication was effected. The certificate should further be attested by the signature of the gomashta, or other village authority, or of the officer in charge of the police-station, or of the head clerk of the sub-divisional office, as the case may be.

Copy, not original lists, to be published.

22.—The lists to be published will not, of course, be the original lists, but copies of them, bearing the Collector's signature, the originals being retained in the Collector's office.

Persons by whom lists to be published at thanas, &c.

23.—When the list is to be published at any police-station or sub-divisional office, the perwannah should be addressed to the officer in charge of the police-station, or to the Sub-divisional Officer, as the case may be, and such officer will then proceed in the manner above directed

Returns from municipalities and unions.

24.—In every municipality and union under Act V (B.C.) of 1876 in which the Collector shall, under section 27 of the Act, call upon the Commissioners or punchayet to furnish a return, he should require them by written order to submit such return direct to him within six weeks from the date of the requisition. The notice to the municipality or punchayet may be in form G. The return should be in form A., and be submitted to the Collector with all the columns filled in. The Collector should by written order confer on the Vice-Chairman of each Municipality power to call for information under section 11 of the Act.

Revision of municipal returns by the Collector.

25.—The Collector, after he has revised and tested the return in such manner as he may think fit, should report through the Board of Revenue, for the orders of the local Government, whether he proposes to employ the municipality or union machinery to collect the tax under the provisions of section 28 of the Act, or whether he will collect it by his own agents. This report should contain full particulars as to the gross amount leviable in the place, the number of licenses in each class and grade, and the probable expense to the municipality or union of collecting the tax. Where the tax is collected by the municipality, it shall be competent to the municipality to arrange for the collection by payment of a commission or percentage to the collecting officer.

Returns from village punchayets.

26.—Whenever the Collector, under section 27 of the Act, may require a village punchayet under Act VI (B.C.) of 1870, to furnish a return, he should direct them by an order in form G. to submit it to the Circle Officer within one month from the receipt of the order. If the punchayet fail to make a return within the prescribed time, or if the Circle Officer has reason to doubt the accuracy of the return, he may revise it, or he may prepare a new return in the ordinary manner, and the return so

revised or prepared shall, when passed by the Collector, be the list to be published in the village under section 15 of the Act. The punchayet's return should be in form A., and be submitted to the Circle Officer with all the columns filled in. Returns from village punchayets must be carefully checked by Circle Officers. It shall be competent to the Collector to appoint the headman of the punchayet as collector of the tax, and to pay him a percentage or commission.

List to be filed in Collector's office. Language in which list to be written.

27.—The list of persons under section 10 of the Act will be kept at the Collector's office in the English language, and a copy of it must also be made in the vernacular language of the district. Extracts from this list in English and in the vernacular will likewise be kept at the head-quarters of each Circle Officer. The lists to be published under section 15 of the Act will be written in the vernacular language of the district, as used in the Civil and Criminal Courts.

Remission of a moiety of license fee when trade, &c., carried on for less than six months.

28.—Whenever a person carries on his trade, dealing, or industry, for a portion of the year less than six months, he may receive a remission of one-half of his license fee on his satisfying the Collector of the district to that effect.

By whom production of licenses may be required.

29.—All Circle Officers and all officers of police of or above the rank of Sub-Inspector shall be deemed to be generally empowered to require any person holding a license to produce and show his license. But the Collector may, by an order in writing, generally or especially, empower any other persons to act in this behalf as he may think fit.

Fees to be paid in one sum.

30.—All fees under the Act must be paid in one sum, and not by instalments.

Place where payment may be tendered.

31.—Every person mentioned in the list published under section 15 of the Act may tender payment of his fee at the district or sub-divisional treasury or to any officer authorized by the Collector to receive payment elsewhere. A person who tenders payment before the 1st August at the district or sub-divisional treasury shall be entitled to a deduction of 6¼ per cent., or one anna in the rupee, from the amount payable.

Granting of license.

32.—On payment of the fee specified, the licensee will be entitled to receive a license under the Act, and this license will be deemed to be a receipt for the fee so paid.

Form of license.

33.—The license will be in the form D., and will be printed on such coloured paper, and bear such serial numbers, as the Board may prescribe for each district. The forms of licenses for any particular year should be kept separate from the forms of licenses for a preceding year, and on no account should a license for one year be granted in a form applicable to another year.

34.—Whenever the amount of the tax after being realized is remitted or reduced on appeal, the license originally issued should be returned to the Collector at the time the amount refunded is paid. The license should be cancelled, and the fact of cancelment should be noted on the counterfoil. In the case of reduction of the tax a fresh license should be granted for the reduced sum, the balance due to the assessee being refunded to him; but in the accounts the full amount paid for the cancelled license should be treated as a refund, and the cost of the fresh license as a collection.

35.—The cancelled licenses should be kept in the treasury, and on the first day of every month they should be forwarded to the Superintendent of Stationery for destruction, in the same manner that spoiled stamps are forwarded, together with an application for permission to write off the value of the licenses from the account of licenses issued to the Collector by the Superintendent of Stationery. On receipt of a certificate from the Superintendent of Stationery of the destruction of the licenses, the Board will sanction the amount being written off the accounts.

36.—A register should be kept in the following form:—

1. Name of licensee to whom refund is granted.
2. Number of license.
3. Class and grade of license.

4. Amount.
5. Date of refund.
6. Date of transmission of license to the Superintendent of Stamps for destruction.
7. Remarks.

37.—The amount of refunds granted and of fines and penalties imposed during the month should be entered in return T. in the remark column, and at the foot of column 9 the following entries should be made:—

Total amount collected up to date	...	
Amount of fines up to date ...	...	
Ditto of penalties up to date ...	...	
Total	...	
Deduct amount of refunds up to date	...	
Net collections	...	

To whom license forms to be supplied.

38.—Books containing the requisite license forms will be supplied to the Circle Officers and to all other officers whom the Collector may authorize to receive payment of the fees. Every such officer will be held accountable for the license forms entrusted to him, and must remit all sums received by him under these rules to the treasury of the circle or of the district, as may be ordered by the Collector of the district.

Petitions of objection.

39.—A petition of objection under section 17 of the Act may be filed within 30 days of the date of the publication of the list in the village in which the petitioner's trade, dealing, or industry is carried on. The Collector may extend this period beyond 30 days, but such period should in no case, unless under very exceptional circumstances, be extended beyond 60 days from the date of the publication of the list in the village of the petitioner.

Petitions of objection after time.

40.—No petition of objection should be received when more than 30 days have passed from the date of publication, unless the license fee charged in the Collector's list is previously paid.

Refund when to be made.

41.—As soon as an order for refund has been passed on a petition of objection payment of the amount should be made.

Circle Officers not to hear petitions of objection.

42.—Circle Officers who are not Sub-divisional Officers are not to be allowed any power of deciding objections against their own assessments. The Collector may employ a Circle Officer to enquire and report on a petition of objection to enable him to pass his decision upon it.

List of defaulters.

43.—The Sub-divisional Officer or the Deputy Collector in charge at the head-quarters shall forward to the Collector a list of those persons who have failed to make payment within 60 days from and after the date of the publication of the list under section 15. The Collector shall thereupon issue orders for the recovery of the license fees and full penalty not exceeding thrice the amount of tax, unless for good and sufficient reasons the Collector sees fit to postpone the issue of orders in the case of any particular defaulter.

Reduction of license fee in case of members of a family.

44.—Whenever the members of any family live and work together at the same trade, dealing, or industry, but without forming a firm as recognized by the Indian Contract Act, every member of the family is separately chargeable under the Act; but a reduction may, if the Collector thinks fit, be made of one-half of the fee due from each member of the family other than the senior member of it.

Illustration.

For example: A joint family, consisting of a father and two sons, carry on a trade from which they derive an annual profit of Rs. 500; the share of the father is Rs. 260, and that of each of the sons Rs. 120; the father is liable to a fee of Rs. 5, and each of the sons to a fee of Re. 1 if the Collector thinks fit. But if in the same family, with the same annual profits, the father's share is Rs. 260,

that of the elder son Rs. 150, and that of the younger son Rs 90, the father will be liable to a fee of Rs. 5, the elder son to a fee of Re. 1, if the Collector thinks fit, and the younger son will be exempt.

Special notice.

45.—In addition to the entry in the list under section 10 of the Act, a special notice in the form E. will be issued by the Collector or Circle Officer to each person subject to a license fee under classes I, II, III, and IV of Schedule A., specifying the amount of the license fee due and the period of 60 days within which it must paid. Any person not paying the amount of the license named in the notice within the prescribed time will be liable to the penalty prescribed under section 21 of the Act. The notice may be served by the post, or in such other manner as the Collector may deem suitable without cost to the person to whom the notice is addressed.

Application for license by person not included in the list.

46.—Whenever any person whose name is not mentioned in any list published under section 15 of the Act applies to take out a license according to the schedule under which he is chargeable, he must be required to state in writing, or in reply to formally-recorded interrogations (form F.) his name and the trade, dealing, or industry, under which he is chargeable, and the maximum amount of fee which he considers himself liable to pay under the Act. Any person giving false information on these points is liable to the penalties prescribed by the Penal Code for such offence.

Stamp fee.

47.—The stamp fee chargeable on every petition presented to a Collector under the provisions of sections 17 and 19 of the Act is one anna.

Registers to be kept up in each district.

48.—The following registers prescribed by the Board should be kept up in each district. It shall be competent to the Board to add or alter these registers as they may think fit.

Register I.—Register of petitions of objection presented under section 17 of the License Act in each district.
„ *II.*—Register of petitions of appeal presented under section 19 of the Act.

Collector.

The 21st June 1879.

[First Publication.]

NOTIFICATION.

The 9th July 1879.—The Port of Chittagong and the navigable river and channels leading thereto having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act), in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow :—

To the north-east,—a line drawn across the river Karnafoolee, from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south-west,—a line drawn across the said river, from the boundary pillar at the mouth of the Gowaldanga nulla to the boundary pillar on the opposite bank at the northernmost point of Luckea Char.

These limits include so much of the river Karnafoolee and the shores thereof as lies within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow :—

To the north-east,—the Port of Chittagong as above defined.

To the south-west,—the mouth of the river Karnafoolee within the outer buoys.

All parts of the river Karnafoolee between the said limits and below high-water mark at spring tides are subject to the said Act.

Port dues shall be levied at the following rates, once in 60 days, in the Port of Chittagong :—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

PORT RULES.

The following revised Port Rules are hereby promulgated for general information and guidance :—

Rule I.—Every vessel on arrival within the port shall take up such berth as may be appointed for it by the Conservator, from which it shall not be removed (except in case of emergency) without the sanction of the Conservator, and it shall change its berth when required by the same authority to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging in the davits as soon as she has moored, and shall so retain them unless otherwise authorized by the Conservator.

Rule V.—Every vessel entering the port, between the 15th day of May and 15th day of November, shall send down her top-gallant masts and yards.

Rule VI.—No ballast shall be discharged either from shipboard or be landed from boats, within the port and its approaches, without the previous sanction of the Conservator, who may appoint ballast guards to supervise the work.

Rule VII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule VIII.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light, visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Rule IX.—All coasting vessels, cargo-boats, bhurs, and budgerows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Rule X.—Except in cases of emergency, no vessel shall be moored or unmoored and no hawsers and warps shall be left out between sunset and daybreak.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 7th July 1879.—It is hereby notified that, under the authority vested in him by the last clause of Section 76 of the Sea Customs Act VIII of 1878, the Lieutenant-Governor suspends the operation of that section in the Port of Calcutta so far as it relates to the issue of boat-notes for export cargo.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 30th June 1879.—The following rules for the grant of leases for tea cultivation in the district of the Chittagong Hill Tracts have been sanctioned by the Lieutenant-Governor and are published for general information :—

RULES FOR THE GRANT OF LEASES FOR TEA CULTIVATION IN THE DISTRICT OF THE CHITTAGONG HILL TRACTS.

1. The lands that are generally available under these rules in the district of the Chittagong Hill Tracts lie within the following boundaries :—

On the North.—The Fenny River.
On the West.—The Regulation District of Chittagong.
On the South.—The province of Arrakan.
On the East.—The frontier line notified at page 1168 of the *Calcutta Gazette* of the 20th September 1876.

2. The following lands will not ordinarily be available under these rules :—

(*a*)—Lands comprised within the boundaries of the Myorie, Kaptai, Rainkheong, Sungoo, and Matamore protected forest reserves, or any reserves which may be taken up in the future by the Forest Department, and such other lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.

(*b*)—Lands not included in the above category, but which now bear *Jarool*, *Gurjan*, *Gambar*, or other valuable trees in compact blocks or patches, or on which valuable sunn khollas are situated.

(*c*)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as render it impolitic or unadvisable to grant such lands to any other person or persons for the purpose of tea cultivation.

(*d*)—Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed, or shall be kept in repair, from public funds, and that it be borne on the list of the district roads of the district.

(*e*)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

3. Every person, company, or association, desirous of obtaining a grant of land under these rules, must, in person or by a duly authorized agent, present an application, on plain paper, to the Deputy Commissioner of the District of Chittagong Hill Tracts.

4. The application must specify—

(*a*)—The name or names and address or addresses of the applicant or applicants, and of his or their authorized agent if any.

(*b*)—The area, situation and boundaries of the land applied for as far as they can be ascertained without a detailed survey.

(*c*)—The particulars, if any, which may appear to the applicant to bring any part of the land applied for within the exceptions mentioned in Rule 2. The application must also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for must be compact and capable of being enclosed in a ring fence ; and if any part of the land touches on a public road or navigable river, the length of such road or river frontage must not exceed one-half the breadth of the lot applied for.

6. Not more than 800 acres will ordinarily be granted to any one applicant, company, or association ; and when more than 800 acres are applied for, the applicant must set forth specially the grounds for such application, and give *primâ facie* guarantees that he possesses the requisite capital for working such larger area. All applications for more than 800 acres will be forwarded by the Deputy Commissioner to the Commissioner, who, if he desires to recommend compliance therewith, will forward them to the Board of Revenue who will take the orders of Government upon each case.

7. On receipt of an application for any area not exceeding 800 acres, the Deputy Commissioner must satisfy himself, as far as lies in his power, that the requirements of the rules have been complied with. If he considers that the application should be rejected, he will record an order to that effect, giving his reasons for such rejection. An appeal will lie from such order of rejection to the Commissioner of the division, if preferred within thirty days from the date of the order. If the Deputy Commissioner considers that an application for such area as it is within his power to grant should be entertained, or in the case of application for areas over 800 acres, when the orders of Government accepting the application have been received, the applicant or his agent will be required to deposit the cost of survey and demarcation to be made as hereinafter provided. The amount to be so deposited must be calculated at one rupee per acre of the total area applied for ; if the area is found to be greater, the sum of one rupee per acre must be paid on account of such excess area before a preliminary lease is granted. Payments under this rule do not cover the cost of erecting permanent boundary marks under Rule 20.

8. On receipt of the sum payable under the preceding rule, and of an agreement signed by the applicant, or by his authorized agent, to pay such further sum as may be required for the purposes abovementioned, the Deputy Commissioner will record an order appointing a proper officer for the purpose of making full and detailed enquiries into its condition and circumstances.

9. The general object of such enquiry shall be to ascertain whether or not the land applied for can be granted under the rules in force; but the Deputy Commissioner may instruct the officer making the enquiry to furnish him with such other specific and detailed information as may seem to him to be necessary.

10. On completion of this enquiry, the officer making it will record the result thereof, and submit a report for the orders of the Deputy Commissioner. If the Deputy Commissioner, after considering the report and after calling for such explanations, oral or written, as he may deem necessary, shall be of opinion that the land applied for cannot be granted under the rules, and should not therefore be surveyed, he will record an order to that effect. An appeal will lie from such order to the Commissioner of the division, if preferred within thirty days from the date of the order.

11. If the Deputy Commissioner decides that the land applied for can be granted under the rules and should therefore be surveyed, he will record an order to that effect.

12. If the Deputy Commissioner finds the land, or any part of it, in the occupation of any person or persons, or of any village community, he will submit a full report of the circumstances for the orders of the Commissioner, stating in detail how he proposes to deal with such prior occupants; and if it is proposed to remove them, the compensation, if any, which the applicant undertakes to pay to such persons. The Commissioner will report his orders in all such cases for the information of Government.

13. If any claim or objection be preferred under Act XXIII of 1863, the Deputy Commissioner will proceed to dispose of the same in accordance with the provisions of that Act.

14. The officer who made the enquiry provided for by Rules 8 to 10 will, on receipt of an order to that effect from the Deputy Commissioner, proceed to point out to the Surveyor the boundaries of the land applied for, and such prominent features in it as may be useful for the purposes of the survey, and which should, in his opinion, be entered in the preliminary lease as hereinafter provided. The boundaries and other features abovementioned should be clearly marked and defined by the officer in presence of the Surveyor, and the latter should be furnished with a list of them signed by the said officer.

15. The Surveyor will then proceed to make the survey and put up such temporary boundary marks as are necessary for that purpose. He must prepare a map showing—

(*a*)—All natural features of the country lying within the boundaries as fixed by the officer who made the enquiry under the Rules 8 to 10,—*e.g.*, bheels streams, forest clumps, &c.

(*b*)—Such features of the country lying outside the boundary of the land to be surveyed as may serve to identify the latter and connect it with the revenue survey or other existing map.

The Surveyor is bound to bring to the notice of the Deputy Commissioner any fact which may come to his knowledge in the course of the survey, rendering it advisable that the land he is surveying should not be granted under these rules.

16. The map should ordinarily be on a scale of 16 inches to the mile. If possible the Surveyor's field-book should be copied at the back of it; if not, a copy of the field-book should be attached to, or accompany, the map. If the map be made originally in the vernacular, the Deputy Commissioner will cause it to be translated into English.

17. On the map being completed, it must be checked by an officer appointed by the Deputy Commissioner. If found to be incorrect, it will be amended by the Surveyor in conjunction with the officer abovementioned; if found to be correct, it will be laid before the Deputy Commissioner with the report of the officer who made the preliminary enquiry under Rules 8 to 10, and with all other papers connected with the case.

18. The Deputy Commissioner will then proceed to consider the application. A date for the purpose must be previously fixed by him and due notice of it given to the applicant, or to his authorized agent.

19. The Deputy Commissioner shall have power to reject an application at any stage of the proceedings under the rules if he sees reason to do so, refunding in such case to the applicant the deposit made by him on account of survey, or the balance thereof in the case of any portion of it having been expended in survey. He is authorized to reject an application when he does not consider that there is a *bonâ fide* intention on the part of the applicant to cultivate in tea the land applied for, or when it appears desirable to reserve the land for cultivation other than tea, or to preserve any forest standing on it. An appeal against every such order of rejection shall lie to the Commissioner of the division if preferred within thirty days of the date of the order.

20. If the Deputy Commissioner grants the application, he will without delay grant the applicant a lease in Form A of the appendix, and call upon him to execute a counterpart thereof. He will also direct him to mark out the land leased by a continuous trench, or in such other manner as the Deputy Commissioner may direct. Within three months of the grant of such lease, the lessee must, on pain of forfeiture of all rights in the land leased, mark out the land as above directed, and must further erect, at his own expense, such permanent

boundary marks as the Deputy Commissioner may direct. On the expiry of the three months the Surveyor must test the correctness of the boundary line and permanent marks, and report the result to the Deputy Commissioner, at the same time pointing out to the lessee or his representative, by written notice, any correction that may be required. If the corrections indicated are not made by the lessee or his representative within thirty days of the receipt of such notice, all rights in the land shall be liable to forfeiture to Government.

21. Whenever after receipt of an application as provided for in Rule 3, and after making such inquiries as he may deem necessary, the Deputy Commissioner shall be of opinion that there is no *primâ facie* objection whatever to the grant, under the rules, of the land applied for, he may put the applicant in preliminary and provisional possession of an area, not exceeding one-eighth of the estimated area of the land applied for, with the object of enabling the applicant to make preparations for commencing cultivation and getting the land in order. Provided that the applicant before obtaining such preliminary possession, shall have erected such boundary marks as the Deputy Commissioner may direct, and that the amount of all estimated charges incurred in connection with such preliminary occupation shall have been deposited by the applicant.

22. The order for, and conditions of, such preliminary occupation shall be in Form B in the appendix, and shall be addressed to the applicant. A copy of this order shall be signed by him as an acknowledgment of occupation, and as signifying his intention to abide by the same, and deposited with the Deputy Commissioner.

23. Grantees are not permitted to club or amalgamate their grants otherwise than by transfers duly registered, as provided for in the preliminary lease. Any unauthorized amalgamation will subject the holders of the grants in question to forfeiture of all right in the lands so amalgamated.

APPENDIX A.

Form of preliminary lease of land in *granted by the Deputy Commissioner of* *to* *of*

1. THE lands covered by this lease are situated with the boundaries shown by the red lines in map No. , dated , and attached to the lease.

The lands may be described as being bounded as follows:—

North—
East—
South—
West—

Their area is more or less acres, and they are situated in the thanna mentioned in the margin.

2. The rights conveyed by the lease are heritable and also transferable, provided (*a*) that the entire grant and not a portion of it be transferred; (*b*) that the clearance conditions are duly observed by the transferer and transferee respectively; (*c*) that the transfer is registered in the Deputy Commissioner's office within twenty-one days of the date thereof; and (*d*) that a registration fee of four annas per acre be paid to the Deputy Commissioner on the occasion of every such transfer. If any transfer of the rights conveyed by this lease is made otherwise than in accordance with the foregoing provisions, all rights in the land shall be liable to be forfeited to Government. After the expiry of this preliminary lease no right shall be claimed otherwise than expressly provided for hereinafter.

3. The rent to be paid shall be as follows:—

Year of entry (*i.e.* from actual date of entry to 31st March following)	*Nil.*	
1st full year (from 1st April following date of entry) ...	*Nil.*	
2nd year	3	annas per acre.
3rd year	6	„ „
4th year	9	„ „
5th year	12	„ „

The rent shall be paid to the Deputy Commissioner's (or to the Assistant Commissioner of Sungoo or Cox's Bazar sub-divisional) office in the following instalments:—

1st September ... one-half. | 1st March ... one-half.

4. The lessee shall either himself reside on or near to the lands covered by this lease, or he shall appoint a Manager or Agent who shall reside on or near to such lands, and who shall be provided with a full legal power to act on behalf of the principal in all matters arising out of, or concerning, the lands covered by the lease.

5. The lessee binds himself to conform to all the provisions of the rules for the grant of tea leases under which this lease is granted.

6. Five per cent. of the area of the lands shall be cleared by the end of the second year after the grant of this lease, and ten per cent. by the end of the third year.

7. Any land covered by the lease, which may at any time be required for a public purpose, may be taken up by Government, free of cost, on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of

any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provisions of the law in force for the time being for the acquisition of land for public purposes.

8. All rights to minerals or quarries of all kinds are reserved to Government.

9. No right of fishery and no right to dam up or otherwise obstruct the passage of any stream is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

10. The right of Government to levy such tolls as it may think proper on the forest produce exported from the land hereby leased either by land or water is reserved.

11. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made, provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection the Deputy Commissioner finds that 15 per cent. of the total area held under the lease has been brought under cultivation by means of good husbandry and actually bears tea plants, the lessee shall be entitled to the renewal of the lease for a further period of twenty years, and to renewals for similar periods in perpetuity, subject to the following conditions:—

(*a*)—Subject to any general or special orders of Government, the rent to be paid shall be fixed by the Commissioner, on the report of the Deputy Commissioner, on each occasion of renewal, but shall not exceed the rate of rent per acre paid in the neighbourhood at the time of renewal for the highest classes of lands under cultivation. If at any future time the administration of the tracts under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the Legislature, to impose such special taxation as may be deemed necessary, either by raising the rent or in some other mode. But under no other circumstances will the rent, which has now been fixed for a term of years on the principle above enunciated, be raised during the currency of such term;

(*b*)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferee to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased;

(*c*)—In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

12. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

13. If before the expiration of this preliminary lease no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements shall have been made by the Deputy Commissioner.

APPENDIX B.

To , *son of* *resident of*
applicant.

With reference to your application to enter into an agreement in regard to the land mentioned below, for the purpose of cultivating tea, desiring immediately to enter upon occupation of some part of the land in question for the purpose of making preparations for, and for commencing such cultivation, I hereby authorize you to use for that purpose any lands lying within (here specify boundaries) and not exceeding 100 acres in all.

In the event of a lease being hereafter granted, the date of entry referred to in such lease shall be held to be not the date of this order, but the date of possession being given under such lease. In case of a lease being refused, no claim to compensation shall lie against the Government for any outlay incurred by you on the strength of this order. No rent shall be payable for land occupied during the currency of this order, the terms whereof shall expire on the 31st March next.

Occupation under this order, or after its expiry, without express conditions to the contrary, shall never be held to constitute any tenure other than a tenancy-at-will from year to year. You shall keep the boundary line and marks in repair and clear of jungle.

Deputy Commissioner.

I AGREE to the above conditions.

The 30th June 1879.—With the sanction of His Excellency the Governor-General in Council, it is hereby notified, under the provisions of section 2, Bengal Eastern Frontier Regulation I of 1873 (a Regulation for the peace and government of certain districts on the Eastern Frontier of Bengal), that the line described below shall be "the inner line" of the Chittagong Hill Tracts:—

This line of boundary commences at the hill station marked S, south of Belting Sib 2234, on the Jampoi range of hills forming the Hill Tipperah eastern frontier; it then runs along the whole course of the "Tulenpui" or "Sujjuk" river to its junction with the Kurnafuli river, a little north of Demagiri; thence it continues eastwards along this stream up to the junction of the "Tui Chong" river, after which it follows the whole course of this river to a point immediately to the south-east of the hill station of the Ohipum No. 5; then turning westwards, crosses the Ohipum range of hills, and joins the Thega Khall at a point midway

between the hill stations of Saichal, Nos. 2 and 3, after which it follows the course of the Thega Khall river to its source; then again turns south-westwards and follows the water-shed of the Weybong range of hills, until it meets the southern hill station of Keokradong on the south-eastern boundary of the Chittagong Hill Tracts, following the water-shed until it meets the frontier of that portion of the Arracan Hill Tracts in which order and regularity are maintained.

2. It is further notified, under the provisions of section 2 of the said Regulation, that all British subjects, except the Lushais of Thanglowa and Sylu clans and the members of the frontier police while on active duty, are strictly prohibited from going beyond the inner line without a pass under the hand and seal of the Deputy Commissioner of the Chittagong Hill Tracts, or of such other officer as he may authorize to grant such pass.

3. The following form of pass is prescribed under section 4 of the said Regulation :—

This pass is granted to , son of resident of . It authorizes him to go beyond the inner line of the Chittagong Hill Tracts, and will remain in force from to .

The holder of this pass shall not collect any forest produce or tap India-rubber or kill any elephant whilst within the Lushai country.

He shall produce this pass whenever called on to do so by any officer or private of the Frontier Police force in charge of a frontier post or on patrol duty.

4. A fee of one rupee shall be payable on each pass, and no pass shall remain in force for more than six calendar months.

COMMUNICATIONS.

Dated the 18th June 1879.

No. 150.—*Notification.*—In supersession of the notifications noted on the margin, it is hereby notified, under section 2 of the Canals Act (V of 1864, B.L.C.), that the provisions of the said Act shall apply to the following navigable rivers from the 1st September 1879:—

No. 147, dated the 7th April 1868.
Nos. 185 and 186, both dated the 22nd May 1876.

(1.) The river Bhagiruthee—throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

Under section 6 of the Canals Act, the Lieutenant-Governor directs that for the collection of tolls, stations shall be established on and after the 1st September 1879 at Surrupgunge, in the Nuddea district, at the confluence of the Jelinghee and Bhagiruthee rivers; at Jungypore, in the Moorshedabad district, on the Bhagiruthee river; and at Kissengunge, in the Nuddea district, on the Matabhanga river.

Toll shall be collected at Surrupgunge in the Nuddea district on—

(1.) Traffic passing up or down the Jelinghee river.

(2.) Traffic passing up the Bhagiruthee river.

(3.) Traffic passing down the Bhagiruthee river for which a pass is not produced shewing that the full amount of toll has already been paid at Jungypore.

At Kissengunge, in the Nuddea district, on—

(1.) Traffic passing up or down the Matabhanga river.

At Jungypore, in the Moorshedabad district, on—

(1.) Traffic passing up the Bhagiruthee for which a pass is not produced shewing that the full amount of toll has already been paid at Surrupgunge.

(2.) Traffic passing down the Bhagiruthee.

The following shall be the limits of the different toll stations:—

(1.) *Surrupgunge Station, Bhagiruthee River.*—On the north a line drawn across the river from the point at which the boundary of the Nuddea Municipality meets the river. On the south a line drawn across the river from the southernmost point of the village of Nutun Bazar.

(2.) *Jelinghee River.*—On the north-east a line drawn across the river Jelinghee from the eastern boundary of the toll office compound. On the south the same as the southern limit of the Bhagiruthee.

(3.) *Kissengunge Station.*—On the north a line drawn across the river Matabhanga from the Mothurapore point. On the west a line drawn across the river from Joogiparah Ghât near the village of Shoneghatta. On the south-east a line drawn across the entrance of the river Echamutty.

(4.) *Jungypore Station.*—On the north a line drawn across the river at the point where the Balghatta nullah runs into the Bhagiruthee, and on the south a line drawn across the river from the lower Thakurbari Ghât to a point about 500 yards below the toll office.

Provided that in the case of the Surrupgunge toll station it shall be competent to the Toll Collector, by a written order to be recorded in his office, to remove the southern limits of that toll station during the dry season to any convenient place nearer to the toll office than the limit fixed above. And provided also that when the river rises it shall be competent to the Toll Collector of Jungypore, by a written order recorded in his office, to remove the northern limit of that toll station to a point not exceeding 300 yards below the sub-divisional office compound, and the southern limit to the south end of the village of Shahebgunge.

(5) At the limits of each toll station a chowkey boat shall be stationed for the purpose of collecting passes, &c., and preventing the evasion of tolls. Also, at the limits of each station a flag shall be hoisted on the land, for the purpose of indicating to boatmen the situation of such limits.

Two extra toll stations shall be established during the rains, one at the Balghatta nullah, and the other at the Kanoopur nullah, subordinate to the Jungypore toll station in the Moorshedabad district.

Under section 6 of the Canals Act, the Lieutenant-Governor has fixed the rates in the following Schedule A for the levy of toll at the abovementioned places on the said rivers on and after the 1st September 1879:—

DRAFT.

The following draft rules are published for information under the provisions of section 11 of the "Canals Act, 1864" (No. V, B.L.C.), and have reference to the undermentioned navigable channels, viz.:—

(1.) The river Bhagiruthee throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

DRAFT RULES

1. Except as may be herein provided, every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every laden vessel, excepting steamers and flats, shall for the purpose of the "Canals Act, 1864," and of these rules be determined by the following measurements:—

(*a.*) The product of half the length of the vessel from stem to stern, measured along the waterline, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c.*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds are to be charged.

3. The tonnage of every empty vessel, excepting steamers and flats, shall for the purpose of the "Canals Act of 1864" and of these rules be determined, and tolls shall be levied thereon, under the same rules and by the same system of measurement as above laid down for laden vessels, with the following exception, viz.—

The measurement of the depth of an empty vessel shall be made from the gunwale to the bottom of the vessel, instead of being taken from the waterline, as in the case of a laden vessel.

4. The measurement of steamers and flats shall be taken to be as ascertained by the Master Attendant's Department at Calcutta for the payment by such vessels of the port dues under the Merchant Seamen's Act, subject to the following deductions: —

(*a.*) In the case of steamers, 35 per cent. of the tonnage of the hull, excluding the cabin accommodation altogether, will be allowed as the tonnage of the engine-room, coal-bunkers, &c., and toll will be levied on the remaining 65 per cent. of the tonnage.

(*b.*) In the case of flats, 10 per cent. of the tonnage will be allowed for accommodation, &c., and tolls will be levied on the remaining 90 per cent. of tonnage.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea rivers, as well as boats used by police officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to police officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

6. If a vessel, on which toll has been duly paid, be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day. Provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo-vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the Chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nuddea rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

10. Immediately after entering the Chowkey limits, the manjee of every cargo-vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring Mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix EI.), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix EII.), which shall entitle him to pass the Chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the Mohurir in charge of the Chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the Mohurir a ticket in the form annexed (Appendix EIII), which shall entitle such vessel to pass Chowkey limits without further charge.

14. Passenger boats having on board cargo other than that is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip, shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the Chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th; and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer, and 8 A.M. and 5 P.M. in winter.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such applications shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

21. Any officer of Government or other person claiming exemption under rule 5 shall be supplied by the measuring Mohurir with a certificate in the form annexed (Appendix EIV), and shall fill up and return such form to the Mohurir, who shall thereupon grant a passenger ticket in form (EIII). In case of doubt as to the good faith of any claim to exemption from toll, the measuring Mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timbers exceeding in all twenty in number, shall pass into or through any of the Nuddea rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

24. For every vessel or raft, or fleet of vessels or of rafts, and for every timber which shall pass into, or out of, or through any of the Nuddea rivers in violation of rules 22 and 23, the owner thereof or the person in charge shall, on conviction by a Magistrate under section 18 of the "Canals Act, 1864," be punishable by a fine not exceeding Rs. 10 for each vessel, raft, or timber in excess of the number authorized, besides being subjected to the payment of the prescribed toll on the same. The payment of the toll shall, if necessary, be enforced in the manner described in section 9 of the "Canals Act, 1864."

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations, may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand; and on depositing such amount as the Board of Revenue may determine, they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorized to receive payment thereof.

27. Refusal to pay the toll on steamers or flats, except on those which are furnished with a certificate under rule 25, or evasion, or attempt at evasion, of such payment, will be dealt with under sections 9 and 10 of the "Canals Act, 1864;" except that, instead of the vessel being seized and detained as directed in section 9, any separate cargo or stores, the sale-proceeds of which will be sufficient to defray the amount of toll that should be paid, and which can, without inconvenience or danger to itself or to the rest of the cargo, be taken out of the vessel, shall be so taken out and detained, and subsequent proceedings shall be taken thereon as directed in section 9.

28. Any person who may without just cause refuse to pay any toll demanded of him by the officers of the toll establishment, or who may evade, or attempt to evade, any such toll, or who may be a party to the transfer, or attempted transfer, of any ticket or pass, or who may without reasonable cause neglect or refuse to place his vessel in any situation in which he may be required by the Toll Collector to place it, or who may without reasonable cause neglect or refuse to remove his vessel from the measuring ghât after measurement, or unload cargo without the permission of the Toll Collector, shall be punishable under section 10 of Act V of 1864 (B.L.C.), on conviction before a Magistrate, with a fine which may amount to Rs. 50, or with simple imprisonment in lieu of fine which may extend to one month.

29. Any person who shall without sufficient excuse neglect or refuse to produce when called upon by the Toll Officers, or by any other person whose duty it may be to check the collection of tolls on the rivers, any ticket or pass which he may be required by these rules to produce, shall be liable to pay tolls, whether he shall or shall not have previously paid them, and shall also be liable to a fine under section 10 of the Canals Act which may amount to Rs. 50.

30. Complaints against the conduct of the subordinate officers and enquiries for information must be preferred to the Toll Collector.

DRAFT RULES PROPOSED UNDER ACT III (B. C.) OF 1876.

Dated the 26th May 1879.

No. 145.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 1154 to 1159, Part I, of the *Calcutta Gazette* of the 23rd October 1878.

D. B. HORN,
for Joint-Secy. to the Govt. of Bengal,
P. W. Dept., Irrign. Branch.

RULES UNDER ACT III (B. C.) OF 1876.

1. The Collector, before awarding compensation under section 16, or making a reference under section 17, of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur.

3. Water shall not ordinarily be granted where the length of the village channel, from its head to its point of contact with the village boundary, exceeds two (2) miles.

4. Water for irrigation shall not be supplied, except through a village channel so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*)—the water will pass without wastage;

(*b*)—the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation will not be obstructed.

5. Persons desirous (i) of constructing a village channel, (ii) of registering a channel already constructed, (iii) of taking water from a village channel, or (iv) of taking water from any outlet provided by Government, shall prefer a written application to the Divisional Canal Officer, or to some officer duly authorised by him to receive such applications. In the first two cases (i) and (ii), if the application be received by an officer subordinate to the Divisional Canal Officer, it shall be forwarded to him for orders.

6. An application under rule 5 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions :—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-divisional Canal Officer.

(*b*)—That the Sub-divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called "Suttadar"), known or ascertained to be a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of a Suttadar, the Sub-divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

(*d*)—That the Collector shall appoint a headman (to be called Tehsildar) whose sole duty will be to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the village channel.

(*e*)—That the Tehsildar shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under rule 11.

(*f*)—That previous to water being taken for any field, a written application shall be made to the Sub-divisional Canal Officer or any subordinate authorized by the Divisional Canal Officer to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B) from competent authority.

(*g*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates that there is likely to be difficulty in the realization of the water-rates, he shall intimate the same to the Collector, in whose option it shall be to require payment of water-rates in advance, and the Collector shall inform the Divisional Canal Officer of any villages where he considers that water should not be granted without previous payment.

(*h*)—That any other cultivators in the same village, able and willing to irrigate their lands from the village channel, may, subject to the approval of the Divisional Canal Officer, be admitted as shareholders in it, on paying their proportionate share of the first cost and maintenance thereof, to be determined by the amount of irrigable land held by them.

(*i*)—That all alterations in the number of shareholders or distribution of shares shall be reported to the Sub-divisional Canal Officer for the sanction of the Divisional Canal Officer.

7. The Divisional Canal Officer is empowered to pay to the Suttadar appointed under rule 8 the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

8. The allowance to the Suttadar for duties connected with that village channel, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be one-half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

9. The allowance to the Tehsildar of a village channel for collecting the water-rates shall be one-half anna in the rupee on the amount actually paid in by him. If the Tehsildar shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be within the discretion of the Collector to pay him the allowance on the whole or on any part of such arrears.

10. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

11. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

12. The Sub-divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that the village channel is not maintained in proper repair. In the case of any such closure of a registered channel, immediate report thereof, with any necessary explanation, shall be made to the Divisional Canal Officer.

13. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the Suttadars of village channels. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Canal Officer to stop any supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates, under section 76 (*b*), shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person or through their headman, to the nearest Sub-divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (*c*) the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follow:—

WATER-RATES.

Sone Canals.

Class.	NATURE OF CROP.	FLOW IRRIGATION PER			LIFT IRRIGATION PER			Per

NOTE.

1 Cottah ... ... = 1,361·25 s. feet.
1 Beegha ... ... = 27,225·00 „
1 Acre ... ... = 43,560·00 „

18. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

19. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

20. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The Suttadar will be held personally responsible for the due observance of this rule and of rules 19 to 23 and 24.

21. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

22. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

23. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated.

24. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The Suttadar to be held responsible for reporting such waste of water.

25. When the original crop sown in a field, irrigated by the canal water, fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

26. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

27. All water-rates shall become due on the dates noted on the "permits," as herein below stated, and shall be paid within one month of such dates:—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.—15th April.
Water-rate on summer crops, cheena, &c.—15th August.
Water-rate on bhadoi crops, early rice, Indian-corn, murwa, &c.—30th November.
Water-rate on annual and winter crops, sugarcane, aghani rice, jonar, &c.—31st January.

28. In the case of lands held in bhaoli, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the bhaoli rents, in the same proportion as the produce is divisible amongst them.

29. Collection of all water-rate shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

30. Objections to the demand addressed to the Collector shall, if remission be claimed on the score of short supply or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The collection of the demand shall not be suspended on account of any such objection.

31. Claims for remission referred by the Collector and admitted by the Divisional Canal Officer shall be reported by him for the sanction of the Superintending Canal Officer,

except in cases where remissions are made on account of excess areas having been charged for, or wrong name entered in the khatiauni.

32. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

33. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

34. In special cases not otherwise provided for by these rules, and in cases in which water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

35. If a cultivator is dissatisfied with the entries made against him in the khatiauni, whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the Suttadar of his watercourse, with the Divisional or Sub-divisional Canal Officer at least seven days prior to the cutting of the crop.

36. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

37 No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

38. The Ameen appointed to measure up the area irrigated in any village shall, before leaving it, make over the khusras to a Mohurir, who will then compile the khatiauni. A copy of the khatiauni will be taken by the Putwaree, who must, as a rule, make it himself; but if he cannot from any cause do so, the Mohurir must make it, and the Putwaree is to be held responsible that he gets a copy.

39. The copy of the khatiauni thus made shall be hung up in some conspicuous place in the village, and slips in the prescribed form (Appendix D), showing the amount he will have to pay, area irrigated, &c., shall be prepared by the Putwaree and given to each ryot.

40. The allowance to the Putwaree for the above work shall be one-quarter anna in the rupee on the collections, and shall be paid to him by the Collector on his being satisfied that the work has been properly done.

41. The measurements of each crop irrigated shall be made as soon as practicable, and every care should be taken to have the khatiauni hung up in the village at least fifteen days before the crop is cut, so that the ryot may make his complaints, if he have any, in good time.

42. In case of any subsequent alteration of the khatiauni, owing to correction of clerical errors, &c., such alteration shall be at once communicated to the Putwaree to enable him to correct the village copy and slips accordingly.

43. The Zilladar shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-divisional Canal Officer shall also check the Ameens' measurements as often as he possibly can. If it be found that any Ameen wilfully or frequently makes wrong measurements, he shall be punished by dismissal, and shall be declared incapable of obtaining further employment under Government.

ROYAL WARRANTS.

No. 606.—The following Royal Warrant is published for general information, in continuation of G. G. O. No. 961 of 1878 :—

Royal Warrant—Retirement of Combatant Officers of Cavalry and Infantry subject to Indian Retiring Regulations.

VICTORIA R.

Whereas we deem it expedient further to amend in certain respects the regulations which govern the retirement of combatant officers of our Cavalry and Infantry subject to Indian Retiring Regulations;

Our will and pleasure is that this our Warrant be established and obeyed in respect of all matters herein contained, and that it be construed, administered, and interpreted with our Warrants of the 1st May 1878 and 6th September 1878.

1. An officer who, having been transferred from our Indian Forces to one of the following regiments of our Cavalry and Infantry, viz.—

The 19th, 20th or 21st Hussars,

The 101st to the 109th Regiment inclusive,

shall have subsequently exchanged into another regiment, and who shall become ineligible for promotion under Articles 13, 14, or 19 of our Warrant of the 1st May 1878, or who shall be removed from his regiment to half pay under the provisions of Articles 127, 128, or 130 of our said Warrant, may be placed upon the half pay of the next substantive rank above that which he held in his regiment.

2. An officer who, having been transferred from our Indian Forces to one of the following regiments of our Cavalry and Infantry, viz.—

The 19th, 20th, or 21st Hussars,

The 101st to the 109th Regiment inclusive,

shall have subsequently exchanged into another regiment, and who, having become ineligible for further promotion, shall have retired from or been removed from his regiment on half pay, under the provisions of the foregoing article, may at any time retire from our Army on the pension laid down in Articles 1166*a*, 1167*a*, or 1169*a* of our Warrant of the 6th September 1878, surrendering thereby all claim to retired pension under Indian Retiring Regulations.

Given at our Court at Windsor this 29th day of April 1879, in the 42nd year of our reign.

By Her Majesty's Command,

FRED. STANLEY.

Secretary of State's Instructions on the foregoing Warrant.

1. An officer who exchanged, before or after the date of the foregoing Warrant, from one of the regiments specified therein, has become ineligible for the special half pay or pensions laid down in the Warrant of 6th September 1878 (Clause 165, Army Circulars, 1878,) for officers subject to Indian Retiring Regulations.

2. An officer who has so exchanged will, however, become eligible for the special half pay and pensions referred to in paragraph 1 when the contingencies contemplated by Articles 1 and 2 of the foregoing Warrant shall have occurred.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

6. The statement of the income and expenditure of the different institutions is defective in the same respect as that for the previous year, the Surgeon-General having been unable as yet to ascertain from the Medical Examiner the cost of European medicines and instruments supplied during the year to each hospital and dispensary. Excluding this item, and also the salaries of the medical officers attached to the Medical College Hospital, it appears that the total amount disbursed during the year was Rs. 3,65,497, against a corresponding expenditure of Rs. 4,83,973 in 1877, and this saving of more than a lakh of rupees in a single year was effected, notwithstanding that there was an increase of 3,849 or 15 per cent. in the number of in-door patients. Although the total cost of medical stores in each of the two years is not given in the report, the Surgeon-General states that he is certain that the expenditure on account of instruments and medicines was less during the past year than in previous years. The cost of European as well as of bazar medicines is given for the General, Mayo, and Police Hospitals, and the figures fully bear out Dr. Irving's statement. The actual cost of medicines for the General Hospital cannot, on account of the closing of the out-door dispensary, be usefully compared with the cost in 1877; but in the Mayo Hospital the expenditure for European and bazar medicines was Rs. 7,922 against Rs. 8,743 in 1877, while in the Police Hospital the expenditure was Rs. 1,067 against Rs. 2,194, although in each of these institutions the number of patients in 1878 exceeded the number in 1877. Turning to the items of expenditure for which complete figures are given, it appears that there was a reduction under every head. The cost of establishments was less by Rs. 6,225 than in 1877, but this decrease is partly accidental and will not occur again; the expenditure on bazar medicines was Rs. 9,189 against Rs. 10,395, and the outlay on buildings and repairs was Rs. 18,679 against Rs. 27,955 in the previous year. The principal heads, however, under which the large saving noticed above was effected were 'Miscellaneous charges' and 'Diet.' Under the former head there was a decrease in expenditure of Rs. 59,177, and under the latter of Rs. 42,593, notwithstanding that there was, as already stated, an increase of 15 per cent. in the number of in-door patients treated. In the Resolution recorded by the Lieutenant-Governor on the 25th January of the present year on the report of the Committee appointed to enquire into Medical Expenditure in Bengal, the maximum limit for the diet of Europeans and natives, inclusive of extras and stimulants, was fixed at eight annas for the former and three and a half annas for the latter. The actual cost of diets during the past year in the different hospitals appears to show conclusively that these limits afford an ample margin for any extras that the medical officers may consider it necessary or even desirable to give. In the Medical College Hospital the average cost of each diet for Europeans was six annas, in the General Hospital seven annas and six pies, and in the Howrah Hospital nine annas and four pies. For natives it was in the Medical College three annas eight pies, in the General Hospital three annas five pies, in the Howrah Hospital one anna seven pies, in the Mayo Hospital two annas two pies, in the Campbell Hospital two annas six pies, and in the Police Hospital two annas ten pies. In the North Suburban Hospital and in the Alipore Dispensary the cost was one anna ten pies. Taking all the institutions together, the average cost of European diets was seven annas seven pies and of native diets two annas six pies.

7. Dr. Irving, in referring to the efforts that have been made during the past year under the Lieutenant-Governor's orders to put some check on the excessive expenditure of former years, has thought proper to designate the year as one of "rigid economy" during which "the screw was continuously applied for the purpose of reducing expenditure in all possible ways." Dr. Irving, however, will no doubt on reflection admit that these loose and careless expressions do not in any way represent the real policy of Government, which has been repeatedly explained. The policy of Government has been to secure to the sick under treatment proper food, comforts, and medicines, and to check the malpractices which are now admitted to have existed by all except those who were directly or indirectly responsible for the state of things under which, while the sick were deprived of the medicines and comforts ordered for them, the tax-payers of India were defrauded of large

sums of money. The policy of Government has been simply and solely directed against waste, and the results described in the report show how enormous the waste has been. That many persons must have suffered pecuniarily by the check on waste is obvious enough, and it is of course their interest to misrepresent as far as possible the action of Government, and to maintain an agitation in the hope of producing a return to the former state of things; and this last object they have systematically endeavoured to gain by the odious accusation that the sick in hospital were stinted in the medicines and diet necessary to their health. That such persons should act in this way was of course all along expected, but from responsible Government officers of position a more judicial analysis of facts may reasonably be expected. The Lieutenant-Governor trusts that Dr. Irving may not have intended that his words should convey the meaning which they obviously bear, and this seems the more probable, because the figures he himself gives support inferences the very reverse of those which would be naturally drawn from his remarks. The policy of Government, the Lieutenant-Governor is satisfied, was not by any one so misunderstood or perverted as Dr. Irving's words imply, nor is there, the Lieutenant-Governor believes, a single medical officer among those whose practice is thus impugned, who would admit that his patients were left without anything that could be really beneficial or useful to them. Dr. Irving is not without experience of these matters, and had he desired to make an impartial examination of the events of 1878 in the Campbell Hospital, he could not have disregarded the facts which he himself records elsewhere, and which prove the death-rate of the year to have a very favourable significance with regard to every point of management and expenditure. He could not have failed to perceive that the epidemic of small-pox alone in 1878 added to the death-rate, when compared with that of 1877, a quantity which is more than double the general excess actually recorded; that the unprecedented mortality from fever which prevailed on all sides told with frightful effect on the classes resorting to the hospital, and that the high price of food increased the mortality from every form of sickness. He says further on of this very hospital that "anything like overcrowding must undoubtedly tend to increase a death-rate already excessive;" yet he makes no mention of the unexampled crowding of this sickly year when attempting to connect its death-rate with reduced expenditure. He ignores the fact that the increase of death-rate in the Campbell Hospital was a mere fraction of the increase which he himself records in every other Calcutta hospital where native paupers are received. In 1878 the increase in the mortality of the Campbell Hospital over that of 1877 was 5·38 per thousand of patients treated; in the Medical College Hospital it was 27·27; in the Mayo Hospital and its dependencies it was 18·34; at Howrah it was 80·08. In the two last institutions no change of practice occurred. The Howrah Hospital shares in the largest degree the disadvantages of Sealdah. It receives many moribund patients, but there is a counterpoise of many who are in good circumstances, while from Howrah small-pox patients are sent to Sealdah. Yet the death-rate was 8 per cent. over that of the previous year at Howrah, while at Sealdah one-half per cent. was the measure of the excess. At the Campbell Hospital in 1878 there died 253 per 1,000 of patients treated; in 1877, 248 per thousand; and in 1876, 250 per 1,000: but these two earlier years were years of good public health, and it is not fair to compare with them a year of exceptional ill-health, such as 1878. The year which could most fairly be compared with 1878 is the year 1875, which, though a year of better public health than 1878, was the most unhealthy year since the establishment of the hospital. In that year 7,782 patients were treated at a cost of Rs. 35,222 for diet and stimulants; in 1878, 11,001 were treated at a cost of only Rs. 23,876. In the year 1875, however, with a smaller number of patients and consequently less overcrowding, and an enormous expenditure per head of patients treated, the mortality was 280 per thousand; while in 1878, the year the diet economy is said to have had such mischievous effect, with great overcrowding and unprecedented general sickness, the death-rate was only 253 per thousand.

Had the mortality of 1878 at the Campbell Hospital been double that of 1877, instead of barely exceeding it, it cannot be doubted that a valid defence could have been found for it in the events of the year; yet the Surgeon-General intimates that the highly favourable state of things recorded in the

returns might have been better under a policy which, as shown by his own figures, produced higher death-rates in years which were otherwise favourable beyond comparison. Dr. Irving himself states the fact that in 1875, when the average cost per diet was 3 annas 11 pies, the death-rate was 28 per cent.; in 1876, when the diet cost 3 annas 9 pies, the death-rate was 25 per cent.; while in 1878, when the diet cost only 2 annas 6 pies, the death-rate was still 25 per cent., notwithstanding all the unfavourable circumstances of a year of exceptionally high prices and great sickness. The Lieutenant-Governor sees in the results of practice now recorded the strongest *primâ facie* reason to believe that the treatment of the sick during the past year at the Campbell Hospital can have left little to desire in their behalf. If Dr. Irving had considered this question in the joint interests of the State and the sick poor, as an administrative officer should have done, he must, the Lieutenant-Governor thinks, have seen evidence in the events of 1878 that the interests of both had been seriously neglected in former years; that the public had been made to pay enormously for medicines and for comforts which never reached the sick; and that the patients of the Campbell Hospital, while they have cost the State much less in 1878, have received more liberal and beneficial treatment than they ever received before. The view which the Lieutenant-Governor has endeavoured to enforce is that a dram of rum or a pound of rice actually consumed by the patients is far more efficacious than dozens of portwine or gallons of soup charged for by contractors, but never seen by the patients. It is no doubt the case that there are many hundreds of persons in the streets of Calcutta whose health might be improved, and indeed from whom disease might be averted, by "a liberal use of generous soups, milk, stimulants, and other kinds of food;" and the Lieutenant-Governor knows of no town in the world of which the same might not be said; but he is not aware that any Government in the world has recognized it as a part of its duty to raise taxes for the purpose of averting disease by a system of general liberal public diets. The mortality to which Dr. Irving alludes is to a great extent attributable, as he has elsewhere admitted, to the enormous number of moribunds sent to the pauper hospital in a state generally in which no diet in the world could help them. In the treatment of the sick the officers of the hospital have the fullest possible power to order any diet they consider actually necessary for the preservation of life.

8. The subscriptions to the various medical institutions amounted during the year to Rs. 25,134, against Rs. 35,075 in 1877 and Rs. 11,291 in 1876. While the subscriptions from Europeans fell from Rs. 31,609 to Rs. 11,134, those from natives rose from Rs. 3,465 to Rs. 14,000. Of the whole amount subscribed, Rs. 17,495 was received by the Mayo Hospital. The Mayo, the North Suburban Hospital, and the Alipore Dispensary, all invested surplus funds during the past year.

9. *Calcutta Hospital Nurses' Institution and Lady Canning Home.*—The scheme of out-nursing, which was the main object of the amalgamation of the two institutions, was successfully introduced during the past year, and many applications for out-nurses were received, even in anticipation of the formal opening of the out-nursing department. The institution has now a nurse in constant attendance on the sick in each ward of the Medical College and General Hospitals, and both the Principal of the Medical College and the Superintendent of the General Hospital have again recorded their testimony to the gradually increasing efficiency of their staff of nurses, their attention to duty and their kindness to the sick. A new building erected for the accommodation of the out-nurses and the nurses attached to the General Hospital was opened at the close of the year.

10. *Medical College Hospital.*—Exclusive of 546 house patients in the ophthalmic hospital, there were 4,602 in-door patients treated during the year, of whom 2,541 were Christians and 2,061 natives. The death-rate was 13·56 per cent., as compared with 10·83 in 1877 and 13·62 in 1876. Excluding moribund cases, the death-rate was 11·2 per cent. of the number treated. One hundred and eighty-four surgical operations, classified by the Principal as capital operations, were performed during the year or remained under treatment at the end of 1877, and of these only 22 died. The death-rate per cent. was 11·96, as compared with 17·03, 21·81, 22·72, 19·75 and 25·92 in the five preceding years. Adopting, however, the system of classification used by

the Surgeon-General in preparing his general statement of important operations performed in all the Calcutta medical institutions, it appears that the death-rates per cent. in the Medical College Hospital were 11·08 in 1876, 8·3 in 1877, and 4·7 in 1878, as compared with corresponding death-rates of 11·06, 8·4, and 7·09 in all the Calcutta hospitals in the same three years. These figures appear to the Lieutenant-Governor to show conclusively that the want of success in the treatment of surgical cases in former years was mainly due to causes other than the faulty construction of the building; the recent statistics when analysed entirely refute the conclusions that have been drawn from the returns of 1876 and previous years, and confirm the views recently adopted by Government as to the erroneous nature of the conclusions which had been drawn from the earlier surgical mortality, and as to the destructive character of the policy based upon them. The number of out-door patients who attended the dispensaries was higher even than in the previous year, there being 48,986 cases treated, against 47,506 in 1877. In the surgical dispensary 6,197 operations were performed as compared with 5,585, 3,617, 2,705, and 1,476 in the preceding four years. This steady rise, with a corresponding increase in the number of patients attending the surgical dispensary, is the best test of the increasing success and popularity of the institution. There were 5,964 new patients at the ophthalmic dispensary against 5,464 in 1877; and the average daily attendance was 83 42.

11. *General Hospital.*—The number of in-patients admitted during the year was 4,164, against an average for the previous ten years of 2,987. Out of the 4,280 patients treated, 66 per cent. were seamen, the proportion having increased steadily since 1873, when it was 45 per cent. The number of Europeans was 4,164 and of natives only 116, as compared with 4,613 and 531 respectively in 1877. There were 40 cases of cholera treated in the hospital against 73 in 1877, and an average of 76 for the previous ten years. The mortality was, however, 75 per cent. of the total number of cases, most of the patients having been admitted in an advanced state of collapse. Only three of the 40 cases were from the general European and Eurasian community, the remaining 37 cases being from the shipping. The financial returns of the hospital for the past year are very satisfactory. Under every head of expenditure except 'Taxes' there was a decrease much in excess of the decrease of 16 per cent. in the number of in-patients. Under the head of diet alone there was a decrease of Rs. 20,170 on the expenditure of 1877, and this was accompanied by a decrease in the mortality from 4·43 to 3·55 per cent. of those treated. The receipts from paying patients were Rs. 7,094, or more than twice the sum received in 1877. The contribution from the Hospital Port Dues Fund was Rs. 47,485, against Rs. 24,711 in 1877; but the amount received on this account was still less by Rs. 32,335 than the sum actually expended for the maintenance and treatment of seamen.

12. *Campbell Hospital.*—The number of admissions was 10,604, against 6,004 in 1877 and 6,279 in 1876; the daily average number sick was 414·08, against 343·16 and 365·41 in the two preceding years. Small-pox prevailed to some extent during the whole year and assumed an epidemic form from February to June. Of the 295 cases admitted, 262 were Natives and 33 Europeans and Eurasians; among the former there were 124 and among the latter 11 deaths. During the last three and a half months of the year the average daily number of inmates was 519·31, or more than fifty in excess of the number for which there is proper accommodation. A temporary shed was built last year for small-pox patients, and the Lieutenant-Governor hopes that it will soon be possible to permanently increase the accommodation of the hospital. The total expenditure for diet during 1878 was Rs. 22,575 for a daily average of 414 patients, against Rs. 20,306 for a daily average of only 343 in 1877, and this was notwithstanding that the price of rice was much higher last year than in 1877. The expenditure on extras and stimulants fell from Rs. 11,043 in 1877 to Rs. 1,302 in 1878. Extras and stimulants were, the Lieutenant-Governor understands, given in every case in which they were considered necessary, and the sole cause for the great decrease in expenditure was the careful supervision exercised by Dr. Mackenzie and the teachers. The figures given in the report show that the mortality among the patients has been in no way increased by the careful and economical administration of the

present Superintendent. Dr. Mackenzie's suggestions for filling up the tank to the south of the hospital, and for repairing the buildings, should, if necessary, be separately referred to Government.

13. *Mayo and Chandney Hospitals.*—In all 190,764 persons received treatment in these hospitals during the year, as compared with 190,030 in 1877, the number of in-door patients being the same in the two years—2,127. The death-rate among the in-door patients was 13·9 per cent., against 12·04 per cent. in 1877. In cholera cases the mortality in the Mayo Hospital was 44·5 per cent. of those treated, against a corresponding percentage of 55·5 in the Calcutta and Howrah Hospitals and the Alipore Dispensary. Dr. Cayley describes the treatment adopted during the past year, and one of its most noticeable features is that alcoholic stimulants are entirely withheld. Dr. Cayley rightly observes that, in a disease of so varying a nature as cholera, conclusions should not be hastily drawn; but after long experience and experiments with almost every method of treatment that has ever been suggested, he considers that some such treatment as that adopted last year is the most successful. Without entering into any discussion of the different modes of treatment that have from time to time been proposed, there can, the Lieutenant-Governor thinks, be no doubt that strong stimulants that may, in cases of disease, be beneficial to Europeans have often an injurious effect upon natives, who have never been accustomed to their use. This fact has, the Lieutenant-Governor believes, been too often ignored in India, and especially by young officers fresh from the medical schools in England.

14. *Howrah Hospital.*—The number of European and Eurasian in-door patients fell from 953 to 828, and of out-door patients from 4,998 to 4,100. On the other hand, the native in-door patients increased from 1,510 to 1,674, and out-door patients from 14,329 to 16,305. Both among Christians and natives the mortality was far higher than in the two preceding years, the percentage of deaths among the former being 5·56 of those treated, and among the latter 34·65, as compared with 3·99 and 25·23 respectively in 1877, and 3·46 and 21·8 in 1876. The very heavy mortality in both this and the Campbell Hospital is in a great measure due to the admission of a large number of destitute and neglected sick who seek admission only when recovery is impossible. Of the 580 deaths among the native in-door patients of the Howrah Hospital during the past year, 200 occurred within 48 hours after admission, and nearly two-thirds of the whole number of deaths were from diarrhœa and dysentery. The ixora, which was found in 1877 to be of great value in the treatment of cases of dysentery, was not much used during the past year owing to the difficulty of obtaining the root.

15. *Other Institutions.*—Notwithstanding a decrease of 250 in the strength of the police force, the admissions to the Police Hospital were 474 in excess of those of the previous year. The daily average sick fell, however, from 124·93 in 1877 to 111·40 in 1878, and the total number of deaths was only 31 against 63 in 1877 and 52 in 1876. These results are no doubt due to the cause assigned by Dr. Mackenzie, that most of the old and inefficient men were discharged during the year, their places being as far as possible filled up by younger and stronger recruits. Dr. Mackenzie's method of treatment of cholera cases, which was very successful during the past year, is described in the report and deserves the attention of medical officers; but the number of cases treated was too small to justify any definite conclusion being drawn. The scale of diets was raised above that of the previous year, but owing to increased supervision and economy, the average cost of each diet, including extras, fell from 3 annas 6 pies per day to 2 annas 10 pies. There was a slight falling off in the number of both the out-door and in-door patients of the North Suburban Hospital. Owing chiefly to the closing of the out-door department of the General Hospital, there was an increase of 5,337 in the cases treated at the Bhowanipore Dispensary, the average daily attendance having risen from 67·4 in 1877 to 115·8 in 1878. The same cause explains the increase in the number of out-door patients of the Alipore Dispensary from 4,188 in 1877 to 5,372 in 1878. There were 2,634 more patients treated last year at the Arratoon Apcar Dispensary in Garden Reach than in 1877. The report on the Calcutta Lock-hospitals has been separately considered.

ORDER.—Ordered that a copy of the Resolution and of the Report be submitted for the information of the Government of India in the Home, Revenue and Agricultural Department.

Ordered also that a copy of the Resolution be forwarded to the Surgeon-General for Bengal, for information and guidance.

Ordered also that a copy of the Resolution and of the Report be forwarded to the Chairman of the Corporation of the Town of Calcutta, and to the Commissioner of Police, Calcutta, for information.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The decrease in firewood is due to less import owing to rate for license being enhanced by the Port Canning Company and also to wood-cutters neglecting to cut wood, having plenty of food-grains in stock.

The decrease in hay is merely apparent, for the weight per wagon of this commodity were taken in 1878 as 40 maunds, it being the carrying capacity of the wagons; whereas in 1879 it is taken as 60 maunds, which is the actual weight of the hay that a wagon contains.

The decrease in wooloo and straw is due to above cause to some extent, but chiefly to increased rate of railway freight and less demand in selling market.

The increase in paddy is due to favourable market at selling stations and less purchase for the rice mills.

The increase in rice is due to the working of the rice mills on an extensive scale.

The increase in planks is due to demand at rice mills.

The increase in building materials is due to repairs of culverts, &c., at *abads*.

The increase in coal is due to reduced rate of freight on the Eastern Bengal Railway between Chitpore and the junction with the Calcutta and South-Eastern State Railway for the rice mills.

The decrease in machinery is due to repairs of the rice mills coming to a close.

The increase in gunny-bags and sundries is due to the demands in the rice mills being greater.

NOTIFICATION.

The 9th July 1879.—The Port of Chittagong and the navigable river and channels leading thereto having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act), in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow :—

To the north-east,—a line drawn across the river Karnafoolee, from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south-west,—a line drawn across the said river, from the boundary pillar at the mouth of the Gowaldanga nulla to the boundary pillar on the opposite bank at the northernmost point of Luckea Char.

These limits include so much of the river Karnafoolee and the shores thereof as lies within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow :—

To the north-east,—the Port of Chittagong as above defined.

To the south-west,—the mouth of the river Karnafoolee within the outer buoys.

All parts of the river Karnafoolee between the said limits and below high-water mark at spring tides are subject to the said Act.

Port dues shall be levied at the following rates, once in 60 days, in the Port of Chittagong :—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

PORT RULES.

The following revised Port Rules are hereby promulgated for general information and guidance :—

Rule I.—Every vessel on arrival within the port shall take up such berth as may be appointed for it by the Conservator, from which it shall not be removed (except in case of emergency) without the sanction of the Conservator, and it shall change its berth when required by the same authority to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging in the davits as soon as she has moored, and shall so retain them unless otherwise authorized by the Conservator.

Rule V.—Every vessel entering the port, between the 15th day of May and 15th day of November, shall send down her top-gallant masts and yards.

Rule VI.—No ballast shall be discharged either from shipboard or be landed from boats, within the port and its approaches, without the previous sanction of the Conservator, who may appoint ballast guards to supervise the work.

Rule VII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule VIII.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light, visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Rule IX.—All coasting vessels, cargo-boats, bhurs, and budgerows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Rule X.—Except in cases of emergency, no vessel shall be moored or unmoored and no hawsers and warps shall be left out between sunset and daybreak.

(1.) Traffic passing up the Bhagiruthee for which a pass s not produced showing that the full amount of toll has already been paid at Surrupgunge.

(2.) Traffic passing down the Bhagiruthee.

The following shall be the limits of the different toll stations:—

(1.) *Surrupgunge Station, Bhagiruthee River.*—On the north a line drawn across the river from the point at which the boundary of the Nuddea Municipality meets the river. On the south a line drawn across the river from the southernmost point of the village of Nutun Bazar.

(2.) *Jelinghee River.*—On the north-east a line drawn across the river Jelinghee from the eastern boundary of the toll office compound. On the south the same as the southern limit of the Bhagiruthee.

(3.) *Kissengunge Station.*—On the north a line drawn across the river Matabhanga from the Mothurapore point. On the west a line drawn across the river from Joogiparah Ghât near the village of Shoneghatta. On the south-east a line drawn across the entrance of the river Echamutty.

(4.) *Jungypore Station.*—On the north a line drawn across the river at the point where the Balghatta nullah runs into the Bhagiruthee, and on the south a line drawn across the river from the lower Thakurbari Ghât to a point about 500 yards below the toll office.

Provided that in the case of the Surrupgunge toll station it shall be competent to the Toll Collector, by a written order to be recorded in his office, to remove the southern limits of that toll station during the dry season to any convenient place nearer to the toll office than the limit fixed above. And provided also that when the river rises it shall be competent to the Toll Collector of Jungypore, by a written order recorded in his office, to remove the northern limit of that toll station to a point not exceeding 300 yards below the sub-divisional office compound, and the southern limit to the south end of the village of Shahebgunge.

(5.) At the limits of each toll station a chowkey boat shall be stationed for the purpose of collecting passes, &c., and preventing the evasion of tolls. Also, at the limits of each station a flag shall be hoisted on the land, for the purpose of indicating to boatmen the situation of such limits.

Two extra toll stations shall be established during the rains, one at the Balghatta nullah, and the other at the Kanoopur nullah, subordinate to the Jungypore toll station in the Moorshedabad district.

Under section 6 of the Canals Act, the Lieutenant-Governor has fixed the rates in the following Schedule A for the levy of toll at the abovementioned places on the said rivers on and after the 1st September 1879:—

DRAFT.

The following draft rules are published for information under the provisions of section 11 of the "Canals Act, 1864" (No. V, B.L.C.), and have reference to the undermentioned navigable channels, viz.:—

(1.) The river Bhagiruthee throughout its whole course from the Ganges to Nuddea, or to its junction with the Hooghly.

(2.) The river Hooghly—from Nuddea to its junction with the river Matabhanga.

(3.) The river Jelinghee—from the Ganges to Nuddea.

(4.) The river Bhoyrub—from the Ganges to the Jelinghee.

(5.) The river Matabhanga—from the Ganges to its junction with the Hooghly.

(6.) Such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagiruthee, the Bhoyrub, the Jelinghee, and the Matabhanga rivers respectively.

DRAFT RULES

1. Except as may be herein provided, every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every laden vessel, excepting steamers and flats, shall for the purpose of the "Canals Act, 1864," and of these rules be determined by the following measurements:—

(*a.*) The product of half the length of the vessel from stem to stern, measured along the waterline, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c.*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds are to be charged.

3. The tonnage of every empty vessel, excepting steamers and flats, shall for the purpose of the "Canals Act of 1864" and of these rules be determined, and tolls shall be levied thereon, under the same rules and by the same system of measurement as above laid down for laden vessels, with the following exception, viz.—

The measurement of the depth of an empty vessel shall be made from the gunwale to the bottom of the vessel, instead of being taken from the waterline, as in the case of a laden vessel.

4. The measurement of steamers and flats shall be taken to be as ascertained by the Master Attendant's Department at Calcutta for the payment by such vessels of the port dues under the Merchant Seamen's Act, subject to the following deductions: —

(*a.*) In the case of steamers, 35 per cent. of the tonnage of the hull, excluding the cabin accommodation altogether, will be allowed as the tonnage of the engine-room, coal-bunkers, &c., and toll will be levied on the remaining 65 per cent. of the tonnage.

(*b.*) In the case of flats, 10 per cent. of the tonnage will be allowed for accommodation, &c., and tolls will be levied on the remaining 90 per cent. of tonnage.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea rivers, as well as boats used by police officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to police officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

6. If a vessel, on which toll has been duly paid, be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day. Provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo-vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the Chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nuddea rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

10. Immediately after entering the Chowkey limits, the manjee of every cargo-vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring Mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix EI.), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix EII.), which shall entitle him to pass the Chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the Mohurir in charge of the Chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the Mohurir a ticket in the form annexed (Appendix EIII), which shall entitle such vessel to pass Chowkey limits without further charge.

14. Passenger boats having on board cargo other than that is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip, shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the Chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th; and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer, and 8 A.M. and 5 P.M. in winter.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such applications shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

21. Any officer of Government or other person claiming exemption under rule 5 shall be supplied by the measuring Mohurir with a certificate in the form annexed (Appendix EIV), and shall fill up and return such form to the Mohurir, who shall thereupon grant a passenger ticket in form (EIII). In case of doubt as to the good faith of any claim to exemption from toll, the measuring Mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timbers exceeding in all twenty in number, shall pass into or through any of the Nuddea rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

24. For every vessel or raft, or fleet of vessels or of rafts, and for every timber which shall pass into, or out of, or through any of the Nuddea rivers in violation of rules 22 and 23, the owner thereof or the person in charge shall, on conviction by a Magistrate under section 18 of the "Canals Act, 1864," be punishable by a fine not exceeding Rs. 10 for each vessel, raft, or timber in excess of the number authorized, besides being subjected to the payment of the prescribed toll on the same. The payment of the toll shall, if necessary, be enforced in the manner described in section 9 of the "Canals Act, 1864."

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations, may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand; and on depositing such amount as the Board of Revenue may determine, they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorized to receive payment thereof.

27. Refusal to pay the toll on steamers or flats, except on those which are furnished with a certificate under rule 25, or evasion, or attempt at evasion, of such payment, will be dealt with under sections 9 and 10 of the "Canals Act, 1864;" except that, instead of the vessel being seized and detained as directed in section 9, any separate cargo or stores, the sale-proceeds of which will be sufficient to defray the amount of toll that should be paid, and which can, without inconvenience or danger to itself or to the rest of the cargo, be taken out of the vessel, shall be so taken out and detained, and subsequent proceedings shall be taken thereon as directed in section 9.

28. Any person who may without just cause refuse to pay any toll demanded of him by the officers of the toll establishment, or who may evade, or attempt to evade, any such toll, or who may be a party to the transfer, or attempted transfer, of any ticket or pass, or who may without reasonable cause neglect or refuse to place his vessel in any situation in which he may be required by the Toll Collector to place it, or who may without reasonable cause neglect or refuse to remove his vessel from the measuring ghât after measurement, or unload cargo without the permission of the Toll Collector, shall be punishable under section 10 of Act V of 1864 (B.L.C.), on conviction before a Magistrate, with a fine which may amount to Rs. 50, or with simple imprisonment in lieu of fine which may extend to one month.

29. Any person who shall without sufficient excuse neglect or refuse to produce when called upon by the Toll Officers, or by any other person whose duty it may be to check the collection of tolls on the rivers, any ticket or pass which he may be required by these rules to produce, shall be liable to pay tolls, whether he shall or shall not have previously paid them, and shall also be liable to a fine under section 10 of the Canals Act which may amount to Rs. 50.

30. Complaints against the conduct of the subordinate officers and enquiries for information must be preferred to the Toll Collector.

[Eighth Publication.]

DRAFT RULES PROPOSED UNDER ACT III (B. C.) OF 1876.

Dated the 26th May 1879.

No. 145.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 1154 to 1159, Part I, of the *Calcutta Gazette* of the 23rd October 1878.

D. B. HORN,
for Joint-Secy. to the Govt. of Bengal,
P. W. Dept., Irrign. Branch.

RULES UNDER ACT III (B. C.) OF 1876.

1. The Collector, before awarding compensation under section 16, or making a reference under section 17, of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur.

3. Water shall not ordinarily be granted where the length of the village channel, from its head to its point of contact with the village boundary, exceeds two (2) miles.

4. Water for irrigation shall not be supplied, except through a village channel so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*)—the water will pass without wastage;

(*b*)—the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation will not be obstructed.

5. Persons desirous (i) of constructing a village channel, (ii) of registering a channel already constructed, (iii) of taking water from a village channel, or (iv) of taking water from any outlet provided by Government, shall prefer a written application to the Divisional Canal Officer, or to some officer duly authorised by him to receive such applications. In the first two cases (i) and (ii), if the application be received by an officer subordinate to the Divisional Canal Officer, it shall be forwarded to him for orders.

6. An application under rule 5 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-divisional Canal Officer.

(*b*)—That the Sub-divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called "Suttadar"), known or ascertained to be a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of a Suttadar, the Sub-divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

(*d*)—That the Collector shall appoint a headman (to be called Tehsildar) whose sole duty will be to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the village channel.

(*e*)—That the Tehsildar shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under rule 11.

(*f*)—That previous to water being taken for any field, a written application shall be made to the Sub-divisional Canal Officer or any subordinate authorized by the Divisional Canal Officer to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B) from competent authority.

(*g*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates that there is likely to be difficulty in the realization of the water-rates, he shall intimate the same to the Collector, in whose option it shall be to require payment of water-rates in advance, and the Collector shall inform the Divisional Canal Officer of any villages where he considers that water should not be granted without previous payment.

(*h*)—That any other cultivators in the same village, able and willing to irrigate their lands from the village channel, may, subject to the approval of the Divisional Canal Officer, be admitted as shareholders in it, on paying their proportionate share of the first cost and maintenance thereof, to be determined by the amount of irrigable land held by them.

(*i*)—That all alterations in the number of shareholders or distribution of shares shall be reported to the Sub-divisional Canal Officer for the sanction of the Divisional Canal Officer.

7. The Divisional Canal Officer is empowered to pay to the Suttadar appointed under rule 8 the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

8. The allowance to the Suttadar for duties connected with that village channel, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be one-half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

9. The allowance to the Tehsildar of a village channel for collecting the water-rates shall be one-half anna in the rupee on the amount actually paid in by him. If the Tehsildar shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be within the discretion of the Collector to pay him the allowance on the whole or on any part of such arrears.

10. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

11. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

12. The Sub-divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that the village channel is not maintained in proper repair. In the case of any such closure of a registered channel, immediate report thereof, with any necessary explanation, shall be made to the Divisional Canal Officer.

13. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the Suttadars of village channels. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Canal Officer to stop any supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates, under section 76 (*b*), shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person or through their headman, to the nearest Sub-divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (*c*) the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follow :—

18. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

19. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

20. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The Suttadar will be held personally responsible for the due observance of this rule and of rules 19 to 23 and 24.

21. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

22. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

23. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated.

24. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The Suttadar to be held responsible for reporting such waste of water.

25. When the original crop sown in a field, irrigated by the canal water, fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

26. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

27. All water-rates shall become due on the dates noted on the "permits," as herein below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.—15th April.
Water-rate on summer crops, cheena, &c.—15th August.
Water-rate on bhadoi crops, early rice, Indian-corn, murwa, &c.—30th November.
Water-rate on annual and winter crops, sugarcane, aghani rice, joaur, &c.—31st January.

28. In the case of lands held in bhaoli, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the bhaoli rents, in the same proportion as the produce is divisible amongst them.

29. Collection of all water-rate shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

30. Objections to the demand addressed to the Collector shall, if remission be claimed on the score of short supply or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The collection of the demand shall not be suspended on account of any such objection.

31. Claims for remission referred by the Collector and admitted by the Divisional Canal Officer shall be reported by him for the sanction of the Superintending Canal Officer,

HIGH COURT NOTICE.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal

CIVIL.

No. 27, *dated the 12th July* 1879.

It having been represented that the Subordinate Civil Courts, when fixing the period for the purpose of executing commissions to make local investigations for the purpose of determining the charge to be levied under Clause (*b*), Article 3, Parts II, III, and IV of the revised rules framed by the High Court under Clause 1, Section 20 of the Court Fees Act, 1870, do not always make sufficient allowance for the time occupied by the Ameen in travelling to the spot, and in preparing his report, the Court are pleased to direct that a charge be made for the time occupied in preparing the report, if it cannot be done at once, but that care be taken that the charge on this account is kept down to what is strictly necessary, and also that, in calculating the fees payable, the actual distance the Ameen has to travel be considered, and that it be not assumed, except by the Courts at the Sudder Station, that he is at the Court issuing the commission, when in fact he is not so. In case it be doubtful where the Ameen is, it may be assumed that he is at the Sudder Station.

Sheriff's Office, the 9th July 1879.

NOTICE is hereby given that the Seventh Criminal Sessions of the year 1879 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the Fourth day of August next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

RESOLUTION ON THE ANNUAL REPORT OF THE MARINE DEPARTMENT FOR 1878-79.

GENERAL DEPARTMENT.—MARINE.

Calcutta, the 17th July 1879.

RESOLUTION.

READ—

The Annual Report of the Port Officer for 1878-79.

1. Since the appointment of a Superintendent of Marine at Calcutta, the Port Officer's duties have been confined to the administration of the local marine attached to the Port, and the charge of the Port approaches, of which he is Conservator. His office establishment has been revised and is now a charge on Provincial Funds. Lieutenant Warden officiated as Port Officer during the year.

2. In dealing with questions that have come before him in connection with marine expenditure during the past year, the Lieutenant-Governor has found reason to believe that there is at present an insufficient check on the growth of marine charges, and that there is room for saving in the matter of stores and establishments. He has accordingly appointed a Committee to enquire thoroughly into the working of the whole system of provincial marine accounts, with the object of securing efficiency and economy in the administration of the grant received from the Imperial Government for marine expenditure. The Committee is still proceeding with the enquiry.

3. During the year fifty-four pilots were on the running list, two were in command of brigs, and eight were on leave. One was on detached duty. There were three casualties, all occurring in the Masters' grade. Five Leadsmen Apprentices joined the service on appointment by the Secretary of State, but no officer of that grade qualified for promotion to pilot. The service consists at present of 85 members—65 being Pilots and 20 Leadsmen.

4. The number of arrivals and departures of vessels was 1,967, comprising 996 steamers and 971 sailing ships. The total gross tonnage of these vessels was 2,911,774 tons. There was a considerable falling off in the total of arrivals and departures as compared with the figures of the two immediately preceding years; but both the number of ships and the gross tonnage were higher than in any year from 1869-70 to 1875-76 inclusive. In 1877-78 the number of arrivals and departures was 2,693, and the gross tonnage 4,043,985 tons. The figures for 1876-77 were 2,282 and 3,294,951 respectively. The trade of the port was, however, in these two years abnormally active, owing to the Madras and Bombay famines. A decrease in the shipping was to be looked for, as relief operations came to an end in those Presidencies, and it is satisfactory to find that, after all the effect of the extraordinary demand for freight had passed away, the gross tonnage of the Port was still 352,500 tons more than in 1875-76. The earnings of the Pilot Service naturally vary with the number of ships entering and leaving the port. The monthly average of ships piloted by the several grades during the past year was 4·36 for Branch Pilots, 3·33 for Masters, and 3·05 for Mates. The work has thus not yet fallen below the standard taken by the Committee of 1872, viz. three ships a month for each pilot.

5. The following statement reproduced from the report gives particulars of the shipping during the past two years:—

		1877-78.	1878-79.
Arrivals ...	Number of steamers	726	489
	Ditto of sailing vessels ...	646	478
	Ditto of steamers which came through Suez Canal	165	128
Departures ...	Number of steamers	735	507
	Ditto of sailing vessels ...	586	493
	Ditto of steamers which went through Suez Canal	159	154
Total tonnage inwards and outwards of steamers ...		2,637,992	1,825,888
Average tonnage of steamers		1,805	1,833
Total tonnage inwards and outwards of sailing vessels ...		1,405,993	1,085,886
Average tonnage of sailing vessels		1,141	1,118
Grand total tonnage of steamers and sailing vessels, inwards and outwards		4,043,985	2,911,774
Average tonnage of steamers and sailing vessels inwards and outwards		1,501	1,480

6. The percentage of accidents was somewhat higher than in the previous year, being 2·69 against 2·27; but having regard to the difficulties of the river, and the great size and draught of many of the vessels (382 drawing over 21 feet), the result of the year's work is, on the whole, creditable to the Pilot Service. There were 37 groundings and 16 collisions. In most of these accidents no damage was caused, and no blame was attributable to the pilots in charge; but one serious and deplorable case—the total loss of the steam-ship *Queen Anne* with six lives on the Fultah Sands—was entirely due to the misconduct of the pilot. He was brought to trial and dismissed. The only other case of any importance was the collision between the Peninsular and Oriental Company's steamer *Peshawur* and the flat *Jellinghee* in tow of the inland steamer *Madras*, in which the flat was sunk. For this accident the captain of the *Madras* was entirely responsible.

7. Three Marine Courts were held during the year. In the first case a licensed tug pilot was charged with intoxication while on duty, but acquitted for want of sufficient evidence. The second case was the trial of the pilot of the steam-ship *Queen Anne*. In the third case a Licensed Master Pilot was sentenced to forfeiture of half his earnings for six weeks for unskilfulness in handling the Government steamer *Undaunted*. The conduct of marine prosecutions on behalf of Government has lately been transferred from the Assistant Port Officer to the Deputy Legal Remembrancer, as it was found desirable that the Marine authorities should have professional legal assistance in these cases.

8 A Special Court under Act IV of 1875 was appointed to enquire into the collision between the steam-ship *Peshawur* and the flat *Jellinghee*. In the absence of any law requiring the employment of certificated masters on board inland steam vessels, it was deemed useless to frame charges under the Act against the captain of the *Madras*, through whose incompetency the collision

was caused. This case, and others which occurred previously, demonstrated the necessity of providing by law for the appointment of none but competent men to the charge of river steamers of a certain burden, and for their trial and punishment in case of incompetency or misconduct. An Act has accordingly been passed, requiring commanders of inland steam vessels, of a burden exceeding 100 tons, to undergo examination and obtain a certificate of competency, and rendering them liable to suspension or cancelment of their certificate in case they are found guilty of incompetency or misconduct, or are convicted of a non-bailable offence.

9. The report gives a full account of the work of the River Survey Department and of the state of the Port approaches during the year. The River Survey Department made the usual yearly examination of the Eastern Channel, overhauled and replaced the buoys of the Western Channel, surveyed completely the Gasper Channel and Middle Ground, re-surveyed the Saugor Roads and Mud Point Channel, and effected the repairs and alterations needed in the river marks. Changes have occurred in some of the channels, shoals, and anchorages of the river; but they appear not to have materially affected the navigation The steamer *Clyde* was the survey vessel during the year.

10. Under orders of the Government of India passed in January last, all local vessels maintained out of Port Funds, or belonging to local departments and employed on local duties, have been placed under the independent control of the Local Government. All other vessels will remain under the orders of the Supreme Government. The services of the steamer *Undaunted* have, however, been placed at the disposal of this Government for the present. She was usefully employed during the year in towing pilot brigs and light-ships up to the Dockyard for repairs and back to their stations, in provisioning them, and in conveying pilots to the Sandheads. In September last she proceeded to Galle and towed up the light-ship *Colombo*, a vessel purchased by the Government of India from the Ceylon Government for service in the Hooghly, but now guarding the Krishna Shoal. Most of the local vessels are reported to be in good condition. Three of the pilot brigs were repaired during the year.

11. The anchor vessel *Vulcan* recovered a good deal of property in the course of the year. Her earnings amounted to Rs. 2,257. Allowing for salvage, this sum fell short of the cost of her establishment by Rs. 3,869-12. Against this unfavorable balance, however, must be set off the value of her services as an auxiliary vessel of the Survey Department, and a large stock of unsold anchors and cables which is valued at Rs. 5,800.

12. The houses of refuge on the southern face of the Sunderbuns have been inspected and supplied with a fresh stock of stores. These houses are systematically plundered every year by wood-cutters; but owing to their remoteness from habitation, no practicable measures for their protection can be devised. It may be possible hereafter to have them looked after by the officers of the Forest Department. Meantime only absolute necessaries are supplied to them.

13. The periodical examinations for certificates as Masters, Mates, and Engineers attracted more candidates than in the previous year. Nineteen went up for Masters' and 45 for Mates' certificates. Of the former, 6 obtained colonial and 4 local certificates; and of the latter, 6 obtained colonial and 23 local certificates. Eleven engineers appeared for examination in steam: seven passed—five obtaining colonial and two local certificates. One master also went up for this examination and passed.

14. The number of certificates issued to steam vessels surveyed under the local Acts was 152. Native passenger steamers were also surveyed as usual under Act VIII, 1876. Two of these vessels suffered severely from small-pox while conveying pilgrims from Jeddah to this Port during the year. These cases drew attention to the necessity of laying down a more explicit rule than that actually in force for the provision of suitable hospital accommodation on board native passenger ships. A draft rule has accordingly been submitted for the approval of the Government of India.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Government of Bengal.

RESULT OF THE TRIAL MADE IN CERTAIN HOSPITALS IN THE BOMBAY PRESIDENCY WITH MR. WOOD'S ALKALOIDS IN THE TREATMENT OF MALARIAL FEVERS.

GOVERNMENT OF INDIA.

HOME DEPARTMENT PROCEEDINGS, DECEMBER 1878.

MEDICAL.

No. 3149, dated Bombay Castle, the 16th October 1878.

From—The HON'BLE E. W. RAVENSCROFT, C.S.I., Chief Secretary to the Government of Bombay,

To—The Offg. Secretary to the Government of India.

WITH reference to the correspondence ending with your office endorsement No. 21, dated 18th January 1877, relative to experiments with cinchonidine and Mr. Wood's mixed alkaloids, I am directed by His Excellency the Governor in Council to forward herewith copy of a letter, No. 3550, dated 4th instant, with accompaniment in original, from the Surgeon-General, Indian Medical Department, reporting the result of the trials made in certain hospitals of this Presidency of Wood's alkaloids in malarial fevers.

No. 3550, dated Bombay, the 4th October 1878.

From—W. G. HUNTER, ESQ., M.D., Surgeon-General, Indian Medical Dept.,

To—The Secretary to the Government of Bombay, General Dept.

WITH reference to Government Resolution No. 275, dated 27th January 1877, I have the honor to report for the information of Government the result of the trials made in certain hospitals* of this Presidency of Wood's alkaloids in malarial fevers.

Civil hospitals	20

2. While difference of opinion exists as to its therapeutic value—some medical officers going so far as to condemn it altogether as valueless, and one even considering it "actually harmful"—the majority report very favourably of its efficacy in these forms of fever, and give it a place second to quinine only.

3. With rare exceptions complaint is made that its unpleasant bitter taste, its tendency to create nausea, and occasionally vomiting and diarrhœa, are drawbacks to its administration. These drawbacks have, however, in the hands of Surgeon-Major Davies, Civil Surgeon, Karwar, and others, been considerably alleviated by exhibiting the drug in the form of pill, or in solution with citric or tartaric acid, a little chloric æther being added.

4. Probably the best and most carefully worked out report is that by Assistant Surgeon Bhikajee Amroot, of the Jamsetjee Jeejeebhoy Hospital. It is drawn out in a tabulated form for easy reference in accordance with instructions issued from this office, and I beg to submit it for the information of Government. The cases, 71 in all, were treated in a ward of the Jamsetjee Jeejeebhoy Hospital specially set apart for this purpose, and in a foot-note Mr. Bhikajee Amroot records the opinion he has formed of the value of this agent, and which Government will perceive is a high one.

5. The value which the perusal of the reports led me to set upon the mixed alkaloids may be best inferred from the action which I took prior to the receipt of Government Resolution No. 2478, dated 21st August 1878, in directing that in future all demands for quinine were to be met by substituting the mixed alkaloids for quinine in the proportion of two-thirds to one-third.

6. In the graver forms of remittent fever quinine still stands unrivalled in its therapeutic value.

---

* The drug as an antiperiodic is nearly equal in efficacy to quinine. Cinchonism is less severe. In a very small proportion of cases it excites gastro-enteric irritation; but this soon subsides, and it is rarely necessary to omit the remedy; 10 to 20 grains of the alkaloid administered in the day are usually sufficient in all cases of ordinary remittent and intermittent fevers.

From—C. E Buckland, Esq., Offg. Under Secretary to the Govt. of India,
To—The Secretary to the Government of Madras

I am directed to invite attention to Home Department No. 20, dated the 18th January, 1877, and to request that, with the permission of His Excellency the Governor in Council, you will be good enough to submit, as soon as possible, the result of the experiments made in the Madras Presidency with cinchonidine and Mr. Wood's mixed alkaloids.

No. 109, dated Fort William, the 18th December 1878.

From—The Government of India,
To—Her Majesty's Secretary of State for India.

In continuation of our despatch No. 45, dated the 17th June last, we have the honor to forward for your Lordship's information a copy of a letter* from the Government of Bombay, reporting the result of the trials made in certain hospitals in that Presidency with Mr. Wood's alkaloids in the treatment of malarial fevers. It will be seen that in the Bombay Presidency the majority of hospital officers "report very favourably of the efficacy" of this medicine in malarial fevers.

20	Mymensingh „ 18 „	6 18	General heavy rain throughout week almost without a break. Prospects of crops good. *Aus* rice will be a first-rate crop with a little sunshine now.
	Jamalpore .	12 23	
21	Tipperah, „ 18 „	8·60	Rain every day; on two days very heavy Cutting of *aus* commenced; outturn fair. Prospects of late *aus* and of *amun* good. In low lands slight damage done by floods.
	Brahmunbaria ..	9·98	
	Chandpore ..	4 05	
CHITTAGONG DIVN. 22	Chittagong July 17 „	8 31	Weather—rainy; to-day (17th) fair. In some places crops damaged by excessive rain.
	Cox's Bazar	17·20	
23	Noakholly, „ 17 '79	9 31	Weather—continuously wet and gloomy General prospects of *aus* and *amun* good. Excess of water in some places threatens to damage crops. A few cases of small-pox.
24	Chittagong Hill Tracts, „ 15 „	7 8	Weather—rainy throughout week. *Joom* paddy and cotton doing well. Young paddy plants being transplanted in low lands by plough cultivators Fever still prevalent.
	Hill Tipperah, „ 16 „	8 85	Weather—cool and rainy Rain almost throughout week. Sowing of *aus* still continues. Fields being prepared for *amun*. Prospects of crops fair Public health not good. Fever prevelant.
	BEHAR		
PATNA DIVN. 25	Patna, July 19 '79	2 00	Weather—seasonable. Prospects of *bhadoi* crops excellent. Paddy seed being put in nurseries.
	Behar .	1 37	
	Barrh ...	1 57	
26	Gya, „ 19 „	1 28	Weather—mostly cloudy Maximum reading in shade 93 3°. Sufficient rain everywhere, at least for present purposes. Prices of food-grains stationary Cholera in some places. Health of plough-cattle good.
	Aurungabad ..	6 74	
27	Shahabad, „ 19 „	2 24	Complaints from all quarters of excessive rain; but on the whole prospects good and a short sunshine would make them excellent
28	Durbhunga, „ 19 „	2 22	Weather—cloudy and rainy. A slight break in latter part of week. *Bhadoi* much damaged. Floods which are higher this year than last ten years should ensure a good rice and *rubbee* crop.
29	Mozufferpore, „ 19 „	3·04	Weather—cool and rainy. Transplantation of rice seedlings progressing well, and prospects of *bhadoi* crops favourable generally. Excessive rain in Seetamurhee sub-division somewhat prejudicial to maize and *marwa* crops. Few fine days during week have done much good; but more fine weather wanted. Bagmuttee and both Gunduck rivers in heavy flood. Cholera decreasing. No report received from Hajeepore.
	Seetamurhee	12 82	
30	Sarun, „ 19 „	1·33	Weather—cloudy and slight showers at intervals. East and west wind. Crops looking healthy and promising Some in low lands destroyed by incessant rain. Weeding operations going on briskly. Prices stationary. Cholera still prevalent.
	Sewan ...	3 62	
31	Chumparun ...	.....	Return not received.
BHAGULPORE DIVISION 32	Monghyr, July 19 „	1·10	Weather—cloudy, with occasional showers. Excessive rain in Begoosarai and Sudder sub-divisions damaged crops. A break much needed. Cholera still prevalent.
	Begoosarai ..	5 61	
	Jamui ..	6·08	
33	Bhagulpore, „ 19 „	1·90	Weather—cloudy continuously with frequent showers. More sunshine wanted. Heavy rain and early inundation of Ganges prevented sowing of *bhadoi* except on high lands; crop will be very small Rice prospects excellent.
34	Purneah, „ 19 „	3 08	Weather—very wet Wind changeable. Constant wet has brought up weed and crops together. Want of sunshine prevents weeding. Crops not so good as was expected; what *bhadoi* there is, is reported good. Health fair.
	Kissengunge ...	6·74	
	Arrareah ..	7 52	
35	Maldah, „ 19 „	6 33	Weather—generally cloudy, but getting fair since 17th Heavy rain on two days. Crops fair. *Bhadoi* paddy somewhat damaged by excessive rain.
36	Sonthal Perghs. „ 20 „	2·61	Frequent heavy rain, but rather clearer than last week. Rice is excellent. Some clear weather wanted for millets.
	Deoghur ...	2·64	
	Rajmehal ...	6 85	
	Godda ...	3·01	
	Jamtara ...	4·65

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 14h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 21st July 1879.

JOHN ELIOT,
For Meteorological Reporter to the Government of India.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of June 1879.

GENERAL REMARKS.

In spite of the low rate at which we are now carrying food-grain, considerable quantities of rice and paddy are being despatched by country boat.

The enquiries made with a view of ascertaining the cause of this, shows that the dull state of the Calcutta market is the principal reason why this mode of transit is preferred to the rail. There is little or no margin for profit, and expeditious despatch is a matter of utter indifference; in fact the length of time occupied in transit by boat is a positive gain, as godown rent is saved.

Making these enquiries has brought to light that the majority of the boats carrying stuff down have not been previously engaged for the purpose, but that boats that have brought up salt in bulk take rice and paddy as a return load.

It appears that salt is finding its way up in this way in large quantities in consequence of the wide margin that still exists between our salt rate and that at which it is carried by boat, and because of the large saving that is effected by bags being dispensed with.

Increases.

Ale ... ... Mds. 531

The weight carried under this head, although an increase over the traffic for the same period last year, is a decrease of 581 maunds on last month's despatches.

Gunny-bags ... ... Mds. 433

This slight increase over the weight carried in June last year cannot be considered satisfactory when the present favourable rate is borne in mind, but the low price ruling for mill-made bags is injuriously affecting this traffic.

Jute ... ... Mds. 17,371

Although so late in the season, large quantities of last season's jute are still being sent forward. The reduced rate has no doubt brought a lot of this stuff to the line that would otherwise have been despatched by boat.

Piece-goods ... ... Mds. 5,029

Piece-goods continue to be sent forward in considerable quantities to stock the local markets before the rains set in.

Railway material ... ... Mds. 8,402

The actual weight of railway material carried during the month was 19,088 maunds only, being a decrease of 26,337 maunds on the despatches for the same period last year. The total weight shewn as lifted during the month under review is made up by the addition of 34,739 maunds of loco. coal.

Salt ... ... Mds. 17,339

The total weight of this commodity lifted in June 1878 was only 640 maunds, but the gross weight lifted during the month (17,979 maunds) is 1,395 maunds below the weight carried last month, which goes to shew that even the present low rate at which we are carrying this staple does not enable us to compete with the boats.

Sugar ... ... Mds. 1,104

The total weight lifted during the month was 1,315 maunds against 220 maunds in June 1878.

Tea ... ... Mds. 2,626

The season has been an unusually late one, but the crop is now beginning to come in freely. The gross weight carried during the period under review stands 8,162 maunds against 5,536 maunds in June 1878.

It will be remembered that it was not until the 10th of June last year that the line was opened to Siliguri, and that for some time after this, communication was very imperfect owing to the breaks caused by the heavy floods. It may therefore be assumed that the increase shown is the proportion of this traffic that was last year at this time finding its way to the port by the Caragola route.

Tobacco ... ... Mds. 10,450

The reduced rate which came into force on 15th March last, and a demand in the Calcutta market, accounts for this increase.

All other goods ... ... Mds. 22,720

In June 1878 we carried 5,793 maunds only under this head. The increase is due principally to the development of through miscellaneous traffic.

Decreases.

Food-grain ... ... Mds. 2,660

The causes for the falling off under this head are explained in general remarks.

Ginger ... ... Mds. 4,283

There is literally no business being done in this staple. The whole month's despatches only amounted to 340 maunds.

SAIDPUR, the 15th July 1879.

G. M. DRURY, *Traffic Superintendent.*

Report of Fluctuation of Traffic on the Tirhoot State Railway for the month of June 1879.

INCREASES.

Coal ... ... Mds. 821
This is a mere nominal increase.

Food-grains ... ... „ 4,501
Though a slight increase above last year's transactions, the business done in this staple would have been higher but for the heavy and incessant rains.

Iron ... ... „ 432
The traffic in this staple is dependent on local requirements and is never likely to be heavy.

Seeds, indigo ... ... „ 930
This is exceptional and unimportant.

Seeds, oil ... ... „ 5,098
The despatches of oil seeds have been more brisk during this month, and, had the weather permitted, the traffic would have been greater.

Tobacco ... ... „ 1,506
Though representing an increase, the business in this staple is falling off.

Miscellaneous goods ... ... „ 5,980
The traffic under this heading is still favorable.

DECREASES.

Hides and horns ... ... „ 1,048
The decrease in these staples is attributable to the unfavorable weather.

Piece-goods ... ... „ 1,099
The business done in this staple has not been unfavorable for the season.

Railway materials ... ... „ 502
Dependent on railway works under construction.

Salt ... ... „ 4,151
Due to the unfavorable state of the weather.

Saltpetre ... ... „ 2,209
Due to the unfavorable state of the weather.

Sugar ... ... „ 5,274
Due to the unfavorable state of the weather.

NOTIFICATION.

The 9th July 1897.—The Port of Chittagong and the navigable river and channels leading thereto having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act), in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow :—

To the north-east,—a line drawn across the river Karnafoolee, from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south-west,—a line drawn across the said river, from the boundary pillar at the mouth of the Gowaldanga nulla to the boundary pillar on the opposite bank at the northernmost point of Luckea Char.

These limits include so much of the river Karnafoolee and the shores thereof as lies within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow :—

To the north-east,—the Port of Chittagong as above defined.

To the south-west,—the mouth of the river Karnafoolee within the outer buoys.

All parts of the river Karnafoolee between the said limits and below high-water mark at spring tides are subject to the said Act.

Port dues shall be levied at the following rates, once in 60 days, in the Port of Chittagong :—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

PORT RULES.

The following revised Port Rules are hereby promulgated for general information and guidance :—

Rule I.—Every vessel on arrival within the port shall take up such berth as may be appointed for it by the Conservator, from which it shall not be removed (except in case of emergency) without the sanction of the Conservator, and it shall change its berth when required by the same authority to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging in the davits as soon as she has moored, and shall so retain them unless otherwise authorized by the Conservator.

Rule V.—Every vessel entering the port, between the 15th day of May and 15th day of November, shall send down her top-gallant masts and yards.

Rule VI.—No ballast shall be discharged either from shipboard or be landed from boats, within the port and its approaches, without the previous sanction of the Conservator, who may appoint ballast guards to supervise the work.

Rule VII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule VIII.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light, visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Rule IX.—All coasting vessels, cargo-boats, bhurs, and budgerows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Rule X.—Except in cases of emergency, no vessel shall be moored or unmoored and no hawsers and warps shall be left out between sunset and daybreak.

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.), and will have effect from and after the 1st September 1879.

1. Except as may be herein provided, every vessel before leaving any toll station shall pay tolls in accordance with Schedule A appended to these rules.

2. The tonnage of every laden vessel, excepting steamers and flats, shall for the purpose of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(*a.*) The product of half the length of the vessel from stem to stern, measured along the waterline, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches; and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c.*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only; exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds are to be charged.

3. The tonnage of every empty vessel, excepting steamers and flats, shall for the purpose of the "Canals Act of 1864" and of these rules be determined, and tolls shall be levied thereon, under the same rules and by the same system of measurement as above laid down for laden vessels, with the following exception, viz.—

The measurement of the depth of an empty vessel shall be made from the gunwale to the bottom of the vessel, instead of being taken from the waterline, as in the case of a laden vessel.

4. The measurement of steamers and flats shall be taken to be as ascertained by the Master Attendant's Department at Calcutta for the payment by such vessels of the port dues under the Merchant Seamen's Act, subject to the following deductions: —

(*a.*) In the case of steamers, 35 per cent. of the tonnage of the hull, excluding the cabin accommodation altogether, will be allowed as the tonnage of the engine-room, coal-bunkers, &c., and toll will be levied on the remaining 65 per cent of the tonnage.

(*b.*) In the case of flats, 10 per cent. of the tonnage will be allowed for accommodation, &c., and tolls will be levied on the remaining 90 per cent. of tonnage.

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea rivers, as well as boats used by police officers on actual duty, shall be exempted from paying tolls. This shall not be held to apply to police officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation.

6. If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge. If the vessel be unable to pass along either river, the Toll Collector may, at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel.

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day; provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip. The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours.

8. An empty cargo-vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time. A vessel leaving the Chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day.

9. Boats or vessels which may have entered the Nuddea rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage.

10. Immediately after entering the Chowkey limits, the manjee of every cargo-vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement.

11. After measurement shall have been duly effected, the measuring Mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix EI.), and shall inform the manjee verbally of the amount of toll payable by him.

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix EII.), which shall entitle him to pass the Chowkey limits free of all further charge. This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13. The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles

which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the Mohurir in charge of the Chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the Mohurir a ticket in the form annexed (Appendix EIII), which shall entitle such vessel to pass Chowkey limits without further charge.

14. Passenger boats having on board cargo other than that is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats.

15. Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip, shall be considered as empty.

16. No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector.

17. Tickets and passes are not transferable.

18. Passes collected at the Chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

19. Measurement shall be made between the hours of 6 A.M. and 6 P.M. from April 1st to September 30th; and between 7 A.M. and 5 P.M. from October 1st to March 31st. Tickets under rule 12 shall be issued within the hours of 7 A.M. and 5 P.M. in summer, and 8 A.M. and 5 P.M. in winter.

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such applications shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat.

21. Any officer of Government or other person claiming exemption under rule 5 shall be supplied by the measuring Mohurir with a certificate in the form annexed (Appendix EIV), and shall fill up and return such form to the Mohurir, who shall thereupon grant a passenger ticket in form (EIII). In case of doubt as to the good faith of any claim to exemption from toll, the measuring Mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector.

22. No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timbers exceeding in all twenty in number, shall pass into or through any of the Nuddea rivers at one time or abreast.

23. No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea rivers. And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following.

24. For every vessel or raft, or fleet of vessels or of rafts, and for every timber which shall pass into, or out of, or through any of the Nuddea rivers in violation of rules 22 and 23, the owner thereof or the person in charge shall, on conviction by a Magistrate under section 18 of the "Canals Act, 1864," be punishable by a fine not exceeding Rs. 10 for each vessel, raft, or timber in excess of the number authorized, besides being subjected to the payment of the prescribed toll on the same. The payment of the toll shall, if necessary, be enforced in the manner described in section 9 of the "Canals Act, 1864."

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations, may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand; and on depositing such amount as the Board of Revenue may determine, they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue.

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station. The certificate shall mention the date of passing. It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorized to receive payment thereof.

27. Refusal to pay the toll on steamers or flats, except on those which are furnished with a certificate under rule 25, or evasion, or attempt at evasion, of such payment, will be dealt with under sections 9 and 10 of the "Canals Act, 1864;" except that, instead of the vessel being seized and detained as directed in section 9, any separate cargo or stores, the sale-proceeds of which will be sufficient to defray the amount of toll that should be paid, and which can, without inconvenience or danger to itself or to the rest of the cargo, be taken out of the vessel, shall be so taken out and detained, and subsequent proceedings shall be taken thereon as directed in section 9.

28. Any person who may without just cause refuse to pay any toll demanded of him by the officers of the toll establishment, or who may evade, or attempt to evade, any such toll, or who may be a party to the transfer, or attempted transfer, of any ticket or pass, or who may without reasonable cause neglect or refuse to place his vessel in any situation in which he may be required by the Toll Collector to place it, or who may without reasonable cause neglect or refuse to remove his vessel from the measuring ghat after measurement, or unload cargo without the permission of the Toll Collector, shall be punishable under section 10 of Act V of 1864 (B.L.C.), on conviction before a Magistrate, with a fine which may amount to Rs. 50, or with simple imprisonment in lieu of fine which may extend to one month.

29. Any person who shall without sufficient excuse neglect or refuse to produce when called upon by the Toll Officers, or by any other person whose duty it may be to check the collection of tolls on the rivers, any ticket or pass which he may be required by these rules to produce, shall be liable to pay tolls, whether he shall or shall not have previously paid them, and shall also be liable to a fine under section 10 of the Canals Act which may amount to Rs. 50.

30. Complaints against the conduct of the subordinate officers and enquiries for information must be preferred to the Toll Collector.

NOTIFICATION.

The 21st July 1879.

No. 169.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to pass the following rules for the Sone Canals in supersession of the rules passed in notification No. 274, dated 21st October 1878.

The 28th May, 4th, 18th and 25th June, and 2nd, 9th, and 16th July 1879.

A draft of the rules was published as provided in the aforesaid section of the said Act in the *Calcutta Gazette* of the dates noted in the margin.

D. B. HORN,
for Joint-Secy. to the Govt. of Bengal,
P. W. Dept., Irrign. Branch.

RULES UNDER ACT III (B. C.) OF 1876.

1. The Collector, before awarding compensation under section 16, or making a reference under section 17, of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur.

3. Water shall not ordinarily be granted where the length of the village channel, from its head to its point of contact with the village boundary, exceeds two (2) miles.

4. Water for irrigation shall not be supplied, except through a village channel so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*)—the water will pass without wastage;

(*b*)—the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation will not be obstructed.

5. Persons desirous (i) of constructing a village channel, (ii) of registering a channel already constructed, (iii) of taking water from a village channel; or (iv) of taking water from any outlet provided by Government, shall prefer a written application to the Divisional Canal Officer, or to some officer duly authorised by him to receive such applications. In the first two cases (i) and (ii), if the application be received by an officer subordinate to the Divisional Canal Officer, it shall be forwarded to him for orders.

6. An application under rule 5 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions :—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-divisional Canal Officer.

(*b*)—That the Sub-divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called "Suttadar"), known or ascertained to be a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-divisional Canal Officer cannot agree with the applicants in the appointment of a Suttadar, the Sub-divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

(*d*)—That the Collector shall appoint a headman (to be called Tehsildar) whose sole duty will be to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the village channel.

(*e*)—That the Tehsildar shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under rule 11.

(*f*)—That previous to water being taken for any field, a written application shall be made to the Sub-divisional Canal Officer or any subordinate authorized by the Divisional Canal Officer to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B) from competent authority.

(*g*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates that there is likely to be difficulty in the realization of the water-rates, he shall intimate the same to the Collector, in whose option it shall be to require payment of water-rates in advance, and the Collector shall inform the Divisional Canal Officer of any villages where he considers that water should not be granted without previous payment

(*h*)—That any other cultivators in the same village, able and willing to irrigate their lands from the village channel, may, subject to the approval of the Divisional Canal Officer, be admitted as shareholders in it, on paying their proportionate share of the first cost and maintenance thereof, to be determined by the amount of irrigable land held by them.

(*i*)—That all alterations in the number of shareholders or distribution of shares shall be reported to the Sub-divisional Canal Officer for the sanction of the Divisional Canal Officer.

7. The Divisional Canal Officer is empowered to pay to the Suttadar appointed under rule 8 the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

8. The allowance to the Suttadar for duties connected with that village channel, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be one-half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

9. The allowance to the Tehsildar of a village channel for collecting the water-rates shall be one-half anna in the rupee on the amount actually paid in by him. If the Tehsildar shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be within the discretion of the Collector to pay him the allowance on the whole or on any part of such arrears.

10. Contracts between the Divisional Canal Officer on the part of Government and private individuals for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

11. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b*)—No tank shall be so filled from which irrigation is practised.

(*c*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written application of the parties concerned.

(*e*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for twelve months for breach of any of the above conditions.

12. The Sub-divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that the village channel is not maintained in proper repair. In the

case of any such closure of a registered channel, immediate report thereof, with any necessary explanation, shall be made to the Divisional Canal Officer.

13. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the Suttadars of village channels. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Canal Officer to stop any supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates, under section 76 (*b*), shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person or through their headman, to the nearest Sub-divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (*c*) the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follow:—

WATER-RATES.

Sone Canals.

Class	Nature of crop	Flow irrigation per			Lift irrigation per			Per
		Cottah.	Beegha.	Acre.	Cottah.	Beegha.	Acre	
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
I	Sugarcane	0 2 6	3 2 0	5 0 0	0 1 6	2 1 4	3 5 4	Crop.
II	Rice, vegetables, water-nuts, wheat, barley, cotton, tobacco, indigo, opium, garden and all crops not otherwise specified	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8	ditto.

NOTE.

1 Cottah ... ... = 1,361·25 c. feet.
1 Beegha ... ... = 27,225·00 „
1 Acre ... ... = 43,560·00 „

18. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

19. When a portion of a field has been irrigated with canal water and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

20. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The Suttadar will be held personally responsible for the due observance of this rule and of rules 19 to 23 and 24.

21. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

22. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

23. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated.

24. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The Suttadar to be held responsible for reporting such waste of water.

25. When the original crop sown in a field, irrigated by the canal water, fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

26. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

27. All water-rates shall become due on the dates noted on the "permits," as herein below stated, and shall be paid within one month of such dates:—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.—15th April.
Water-rate on summer crops, cheena, &c.—15th August.
Water-rate on bhadoi crops, early rice, Indian-corn, murwa, &c.—30th November.
Water-rate on annual and winter crops, sugarcane, aghani rice, joaur, &c.—31st January.

28. In the case of lands held in bhaoli, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the bhaoli rents, in the same proportion as the produce is divisible amongst them.

29. Collection of all water-rate shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

30. Objections to the demand addressed to the Collector shall, if remission be claimed on the score of short supply or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The collection of the demand shall not be suspended on account of any such objection.

31. Claims for remission referred by the Collector and admitted by the Divisional Canal Officer shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged for, or wrong name entered in the khatiauni.

32. A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

33. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

34. In special cases not otherwise provided for by these rules, and in cases in which water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

35. If a cultivator is dissatisfied with the entries made against him in the khatiauni, whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the Suttadar of his watercourse, with the Divisional or Sub-divisional Canal Officer at least seven days prior to the cutting of the crop.

36. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

37. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

38. The Ameen appointed to measure up the area irrigated in any village shall, before leaving it, make over the khusras to a Mohurir, who will then compile the khatiauni. A copy of the khatiauni will be taken by the Putwaree, who must, as a rule, make it himself; but if he cannot from any cause do so, the Mohurir must make it, and the Putwaree is to be held responsible that he gets a copy.

39. The copy of the khatiauni thus made shall be hung up in some conspicuous place in the village, and slips in the prescribed form (Appendix D), showing the amount he will have to pay, area irrigated, &c., shall be prepared by the Putwaree and given to each ryot.

40. The allowance to the Putwaree for the above work shall be one-quarter anna in the rupee on the collections, and shall be paid to him by the Collector on his being satisfied that the work has been properly done.

41. The measurements of each crop irrigated shall be made as soon as practicable, and every care should be taken to have the khatiauni hung up in the village at least fifteen days before the crop is cut, so that the ryot may make his complaints, if he have any, in good time.

42. In case of any subsequent alteration of the khatiauni, owing to correction of clerical errors, &c., such alteration shall be at once communicated to the Putwaree to enable him to correct the village copy and slips accordingly.

43. The Zilladar shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-divisional Canal Officer shall also check the Ameens' measurements as often as he possibly can. If it be found that any Ameen wilfully or frequently makes wrong measurements, he shall be punished by dismissal, and shall be declared incapable of obtaining further employment under Government.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 15th April 1879, and having received the assent of His Excellency the Governor-General on the 6th June 1879, is hereby promulgated for general information :—

ACT No. IX OF 1879.

An Act to amend the law relating to the Court of Wards.

Preamble.

WHEREAS it is expedient to amend the law relating to the Court of Wards within the territories under the administration of the Lieutenant-Governor of Bengal; It is enacted as follows :—

PART I.

PRELIMINARY.

Short title.

1. This Act may be called the Court of Wards Act, 1879.

Extent.

It extends to all the territories under the administration of the Lieutenant-Governor of Bengal, including the scheduled districts of Bengal as defined in the Scheduled Districts Act, 1874.

Commencement.

It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of Acts.

2. Bengal Act IV of 1870 (the Court of Wards Act), section 11 of Act XXXV of 1858, sections 12, 14, and 15 of Act XL of 1858, and so much of section 21 of Act XL of 1858 as provides that the Civil Court may direct the Collector to take charge of an estate, are hereby repealed.

All persons and properties which at the commencement of this Act are under the charge of the Court of Wards as constituted by Bengal Act IV of 1870 shall be deemed to be under the charge of the Court of Wards as constituted by this Act.

And all persons and properties which at the commencement of this Act are under the charge of the Collector by virtue of an order of the Civil Court under section 11 of Act XXXV of 1858, or under section 12, section 14, or section 21 of Act XL of 1858, shall from such commencement be deemed to be under the charge of the Court of Wards.

And all rules prescribed, orders or appointments made, and agreements executed under the Court of Wards Act, 1870, and now in force, shall (so far as they are consistent with this Act) be deemed to be respectively prescribed, made, and executed under this Act.

And all orders and appointments made by Collectors under Act XXXV of 1858 or Act XL of 1858, and now in force, shall (so far as they are consistent with this Act) be deemed to be made under this Act.

And all suits and proceedings now pending, which may have been commenced under the Court of Wards Act, 1870, or by Collectors under Act XXXV of 1858 or Act XL of 1858, shall be deemed to be commenced under this Act.

Interpretation.

3. In this Act, unless there be something repugnant in the subject or context—

"Collector."

"Collector" includes any officer in charge of the revenue jurisdiction of a district :

"Court."

"The Court" means the Court of Wards ;

or, when the Court of Wards has delegated any of its powers to a Commissioner or Collector or

any other person, it means, in respect of such powers, the Commissioner or Collector or person to whom they are delegated:

"Estate." "Estate" means all lands which are borne on the revenue-roll of a Collector as liable for the payment of one and the same demand of land revenue:

"Minor." "Minor" means a person who has not completed his age of twenty-one years:

"Section." "Section" means a section of this Act:

"Ward." "Ward" means any person who is under the charge of the Court of Wards, or whose property is under such charge.

Saving of Act XXXIV of 1858 and of jurisdiction of High Courts. 4. Nothing contained in this Act shall affect any of the provisions of Act XXXIV of 1858, or the jurisdiction, as respects infants, of any High Court of Judicature.

PART II.

CONSTITUTION, JURISDICTION, AND POWERS OF THE COURT OF WARDS.

Board of Revenue to be Court of Wards. 5. The Board of Revenue shall be the Court of Wards for the territories to which this Act extends.

It shall deal with every person and every property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Court, in accordance with the provisions of this Act.

Disqualified proprietors. 6. Proprietors of estates shall be held disqualified to manage their own property when they are—

(*a*) females declared by the Court incompetent to manage their own property;

(*b*) persons declared by the Court to be minors;

(*c*) persons adjudged by a competent Civil Court to be of unsound mind, and incapable of managing their affairs;

(*d*) persons adjudged by a competent Civil Court to be otherwise rendered incapable by physical defects or infirmities of managing their own property.

Jurisdiction of Court over disqualified proprietors. 7. Whenever the sole proprietor of an estate, or all the joint proprietors of an estate are disqualified as provided in the last preceding section, the Court shall have power to take charge of all the property of every such proprietor or joint proprietor within its jurisdiction, and of the person of any such proprietor or joint proprietor who is resident within its jurisdiction; and also of the person and property of any minor member of the family of any such proprietor or joint proprietor who has an immediate or reversionary interest in the property of such proprietor or joint proprietor.

Court when bound to give up charge. 8. Whenever the circumstances of any ward become such that the Court could not take charge of him or of his property if he were not under its charge already, the Court shall be bound to release from its charge such person and his property.

Discretion of Court as to taking charge. 9. The Court may in its discretion, in any case in which it is empowered by this Act to take charge of the person and property of any disqualified proprietor,—

(*a*) take charge of such property without taking charge of such person;

(*b*) refrain from taking charge of any such person or property;

(*c*) at any time withdraw from such charge if taken;

(*d*) at any time resume such charge, after having withdrawn from it.

Procedure under Act XL of 1858, and Act XXXV of 1858. 10. Whenever a Civil Court thinks it necessary, under section 9 of Act XL of 1858, to make provision for the charge of the person and property of a minor,

whenever a Civil Court recalls any certificate under section 21 of the said Act,

or whenever a person has been adjudged, under Act XXXV of 1858, to be of unsound mind and incapable of managing his affairs,

if the property of such minor or disqualified proprietor consists, in whole or in part, of land or any interest in land, the Civil Court may apply to the Court of Wards to take charge of the person and property of such minor or disqualified proprietor; and it shall be at the discretion of the Court of Wards to take charge of such person or property, or to refuse to do so.

Nothing contained in sections 12 to 19 (both inclusive) of Act XXXV of 1858 shall be held to apply to persons or properties under the charge of the Court of Wards.

Procedure when estate is no longer under Court because some proprietors have ceased to be disqualified. 11. Whenever one or more of the joint proprietors of whose properties the Court of Wards has taken charge ceases to be subject to the jurisdiction of the Court of Wards, and the persons and properties of the remaining joint proprietors thereby cease to be subject to the jurisdiction of the Court of Wards, notwithstanding the otherwise continued disqualification of such remaining joint proprietors, the Civil Court which would have jurisdiction under Act XL of 1858 may, on the application of the Court of Wards, direct the Court of Wards to retain or resume charge of the persons and properties of the still disqualified proprietors during the continuance of their disqualification, or, subject to the provisions of section 12, for so long as such Civil Court may order.

And in case any of the proprietors who have ceased to be subject to the jurisdiction of the Court of Wards so consent, the Court of Wards may retain or resume the charge of the properties of such proprietors, or any part thereof, so long as the property of any of the disqualified proprietors remains in charge of the Court of Wards.

Withdrawal from charge by Court. 12. The Court of Wards may at any time withdraw from the charge of any person and property taken under section 10 or under section 11, and from the charge of any person or property which before the commencement of this Act was placed under the charge of the Collector by a Civil Court under section 12,

section 14, or section 21 of Act XL of 1858, or under section 11 of Act XXXV of 1858:

Provided that it shall give notice of its intention to withdraw to the Civil Court concerned, and that such notice shall be given not less than two months before the Court of Wards shall so withdraw.

Procedure when succession to property disputed.

13. Whenever, on the death of any ward, the succession to his property or any part thereof is in dispute, the Court may either direct that such property or part thereof be made over to any person claiming such property, or may retain charge of the same until the right to possession of the claimant has been determined under Bengal Act VII of 1876, or until the dispute has been determined by a competent Civil Court.

General power of Court.

14. Subject to the provisions of this Act the Court—

(*a*) may, through its manager, do all such things requisite for the proper care and management of any property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Civil Court, as the proprietor of any such property, if not disqualified, might do for its care and management; and

(*b*) may, in respect of the person of any ward, do all such things as might be lawfully done by the legal guardian of such ward.

Exercise of powers conferred on Court through others.

15. The Court may exercise all or any powers conferred on it by this Act through the Commissioners of the Divisions and the Collectors of the Districts in which any part of the property of the disqualified proprietor may be situated, or through any other person whom it may appoint for such purpose.

Delegation of powers.

The Court may, with the sanction of the Lieutenant-Governor, from time to time delegate any of its powers to such Commissioners or Collectors or other person as aforesaid, and may at any time with the like sanction revoke such delegation.

Establishments and expenses.

16. The Court may from time to time order such establishments to be entertained and expenses to be incurred as it shall consider requisite for the care and management of the persons and properties under its charge, for superintendence, for the audit of accounts, and generally for all purposes of this Act;

and may order that the cost of any such establishment and any such expenses be charged against any one or more properties for the purposes of which they are entertained or incurred.

General contribution for general purposes.

17. The Court may, in respect of such of the establishments and expenses referred to in the last preceding section as are of a general nature, direct that they shall be met by a general contribution from the properties benefitted thereby, to be levied in such manner and in such proportion as the Court may from time to time direct.

Power to manage property.

18. The Court may sanction the giving of leases or farms of the whole or part of any property under its charge, and may direct the mortgage or sale of any part of such property, and may direct the doing of all such other acts as it may judge to be most for the benefit of the property and the advantage of the ward.

When Court may order property to be formed into a separate estate.

19. If the Court thinks it expedient to direct the sale or mortgage of any part of an estate of which the ward is the sole proprietor, it may order the Collector to partition off such part into a separate estate, and the demand of land revenue and of the cesses for which the original estate was liable shall be assessed upon and divided between the two separate estates so formed, respectively, in such manner as the Court, with the sanction of the Lieutenant-Governor, may direct.

Appointment of managers and guardians.

20. The Court may appoint one or more managers for the property of any ward, and one or more guardians for the care of the person of any ward under the charge of the Court, and may control and remove any manager or guardian so appointed.

On any disqualified proprietor becoming a ward, the Court may, at its discretion, confirm or refuse to recognize any appointment of a person to be guardian of such disqualified proprietor, which may have been made by a will.

Custody, education, and residence of wards.

21. The Court may make such orders as to it may seem fit in respect of the custody, education, and residence of a minor ward, and such minor members of the ward's family as are under its charge, and in respect of the custody and residence of any ward, not being a minor, whose person is under the charge of the Court.

Allowance for ward and his family.

22. The Court shall allow, for the support of each ward and of his family, such monthly sum as it thinks fit (if any) with regard to the rank and circumstances of the parties.

PART III.

PROTECTION FROM SALE OF CERTAIN ESTATES.

Estate under charge of Court exempt from sale.

23. Every estate, and, subject to the provisions of section 14 of Act XI of 1859, every part or share of an estate for which a separate account has been opened under section 10 or section 11 of the said Act, or under section 70 of Bengal Act VII of 1876, shall, whilst it is under the charge of the Court, be exempt from sale for arrears of revenue:

Provided that all arrears of revenue shall be the first charge upon the proceeds of any such estate, part, or share, sold for any other cause than for arrears of revenue while under such charge.

Estate belonging to minor not to be sold for arrears of revenue.

24. No estate, the sole property of a minor or of two or more minors, and descended to him or them by the regular course of inheritance, or by virtue of the will of, or some settlement made by, some deceased owner thereof, shall be sold for arrears of revenue accruing subsequently to his or their succession to the same, until such minor or one of such minors has completed his age of twenty-one years; but all arrears of revenue shall be the first charge upon the proceeds of such estate if the estate is sold for any other cause during such minority.

The Collector may, on an arrear so accruing on any such estate, attach the estate and collect the rents and all arrears of rent due, managing the estate either directly or through a manager, or by farming it, as he may think fit, for a period not exceeding ten years, nor extending beyond the time when such minor or one of such minors completes his age of twenty-one years.

But Collector may attach estate.

25. The exemption from sale for arrears of revenue given by section 24 shall only apply to cases in which a written notice of the fact that the estate is the sole property of one or more minors, and entitled to such exemption, has been served on the Collector before the sale.

When exemption from sale for arrears of revenue applies.

26. When an estate has been farmed under the provisions of section 24, the proceeds of such farm shall be paid to the Collector, and the Collector, after deducting the amount of the claims of the Government for revenue and other public demands and the charges of management, shall either pay the proceeds to the person authorized to receive them for the proprietor, or shall dispose of them in any of the modes mentioned in section 49 or in section 50.

Application of proceeds of farmed estate.

PART IV.

ASCERTAINMENT OF DISQUALIFICATION.

27. Whenever any Collector has reason to believe that any person residing in his district, or being the proprietor of an estate borne on the revenue roll of his district, should be declared or adjudged to be a disqualified proprietor under section 6, he shall make such enquiry as he may deem necessary, and if satisfied that such person should be so declared or adjudged, shall make a report of the same to the Court;

Collector to make enquiry and report as to disqualified proprietors.

and the Court shall, on receipt of such report, make such order consistent with this Act as may seem to it expedient.

28. Nothing in section 27 shall prevent the Court or the Local Government from putting the provisions of this Act in force without any report from the Collector.

Power to enforce provisions of Act without report.

29. Whenever any Collector receives information that the sole proprietor of an estate which is borne on the revenue roll of his district has died,

Proceedings on death of a proprietor whose heirs are disqualified.

or that the sole proprietor of any estate has died within his district,

and such Collector has reason to believe that the heirs of such proprietor should be declared or adjudged to be disqualified under section 6, he may take such steps and make such orders for the safety and preservation of the movable property of such heirs, and of all deeds, documents, or papers relating to the property of such heirs, as to him may seem fit.

Such Collector may call upon any other Collector in whose jurisdiction any such movable property, or any such deeds, documents, or papers may be, to take charge of the same, and thereupon such other Collector shall have the same powers with respect to such property, deeds, documents, and papers within his district as are conferred by this section on the first-mentioned Collector.

If the property is not afterwards taken under the charge of the Court, all expenses incurred by a Collector acting under this section shall be recoverable as arrears of revenue from the owner of such property or the person or persons whom the Collector shall find to be in possession of such property, and shall constitute a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Recovery of expenses.

30. A Collector acting under the last preceding section may direct that any person who has the custody of a minor heir of any such deceased proprietor shall produce such minor before such Collector or before any other Collector on a day fixed, and the Collector before whom the minor is so produced may make such order for the temporary custody and protection of such minor as to him may seem fit.

Production of minor proprietor and order for his temporary custody.

If the minor is a female, she shall not be brought into the presence of the Collector, but the Collector may take such steps for her identification as he may think fit.

31. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be of unsound mind and incapable of managing his affairs, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply, in pursuance of the provisions of Act XXXV of 1858, to the Civil Court of the district within the jurisdiction of which such proprietor may reside.

Enquiry in case of lunatics.

32. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be incapable of managing his property on the ground of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply to the principal Civil Court of the district within which such person may be residing; and upon such Collector so applying, such Civil Court shall enquire into and determine the question as to the alleged incapacity.

Civil Court to make enquiry regarding disqualification on ground of physical defect or infirmity.

33. If a sole proprietor of an estate who is resident within the local limits of the Ordinary Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal, or resident beyond the territories administered by the Lieutenant-Governor of Bengal, shall be reported by a Collector to be incapable of managing his property by reason of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other

Proceedings in case of physical defect or infirmity when proprietor in jurisdiction of High Court.

Collector as the Court may appoint, to apply to the principal Civil Court of the 24-Pergunnahs, or to such other Civil Court as the Lieutenant-Governor, on application made to him by the Collector in that behalf, may determine.

Such Civil Court shall thereupon enquire into and determine the question as to the alleged incapacity.

Powers of Civil Court when enquiry is instituted under section 32 or 33.

34 When any enquiry is instituted by a Civil Court under section 32 or section 33, such Court shall, for the purposes of making such enquiry, have the powers conferred, and proceed in the manner prescribed, by Act XXXV of 1858 with respect to the enquiries directed to be made by the said Act.

The Civil Court shall transmit to the Court of Wards a copy of the order made on each such enquiry, and the Court of Wards shall thereupon, in case the proprietor has been found by the Civil Court to be incapable as aforesaid, make such order, consistent with this Act, as it shall think fit.

The Civil Court shall have, with reference to proprietors who have been adjudged to be incapable as aforesaid, the same powers as are conferred on a Civil Court by section 21 of Act XXXV of 1858, with reference to persons adjudged to be of unsound mind and incapable of managing their affairs.

PART V.

PROCEDURE AFTER ASCERTAINMENT OF DISQUALIFICATION.

Order declaring estate under charge of Court.

35. Whenever the Court has determined to take the person or property of a disqualified proprietor under its charge, whether in accordance with an order of the Civil Court or otherwise, the Court shall make an order declaring the fact and directing that possession be taken of such person and property or of such property on behalf of the Court, and the Court shall be held to be in charge of such property from the time when possession shall have been so taken.

Collector to take possession of movable property.

36. As soon as conveniently may be after an order is made under the provisions of section 35, the Collector of every district within which any part of the ward's property may be situated, or some person authorized in writing by him in that behalf, shall take possession of all accounts, papers, and movable property of the ward, and place under proper custody such portion thereof as he may think necessary.

Any such Collector, or some person authorized as aforesaid, may, in case he has reason to believe that any such account, paper, or property is in any room, box, or receptacle within any house in the actual possession of the ward, break open the same for the purpose of searching for such account, paper, or property.

Additional powers of Collector.

37. Any such Collector may also order all persons in the employ of the ward, or all persons who were in the employ of the deceased proprietor from whom the ward has derived his property, to attend before him, and may order any person to deliver up any accounts, papers, or movable property belonging to the ward, or any accounts or papers relating to the ward's property, which the Collector has reason to believe are in such person's possession,

and may order all holders of tenures and under-tenures on such property to produce their titles to such tenures and under-tenures.

PART VI.

MANAGEMENT AND GUARDIANSHIP.

Collector when to be deemed manager.

38. If no manager of the property of a ward is appointed by the Court, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court may appoint in that behalf, shall be competent to do, under the orders of the Court, anything that might be lawfully done by the manager of such property.

Powers of manager.

39. Every manager appointed by the Court shall have power to manage all property which may be committed to his charge, to collect the rents of the land entrusted to him, as well as all other money due to the ward, and to grant receipts therefor;

and may, under the orders of the Court, grant or renew such leases and farms as may be necessary for the good management of the property.

General duty of manager.

40. Every manager shall manage the property committed to him diligently and faithfully for the benefit of the proprietor, and shall in every respect act to the best of his judgment for the ward's interest as if the property were his own.

Specific duties of manager.

41. Every manager appointed by the Court shall—

(*a*) have the care of so much of the property of the ward as the Court may direct;

(*b*) give such security (if any) as the Court thinks fit to the Collector duly to account for all such property and for what he shall receive in respect of such property;

(*c*) continue liable to account to the Court, after he has ceased to be manager, for his receipts and disbursements during the period of his management;

(*d*) pass his accounts at such periods and in such form as the Court may direct;

(*e*) pay the balance due from him thereon;

(*f*) apply for the sanction of the Court to any act which may involve the property in expense not previously sanctioned by such Court;

(*g*) sign all papers, deeds, documents, and writings which may be executed by him by virtue of his office;

(*h*) be entitled to such allowance, to be paid out of the property as the Court may think fit, for his care and pains in the execution of his duties;

(*i*) be responsible for any loss occasioned to the property by his wilful default or gross negligence.

General duty of guardian.

42. A guardian appointed to the care of a ward shall be charged with the custody of the ward, and must look to his maintenance, health, and, if he be a minor, to his education.

Specific duties of guardian.

43. Every guardian appointed by the Court shall—

(*a*) give such security (if any) as the Court thinks fit to the Collector for the due performance of his duty;

(*b*) pass his accounts at such periods and in such form as the Court may direct;

(*c*) pay the balance due from him thereon;

(*d*) continue liable to account to the Court, after he has ceased to be guardian, for his receipts and disbursements during the period of his guardianship;

(*e*) apply for the sanction of the Court to any act which may involve expense not previously sanctioned by the Court;

(*f*) be entitled to such allowance to be paid out of the property of the ward as the Court may think fit for his care and pains in the execution of his duties.

No person to be guardian who can succeed to ward.

44. No person who would be the next legal heir of a ward, or would otherwise be immediately interested in outliving a ward, shall be appointed to be his guardian;

but nothing in this section shall apply to the mother of a ward, or to a testamentary guardian.

Guardian of female ward.

45. If the ward is a female, a female of the same religion shall, except in the case of a testamentary guardian, be appointed guardian, preference being given to female relatives, if any such be eligible.

But no guardian shall ordinarily be appointed or continued for a female ward if she has an adult husband.

Sums due recoverable as demands.

46. Every sum due to the Court from a manager or guardian, or from the sureties of a manager or guardian, or from any officer or servant employed under the Court, or from the sureties of any such officer or servant, shall be recoverable as a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Court may order guardian or manager to make over property.

47. The Court may order any past or present manager or guardian, or past or present officer subordinate to a manager or guardian, to deliver up his accounts or any property which may be in his possession within such time as may be fixed by the Court.

Application of moneys received by manager.

48. All moneys received by the manager shall, in the first instance, be applied as the Court may direct according to circumstances,

in payment of the allowance fixed for the support and education of the ward and his family, and of all charges of management and supervision;

in or towards the discharge of the instalments of Government revenue, and of all cesses and other public demands from time to time due in respect of such property.

Application of surplus.

49. Whenever upon the accounts a *bonâ fide* surplus is shown after making the payments mentioned in section 48, such surplus shall be applied as the Court may direct according to the circumstances of the property concerned—

in liquidation of debts payable by the ward;

in payment of such religious, charitable, and other allowances as were paid out of the proceeds of the property before it came under the charge of the Court, and such allowances and donations befitting the position of the ward's family as the Court may authorize to be paid;

in the improvement of the lands or otherwise for the benefit of the ward or his property:

Amount expended on improvement not to exceed ten per cent. of surplus.

Provided that the amount expended on such improvement and for such benefit shall not exceed ten per centum of the said surplus, unless, in the opinion of the Court and the Lieutenant-Governor, it is desirable, for the protection of the lands, or in the interest of the ward or his property, to expend an amount exceeding such percentage:

Surplus to be made over to female and major whose property remains under the charge of the Court.

Provided also that if the ward is a female of sound mind, who has completed the age of twenty-one years, or a person who has completed the age of twenty-one years, and whose property remains under the charge of the Court with his consent, no part of the surplus shall be expended by the Court otherwise than in the liquidation of debts or in the improvement of the lands or property as aforesaid, and the remainder of the surplus shall be paid to such female or person.

Power to invest surplus.

50. If the ward is not a female or person as aforesaid, and if any surplus remains after providing so far as the Court may think fit for the objects mentioned in section 49, the same shall be applied in the purchase of other landed property, or invested at interest on the security of

promissory notes, debentures, stock, and other securities of the Government of India, or of the United Kingdom of Great Britain and Ireland;

bonds, debentures, and annuities charged by the Imperial Parliament on the revenues of India;

stock or debentures of or shares in railway or other companies, the interest whereon has been guaranteed by the Secretary of State for India in Council;

debentures or other securities for money paid by or on behalf of any municipal body under the authority of any Act of a legislature established in British India;

or such other securities, stocks, or shares, guaranteed by the Government of India or the Government of Bengal as to the Court shall seem fit.

PART VII.

SUITS.

Manager or Collector to be next friend or guardian in suits by or against ward.

51. In every suit brought by or against any ward, he shall be therein described as a Ward of Court; and the manager of such ward's property, or if there is no manager, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court of Wards may appoint in that behalf, shall be named as next friend or

guardian for the suit, and shall in such suit represent such ward, and no other person shall be ordered to sue or be sued as next friend or be named as guardian for the suit by any Civil Court in which such suit may be pending.

Court may substitute another person to be next friend or guardian for the suit.

52. The Court of Wards may by an order nominate or substitute any other person to be next friend or guardian for any such suit; and upon receiving a copy of any such order of substitution, the Civil Court in which such suit is pending shall substitute the name of the next friend or guardian for the suit so appointed for the name of the manager or Collector.

Payment of costs.

53. If in any such suit any Civil Court shall decree any costs against the next friend or guardian for the suit of the ward, the Court of Wards shall cause such costs to be paid out of any property of the ward which for the time being may be in its hands.

Process against wards to be served through Court.

54. Every process which may be issued out of any Civil Court against any ward shall be served, through the Collector, upon the next friend or guardian for the suit as aforesaid of such ward.

Suits not to be brought on behalf of wards unless authorized by the Court.

55. No suit shall be brought on behalf of any ward, unless the same be authorized by some order of the Court:

Provided that a manager may authorize a plaint to be filed in order to prevent a suit from being barred by the Law of Limitation, but such suit shall not be afterwards proceeded with except under the sanction of the Court:

Provided also that suits for arrears of rent may be brought on behalf of any ward if authorized by an order of the manager of the landed property on which such rents are due.

Saving of suits in the High Court, and of persons who consent to remain wards.

56. Nothing contained in this Part shall apply to any suit instituted or pending in the High Court, or to a proprietor who has consented to leave his property under the charge of the Court of Wards, as provided in the second clause of section 11.

PART VIII.

PENALTIES.

For disobeying certain orders of the Collector.

57. Any person who refuses to comply with an order of a Collector under section 29, 30, 36 or 37, shall be liable, by order of the Collector, to a fine not exceeding five hundred rupees.

For disobeying orders under section 47.

58. Any person who refuses to comply with an order made under section 47 may be punished, by order of the Court, with simple imprisonment and attachment of his property until the order is complied with.

For disobeying order of Court.

59. Any person who disobeys any lawful order of the Court shall be liable, on conviction before a Magistrate, to a fine not exceeding five hundred rupees, and if he is a manager or guardian appointed by the Court, to a fine not exceeding one thousand rupees.

PART IX.

MISCELLANEOUS.

Disabilities of wards.

60. No ward shall be competent to create, without the sanction of the Court, any charge upon, or interest in, his property or any part thereof.

Adoption by ward invalid without consent of Lieutenant-Governor.

61. No adoption by any ward, and no written or verbal permission to adopt given by any ward, shall be valid without the consent of the Lieutenant-Governor, obtained either previously or subsequently to such adoption, or to the giving of such permission, on application made to him through the Court.

Exception as to persons who consent to remain wards.

62. Nothing contained in section 60 or in section 61 shall apply to a proprietor who has consented to leave his property under the charge of the Court, as provided in the second clause of section 11.

Arrears of rent how recoverable.

63. All arrears of rent due by farmers, undertenants and ryots, in respect of property under the charge of the Court (whether such rents have become due before or after the Court has taken charge) shall be recoverable as arrears of revenue, and shall constitute a demand under Bengal Act VII of 1868, or any similar Act for the time being in force.

The last preceding clause shall not apply to arrears of rent enhanced after issue of notice under section 13 of Act X of 1859, or under section 14 of Bengal Act VIII of 1869, but of which the enhancement has not been agreed to by the person who is liable to pay the same, or has not been confirmed by a competent Court.

Collector or Court to record reasons of penalties.

64. When any penalty is imposed by any order under section 57 or section 58, the Collector or Court passing such order shall make a formal record of the same with the reasons or grounds thereof.

Procedure when Court's jurisdiction ceases.

65. Whenever the Court has determined to release the property of a ward from its charge, it shall make an order that the jurisdiction of the Court over such property shall cease on a date not more than sixty and not less than fifteen days from the date of such order; and copies of such order shall be published as the Court may direct.

Powers of Collector in making enquiries.

66. A Collector making any enquiry under this Act may exercise any power conferred by the Code of Civil Procedure on a Civil Court for the trial of suits.

Appeals.

67. An appeal shall lie from every order of a Collector under this Act to the Commissioner of the Division, and from every order of a Commissioner under this Act to the Court.

Control of Court.

68. All orders or proceedings of the Commissioner and of the Collector under this Act shall be subject to the supervision and control of the Court, and the Court may, if it thinks fit, revise, modify, or reverse any such order or proceeding whether an appeal is presented against such order or proceeding, or otherwise.

Control of Lieutenant-Governor.

69. In the exercise of the powers and in the discharge of the duties conferred and imposed respectively on the Court by this Act, the Court shall be guided by such orders and instructions as it may from time to time receive from the Lieutenant-Governor.

Power to Court to make rules.

70. The Court may make rules consistent with this Act—

(*a*) defining the powers of Commissioners and Collectors respectively when the property of a ward is situated in two or more districts or in two or more divisions;

(*b*) prescribing what reports shall be made from time to time by Collectors and Commissioners on the condition of the ward and his property;

(*c*) prescribing the periods at which and the mode in which accounts shall be submitted by managers and guardians respectively, and the mode in which such accounts shall be audited;

(*d*) regulating the custody of securities and title deeds belonging to the estate or property of a ward;

(*e*) regulating the procedure in appeals from orders of Collectors and Commissioners respectively under this Act;

(*f*) prescribing the procedure to be observed when a property ceases to be under the charge of the Court;

(*g*) and generally for the better fulfilment of the purposes of this Act.

The Court may from time to time alter, add to, or repeal, such rules.

APPOINTMENT OF A COMMITTEE TO REPORT ON THE MOST EFFICIENT METHOD OF REGULATING THE TRANSPORT AND STORAGE OF INFLAMMABLE OILS.

FINANCIAL DEPARTMENT—MUNICIPAL.

Calcutta, the 21st July 1879.

RESOLUTION.

READ—

A letter dated the 6th June 1879, from the Secretary to the Bengal Chamber of Commerce, recommending the appointment of a Special Committee consisting of officials, experts, and other persons interested in the trade in kerosine and other inflammable oils, to report on the most efficient method of regulating the transport and storage of such oils.

Read also the following papers:

1. Memorial, dated the 19th May 1879, from Messrs Balmer, Laurie and Co., and three other mercantile firms in Calcutta, importers and vendors of kerosine oil, complaining of the manner in which the Inflammable Oils Act (III B.C. of 1865) is being worked by the Calcutta Police.
2. Government letter No. 482, dated the 11th June 1879, to the Commissioner of Police, Calcutta, calling for a report on the above memorial.
3. Reply of the Commissioner of Police, No. 2077, dated the 13th idem.
4. A letter dated the 24th March 1879, from Messrs. Schroder, Smidt & Co., expressing their intention to erect a godown for the storage of kerosine oil, and enquiring whether it is likely that a central Government warehouse for kerosine oil will be erected.
5. The reply of Government, No. 263, dated 31st March 1879.

Read further the following papers about the necessity of legislation for regulating the importation of mineral oils:

1. Letter from the Government of India, Home Department, No. 59, dated the 15th January 1879, forwarding certain papers regarding the dangerous nature of the kerosine oil imported into Bombay, and enquiring whether any accidents or conflagrations have occurred in Bengal traceable to the use of any of the rock or earth oils igniting at a low temperature, which would, in the opinion of this Government, render legislation on the subject necessary or expedient.
2. Endorsement Nos. 82 to 84, dated the 7th February 1879, to the Commissioner of Police, Calcutta, and the Commissioners of the Presidency and Burdwan Divisions, calling for a report and an expression of opinion on the subject.

OBSERVATIONS.—The question of regulating the transport and storage of inflammable oils so as to combine practical security of life and valuable property with the minimum of restrictions on an important and rapidly developing trade has for some time past engaged the anxious consideration of the Lieutenant-Governor of Bengal, as indicated by the voluminous correspondence detailed above. The following brief outline will show how the question at present stands.

1. In 1877 the Advocate-General gave it as his opinion that all kerosine oil, and not merely such as flashes below 100°F, comes under the

definition of inflammable oil in section 1, Act III (B.C) of 1865. This opinion, however, has never been given practical effect to, as it was believed by Government that it was not the intention of the Legislature to make the Act applicable to any kind of oil which did not emit an inflammable vapour at a temperature limit of 100°F, and as it would have imposed unnecessary restrictions on the storage and transport by land of certain classes of oil, which were safe for all practical purposes. It was questioned, however, whether the limit of 100°F was not too low, and accordingly, in December 1878, the Port Commissioners and the Chamber of Commerce were asked whether 100°F was not a dangerously low limit for India, and whether the limit might not be raised in connection with the Bill then before the Bengal Legislative Council regarding the safe storage of inflammable articles. The question was at the same time asked whether all mineral oils might not be stored in public warehouses, the cost being covered by a fee.

The Port Commissioners considered the temperature limit too low, and also recommended the construction of a public warehouse at Neemuck Mehal Ghât. The Chamber of Commerce deprecated the proposal to raise the limit, considering that oil which does not throw off an inflammable vapour below and up to 100°F is practically safe, but favoured the idea of Government warehouses if the storage fees were moderate.

By this time, however, the Fire-Brigade and Jute Warehouse Bill was too far advanced to be re-considered, and the Chamber of Commerce were accordingly informed, on the 1st March last, that the difficult question of dealing with inflammable oils must be postponed to the next session.

2. It was reported in the latter part of 1878 that, owing to the restrictions imposed by Act III (B.C.) of 1865 in Calcutta, large quantities of kerosine oil were being stored in Howrah, and it was urged that the Act ought to be extended there also. This was accordingly done, and the Calcutta rules, *mutatis mutandis*, were also made applicable to Howrah.

3. On the 15th January last the Government of India forwarded to this Government certain papers from the Government of Bombay, noticing the dangerous character of the kerosine oil recently imported into that city, some of which flashed at a temperature of 83°F, and asked whether legislation was not needed, as Act XII of 1875, which contains some provisions on the subject, only applied to ports.

Apparently there is no Act in Bombay corresponding to the Bengal Act III of 1865, which, by section 2, can be extended to all places within the provinces under the Lieutenant-Governor of Bengal, and which therefore to some extent meets the difficulty pointed out by the Government of India. As, however, this Act was already under consideration for the purpose of amendment, and as it was important to ascertain whether its further extension under section 2 was desirable, reports were called for from the Commissioners of the Burdwan and Presidency Divisions and the Commissioner of Police, Calcutta. The Commissioner of Burdwan reported that no accidents had occurred in his division attributable to the use of kerosine oil igniting at low temperatures. The Commissioner of Police, writing on the 18th February last, also reports that no accidents had occurred in Calcutta. The Commissioner of the Presidency Division, however, reporting on the 26th April last, stated that some accidents due to kerosine oil igniting at a low temperature had occurred at Moorshedabad; that the demand for the oil was daily increasing; that it seemed probable therefore that oil of a dangerous character would find its way into the market, and that legislation was very necessary. He also forwarded a letter from the Magistrate of the 24-Pergunnahs strongly contending for the same conclusion. As both the Commissioner and the Magistrate made no allusion to the existing Act, but recommended legislation generally, it is possible that they overlooked it. Soon afterwards the Commissioner reported in continuation that, out of six specimens of oil sent to the Chemical Examiner, four flashed below 95°F.

4. The importance of taking sufficient precautions with reference to the inferior quality of oils that were being imported was further impressed upon the Government by the event of the 24th April last, on which day a serious explosion occurred in the river on board two out of six cargo-boats conveying kerosine

oil from two American ships at Neemuck Mehal Ghât *through the port* to godowns near the Chitpore Canal. The fire was a most serious one, lasting three or four hours; and had it not been for the fortunate concurrence of a southerly wind with an ebb-tide, the consequences might have been very disastrous. As it was, the sheet of flame was driven down the river and to the north shore. The ghâts and buildings of the Botanical Gardens were in serious danger. Dr. King, the Superintendent of the Gardens, reported that the jetty at his house was on fire three times, and he only saved his office by bringing all his men to keep down the fire. Two boatmen were missing, and two or three others were badly burnt.

This disaster led to a recommendation by the Port Commissioners to amend Port Rules 12 and 14;—Rule 12 by raising the limit from 100° to 120°F, and by fixing Budge-Budge instead of Metiabrooj as the limit above which ships with inflammable oils on board may not come; and Rule 14 by substituting the ferry-ghât at Budge-Budge for the Neemuck Mehal Ghât as the landing place for such oils. This subject is under consideration in the Marine Department of this Government

5. On the 14th of March last the Commissioner of Police, Calcutta, reported that a large quantity of kerosine oil, flashing at 93°F, consigned to Messrs. Balmer, Laurie and Co., was being stored in Howrah. On the 27th of the same month he reported that a portion of the oil had found its way into Calcutta, and that prosecutions had been instituted against six persons for storing them in premises which were in no way secured, and convictions obtained. Messrs. Balmer, Laurie and Co. and other importers, on the other hand, complained of these proceedings of the police as being unnecessary. In their memorial they notice the rapid growth of the trade from 211,000 gallons imported in 1875-76 to 969,000 in 1877-78, and 1,185,000 in about eleven months of 1878-79, but deny that any oils flashing at a temperature below 100°F have been imported by them. This, however, is contrary to the information which has reached Government from other sources as above mentioned. This information leads to the inference that the greater demand for the oil has led to the recent importation of cheaper and more dangerous oils.

The Chamber of Commerce, with reference to the facts related above, have addressed the Lieutenant-Governor, and suggested the appointment of a Committee composed of officials, experts and gentlemen interested in the trade, for the purpose of considering the question in all its bearings, and advising Government as to the action which it is requisite to take in the public interests.

This recommendation appears to be well-timed, and the Lieutenant-Governor considers it very expedient that the whole subject should be considered by a Committee constituted as suggested by the Chamber of Commerce.

Resolved.—That a Committee composed of the gentlemen named below be appointed, and that copies of all the correspondence quoted in the preamble be laid before them for consideration and report, with special reference to the questions raised in the correspondence as above noticed:—

1. Mr. F. B Peacock, Commissioner of the Presidency Division, — President.
2. Mr J. D. Maclean, Collector of Customs,
3. Mr. J. N. Stuart, of Messrs. Balmer, Laurie & Co.,
4. Mr. J. Lambert, Deputy Commissioner of Police, Calcutta,
5. Mr. W D. Bruce, Vice-Chairman of the Port Commissioners, — Members.
6. Mr. C. J. Brookes, Master of the Calcutta Trades Association,
7. Mr. C. H. Wood, Chemical Examiner,
8. Mr. A. Pedler, Professor of Chemistry, Presidency College,

ORDER.—Ordered that a copy of this Resolution, together with copies of the papers quoted in the preamble, be forwarded to the Commissioner of the Presidency Division, with a request that he will arrange for the meeting of the Committee as early as possible.

Ordered also that copies of the Resolution be forwarded to the other members of the Committee for information and guidance, and that the Resolution be published in the *Calcutta Gazette*.

NOTE.

Barometric Pressures.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. Papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperatures.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by *o*, and one completely overcast by 1*o*.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the New Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Buckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 28th July 1879.

JOHN ELIOT,
For Meteorological Reporter to the Government of India.

Eastern Bengal Railway.

Report on the Goods Traffic for the five weeks ending the 28th June 1879.

Dated Calcutta, the 15th July 1879.

From—W. INNES, ESQ., Acting Traffic Superintendent, Eastern Bengal Railway,
To—The Agent, Eastern Bengal Railway.

THE total weight of goods carried over this railway during the above period was 7,67,808 maunds, which, as compared with the corresponding period of last year, shows an increase of 1,20,589 maunds. This increase is mainly in grain including rice, jute in drums and bales, salt, seeds and tea.

The articles showing the largest decrease are gunny, bundles and bales, hides, tobacco, turmeric, and miscellaneous goods.

Increases.

Grain including rice ... ... Mds. 73,296

The increase is owing to rice being sent up to the Eastern Districts in consequence of the scarcity there, and rice is being sent from Calcutta to Assam instead of, as formerly, from Serajgunge and Eastern District.

	Drums.	Bales.
Jute, drums and bales ... ... Mds.	24,465	1,759

This increase is owing to a rise in the market lately, and there being a larger stock than usual at this season of old jute in the hands of cultivators.

Salt ... ... Mds. 41,074

This increase as anticipated continues, chiefly owing to the favorable rate and scarcity of boats in Calcutta to take upward cargo.

Seeds ... ... Mds. 14,784

This staple shows a slight increase this month owing to a greater demand.

Tea ... ... Mds. 2,181

This also shows a slight increase owing to arrivals from Cachar.

Decreases.

	Bundles.	Bales.
Gunny, bundles and bales ... ... Mds.	1,579	4,679

This staple shows a decrease owing to there being little demand for bags in consequence of failure of crops, and smaller quantities of seed and grain coming from the interior.

Hides ... ... Mds. 6,505

This staple shows a decrease this month, though in bales there has been an increase of 1,357 maunds, the supply being regulated by the demand in the market.

Tobacco ... ... Mds. 2,574

This staple shows a decrease this month owing to a re-action on the unusual demand for Rungpore stock which existed a few months ago.

Turmeric ... ... Mds. 8,607

This is another staple which is influenced by the demand in the market and shows a decrease this month.

Miscellaneous goods ... ... Mds. 18,367

This continues to show a large decrease owing to depression of trade and scarcity in many districts.

I attach the usual statement of increases and decreases.

NOTIFICATION.

The 28th July 1879.—The following rules passed by the Lieutenant-Governor of Bengal, under Section 25 (*i*) of the Indian Forest Act VII of 1878, are hereby published for general information. They will take effect in all Reserved Forests in Bengal, and will come into force from the 1st September 1879 :—

Rule I.—No person shall, unless it be necessary in defence of the life or limb of himself or some other, kill or wound any elephant, or catch or attempt to catch elephants in any part of a reserved forest.

Rule II.—No person shall set snares or traps in any reserved forest.

Rule III.—The forest officer may, with the sanction of the Local Government, close any reserved forest, or any part of such forest, against hunting, shooting, or fishing.

Rule IV.—Nothing in Rules I to III shall be deemed to prohibit any act done with the permission in writing of the forest officer or of the Local Government.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 31st July 1879.

No. 177.—*Notifications.*—Mr. J. S. Carey, Executive Engineer, Fourth Grade, assumed charge of the Third Calcutta Division on the 22nd July 1879, afternoon.

The 5th August 1879.

No. 179.—The following order issued by the Government of India in the Financial Department, is re-published for information :—

PENSIONS AND GRATUITIES.

The 31st July 1879.

No. 2079.—*Reduction of Establishments in the Public Works Department.*

RESOLUTION.—For some time past, measures for the reduction of the establishments in the Public Works Department have been under consideration. The curtailment which the Government has resolved to make in the expenditure on Public Works renders it necessary no longer to postpone these measures.

2. Accordingly, the Governor-General in Council has, with much regret, determined to dispense with the services of a considerable number of officers in the Public Works Department. In making this announcement, it is the desire of the Government, by liberal concessions, to mitigate, as much as possible, the hardship to officers who have rendered valuable services, and who must now suffer by reason of financial exigencies for which they are in no way responsible. His Excellency in Council hopes that the favorable terms now offered will induce so many officers voluntarily to resign the public service, that the number who must be discharged compulsorily will not be large.

3. The Government of India is not yet able to announce the measures which will be taken for reducing the departmental staff of officers of the Corps of Royal Engineers.

4. To a limited number of other Military and Civil Officers, including officers in the Accounts Branch, who voluntarily retire from the public service, on or before the 31st December next, the concessions stated in paragraph 5 have been sanctioned by Her Majesty's Government, subject to the following provisos :—

(*a.*) The concessions are offered to those Military Officers only who are entitled, by length of service, to pension, but to whom the Colonel's allowances would not be due for two years after their retirement.

(*b.*) The Government reserves the right of refusing to allow any particular officer to retire.

(*c.*) Excepting for special reasons, no officer who is less than 30 years old will be allowed to retire.

(*d.*) In case more officers than can be spared, apply to retire under these concessions, the Government will determine which applications will be accepted; paying due regard to the order in which applications are received.

5. *I.—To a Military Officer who does not belong to the Corps of Royal Engineers—*

(1) The pension of his rank ;

(2) A bonus of one month's pay for each year's service in the Public Works Department, up to twelve years ;

(3.) An annuity equal in value to the value of his prospective claim to the Colonel's allowances, calculated by the table in Appendix B to the General Order in the Military Department, No. 1, dated 1st January 1879, which table will be extended so as to include other ages and periods of service ; or

(4.) On a medical certificate, in the form prescribed in Appendix A to the said General Order, that he has the prospect of an average duration of life, at his option, the capitalized value of such an annuity.

II.—To a Civil Officer or Subordinate—

(1.) Furlough of every Civil Engineer to count as service for pension to the extent defined in section 52 of the Civil Pension Code.

(2.) The local Government may add a period, not exceeding three years, to the service of any Civil Engineer appointed to the Public Works Department, before the 1st November 1873, with initial rank higher than that of First Grade Assistant Engineer, who did not receive a bonus on quitting the service of a Guaranteed Railway Company.

(3.) Pension in proportion to length of service, as follows:—

Completed years of service	Forty-fifth parts of Average Emoluments, (as defined in the Civil Pension Code.)	Yearly Pension. Minimum.	Maximum.
		Rs.	Rs.

(4.) If he have not completed ten years' service, the option, on a medical certificate that he has the prospect of an average duration of life, of taking, in lieu of a pension, the capital value thereof, calculated by Table C, Appendix E, of the Civil Pension Code.

(5.) A gratuity calculated and limited as prescribed in section 68, clause (*a*) of the Civil Pension Code.

(6.) His substantive pay, or, if he is on leave, his absentee allowances, in advance, to the 31st December next; if his leave will expire before the 31st December next, then the absentee allowances and substantive pay which he would receive to the 31st December next.

(7.) Provided—

(*a*) that the advances under clause 6 shall not exceed three months' substantive pay; and

(*b*) that the payments under clauses (5) and (6) shall not, together, exceed his substantive pay from the date of his retirement to the day before his sixtieth birthday.

6. An application by a Military Officer to retire under these concessions must reach the Commander-in-Chief of the Army to which he belongs, and an application by a Civil Officer or subordinate must reach the local Government, not later than the 30th November next.

7. The Governments of Madras and Bombay are authorized to accept, at their discretion, without further reference, any such applications from Military and Civil Officers serving under them; and the Secretary of State will be asked to use the same discretion in regard to officers now in Europe.

8. Every Civil Officer who has attained, or will, on or before the 31st December next, attain, to the age of fifty-five years, or who is not now in active employ, is required to retire immediately from the service on the terms stated in this Resolution. The local Governments will at once take the necessary measures for carrying this order into effect. The Secretary of State will be requested to apply the same rule to any such officers who are now in Europe.

9. No further concessions, in addition to those stated in this Resolution, will be made to any other officers with whose services the Government may be compelled eventually to dispense.

10. The establishments of each Province will be immediately reorganized on a reduced scale: meanwhile, no departmental promotions will be made in the place of officers leaving the service under this Resolution. The Government does not guarantee to any officer the continuance of his present emoluments.

11. The Governments of Madras and Bombay are requested to report promptly the names of all officers who leave the service under this Resolution.

ORDERED that this Resolution be published in the *Gazette of India*, and communicated, for information and guidance, to the Public Works and Military Departments; to the local Governments and Administrations, and to the Comptroller-General, Accountants-General, and Deputy Accountants-General in independent charge.

3. The application of the late Mr. Lawford for re-admission of his daughter, Amy Augusta, to the contingent benefits of the Fund will be determined at this Meeting. The facts of the case were set forth as follows in the reports laid before the General Meetings of 24th July 1878 and 29th January last:—

"Mr. Lawford before leaving India represented that the marriage of his daughter Amy Augusta, which took place on the 30th June 1870, had been judicially pronounced invalid, and asked that she might be re-admitted to the contingent

benefits of the Fund on payment by him of all arrears of subscription on her account with interest. The Managers replied that they would be prepared to recommend his application to the favourable consideration of the Subscribers on the decree being made absolute, and that, in the meanwhile, it would be necessary for him to submit such a statement of the facts as he would desire to have placed before the Service. Mr. Lawford died on the 12th May, soon after his arrival in England on furlough. The eldest son of the deceased, Mr. E. B. Lawford, now makes the following report of the facts of his sister's case :—

'In 1870 she married a Captain Davies, of the Royal Artillery, but two years ago, owing to the disgraceful conduct of her husband, she was obliged to leave him and return to her father. Mr. Lawford shortly afterwards discovered that the marriage, which took place in Scotland, was invalid from the fact that the requisite residence, twenty-one days before marriage, had not been kept. The case was tried before Sir J. Hannen last term, the result being a decree of nullity of marriage with costs. This decree will be made absolute in November.'

"The Managers have received intimation that the decree annulling Miss Lawford's marriage with Captain Davies has been made absolute."

4. The following addition to, and amendment of, rules will be proposed by the Managers :—

Article V (6).—Every married Subscriber shall be at liberty to submit for the examination of the Managers a certificate of his marriage, and a certificate of baptism or of birth of his wife. Should such certificates be accepted, the dates shall be recorded, and it shall not ordinarily be necessary thereafter to give evidence regarding the facts.

Article XXV.—The insertion of the words "or of birth" after the word "baptism."

5. Mrs. Belli has, through Mr. P. A. Hanrott, submitted the following application for re-consideration of her case :—

To

THE MANAGERS OF THE BENGAL CIVIL FUND.

GENTLEMEN,

I beg on behalf of Mrs. A. M. Belli to submit her title to a pension for your re-consideration, and I do so with some confidence after a careful perusal and consideration of documents connected with the affairs of the late Mr. Belli and of the grounds on which the Managers came to a decision adverse to the widow's claim, and because I think there has been a great misapprehension of the real facts of the case, for which however the Managers are, of course, in no sense responsible.

I find in the printed report of the meeting held at the Town Hall, Calcutta, on Wednesday, the 31st January 1877, the following passage which is stated to have formed the basis of the Managers' decision on the case :—

"The accounts forwarded by Mrs. Belli show that her husband's property at his death was worth £21,729-6-9, and the income derivable from this property would be sufficient to absolutely exclude his widow and other members of his family from benefits under the old rules. On the 22nd February 1867 Mr. Belli made a settlement in trust for his 3 children of property now valued at £15,000, the condition of the settlement being that £5,000 was to be secured to each of these children, and the balance was to form part of his own estate. A few months later, namely, on the 23rd May 1867, he was married to his present widow. It would now appear from the papers submitted to the Managers that the property embraced by the deed of settlement is not more than sufficient to provide the sum of £15,000 to the children, and that there is no balance for credit to his own estate to which his widow is heir. The first question therefore to be determined is, whether the assignment before Mr. Belli's second marriage of property worth £15,000 to the children of his first wife does or does not defeat the claim of his second wife to Fund Benefits under the old rules. The rule governing this question will be found in article 26 of the old rules. Under the 2nd paragraph of that article it is declared that a disposal of his property by a subscriber to the prejudice of the Fund debars his family from benefits if the subscriber's intention be to benefit any party at the expense of the Fund. In the present case the date of the settlement was 22nd February 1867 and that of his marriage the 23rd May 1867, so that it is far from improbable that at the time of making the settlement Mr. Belli contemplated his second marriage, and in this case his widow would be absolutely precluded from the benefits of the Fund. But even supposing that at the time of making the settlement he had not in contemplation his second marriage, Mr. Belli must have well known that if he did re-marry, the trust then made by him would have the effect of reducing his second wife's income so as to entitle her (other considerations apart) to Fund benefits. If therefore a subscriber is presumed to intend the natural result of his acts, Mrs Belli is now entirely excluded from Fund benefits."

Now the accounts stated to have been forwarded by Mrs. Belli were forwarded on her behalf by her then legal adviser who seems to have made an unfortunate error in including in the amount sent, namely, £21,729-6-9, two sums of £15,000 and £350 for the following reasons. The £15,000 was in fact a sum virtually held by the late Mr. Belli in trust for 3 of his children who had not had their "promised fortunes," as Mr. Belli always termed it, and conformably to an agreement to settle on each of his children £5,000, and this fact appears from a memorandum in Mr. Belli's handwriting in a book kept by him, and which I am informed was written upwards of 20 years ago. The following are the words :—

"My net loss was, say, £30,000, saying this is pretty nearly correct, there remains £55,000 to distribute amongst my family. I have already disbursed £20,000 amongst 4 sons, 2 daughters, and have placed in trust £25,000, that is material representing that sum, to be divided among 5 others at my death."

The settlement made by Mr. Belli in February 1867 on Mr. Charles Belli, Mr. and Mrs. Lane and Mr. and Mrs. O'Shaughnessy, was therefore in effect only carrying out in proper legal form what Mr Belli had long since in equity agreed to do, namely, to settle £5,000, on each of his children, and the wording of the settlement directing the Trustees to sell the property and out of the proceeds to pay to each of his children £5,000, goes further to corroborate this view, and I submit therefore with great deference, that this dealing by Mr. Belli cannot be construed as the intention of a subscriber to the Fund to benefit any party or parties at the expense of the Fund, and ought not either morally or equitably to defeat the claim of Mr. Belli's widow to a pension even under the old rules, otherwise no father could settle any portion on his daughter on her marriage or make a provision in the world for a son without imperilling the title of his widow or other children to a pension out of the Fund.

The £350 was a debt due from Mr. Lane to the testator, but which Mrs. Belli has never received. In fact, as regards this amount, the same legal adviser who forwarded the account to the Managers and included the same in the £21,729-6-9 advises that Mr. Lane is not legally liable, and should not pay it.

I am informed that had Mr. Belli come in under the new rules instead of the old, Mrs. Belli would have been entitled to her pension, and I also understand that the new were substituted for the old rules as the latter were found to work occasionally injustice. If Mr. Belli had been able to leave Mrs. Belli the £15,000, which he was not, as it had been already pledged, it would have been doubtless held by the Managers of the Fund that Mrs. Belli was not entitled to a pension as she did not need it, and yet because Mr. Belli does not leave her that amount by reason of his inability, it is decided she is not for that reason entitled, so whichever event had happened, the result would have been the same as regards a pension.

Mr. Belli, I am informed, had subscribed upwards of Rs. 50,000 to the Fund, and was under the full belief before his death, and was in fact so informed by what he held to be reliable authority, that his widow would be entitled to her pension, and I would submit therefore with great deference, that this large subscription to the Fund by Mr Belli, even if the statements I have made and arguments I have submitted are not considered sufficiently weighty in themselves to over-ride the decision the Managers have already given, might be taken into consideration, and some efficient relief granted to her in the shape of annuity or otherwise, as Mrs. Belli is left in great difficulties and really worse off now than she was before she married Mr. Belli. It seems inconsistent, from the character of such a Fund that the same should benefit by so large a sum, and the widow of the subscriber, the *bond fide* object of the Fund, be left in struggling circumstances, so that she scarcely knows which course to take for the future.

I have, &c.,
P. A. HANBOTT.

9, BEDFORD ROW, LONDON, W. C.,
The March 1879.

The circumstances of this case have already been twice before the Subscribers. Mrs. Belli's claim to pension was rejected on the ground that her late husband had a very short time before his marriage with her bequeathed to certain of his children a sum which would have provided an income sufficient to render her ineligible to pension, and that in doing so he had acted with the intention of benefiting his children at the expense of the Fund. The Managers, after careful consideration of the present application and of the papers previously submitted, are unable to recommend any modification of the decision already expressed. They observe that Mr. Belli made a codicil to his Will bequeathing to his wife's sister an annuity of £50, only three months before his death, when it must be supposed that he acted with the intention of reducing the amount available for his widow's support to the detriment of the Fund. The Managers consider that the inference to be drawn from this proceeding throws light on Mr. Belli's motive in making the bequest to his children shortly before his marriage in 1867. They are therefore of opinion, that the previous rulings in this case were correct, and that any recommendation to be made to the Subscribers could only be for a compassionate allowance, while, looking to the fact that the yearly income available to Mrs. Belli (including her sister's annuity of £50) is £261, and that, under the present rules, the widow of a Subscriber is only allowed £300, they do not think that any ground for such a recommendation exists. They therefore recommend that the present application be rejected, and that Mrs. Belli be informed that the case must be considered as definitely closed.

6. The Managers lay before the Subscribers the following correspondence which has passed between them and the Government of India:—

No. 1384.

To

THE MANAGERS, BENGAL CIVIL FUND.

SIR,

In continuation of former correspondence, and in accordance with instructions received from Her Majesty's Secretary of State for India, I am directed by the President in Council to inform you, that the Civil Service Commission have been requested to notify to intending candidates at the next and future examinations for admission to the Indian Covenanted Civil Service, that they will not be admitted to the existing Civil Funds, and that a clause will be introduced into their covenants by which they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council.

2. The terms upon which Her Majesty's Government will be prepared, with the concurrence of the Subscribers, to take over the assets, liabilities and management of the Bengal Civil Fund, will be communicated to you hereafter.

3. Meanwhile, I am directed to request you to supply, with the least possible delay, for the information of Her Majesty's Secretary of State for India, a Statement containing data required by him for a valuation of the assets and liabilities of the Bengal Civil Fund on the 1st April 1875.

4. The form prescribed by the Secretary of State for this Statement, and a Memorandum by General Hanyngton, which further explains it, is annexed.

5. You will observe that, in stating the incumbent benefits, you are invited to distinguish between the amount which would be payable if the Old Rules, including the property-limitation Clauses, were still in force; and to state separately the amount added to make up the full pensions actually given.

6. If this information is not at hand, I am to request that steps may be taken to collect it; but, meantime, the preparation of the Statement, without this additional information, should not be delayed.

I have, &c.,

Secretary to the Government of India.

SIR,

I am desired by the Managers to acknowledge the receipt of a letter from you, numbered 1384, and bearing date the 20th March 1879, in which certain information is urgently called for.

The letter under reference raises more questions than one, but the Managers, before making a complete answer, desire me to request that they may be favoured with a copy of the Despatch on which your letter is founded.

I have, &c.,

Secretary.

CIVIL FUND OFFICE,
The 26th March 1879.

No. 604.

To

THE SECRETARY, BENGAL CIVIL FUND.

SIR,

I am directed by His Excellency the Governor General in Council to acknowledge the receipt of your letter No. 26, dated 26th March 1879, in which the Managers of the Bengal Civil Fund request that they may be furnished with a copy of the Despatch from Her Majesty's Secretary of State to the Government of India, on which my letter No. 1384, dated 20th March 1879, is founded.

2. In reply I am to say that His Excellency in Council regrets that he does not consider himself at liberty to communicate the Despatch in question to the Managers without the previous consent of Her Majesty's Secretary of State, to whom the request of the Managers will be immediately forwarded. Meanwhile, the Governor General in Council will be glad if the Managers will be good enough to allow no avoidable delay in the preparation of the statistics required by the Secretary of State for the valuation which His Lordship desires to make of the assets and liabilities of the Fund on the 1st April 1875.

I have, &c.,

R. B. CHAPMAN,

Secretary to the Government of India.

FINANCIAL DEPARTMENT, SIMLA; *The 12th May 1879*

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
FINANCIAL DEPARTMENT.

SIR,

I am directed to acknowledge the receipt of your No. 604, dated 12th ultimo, in which you state that the request of the Managers to be furnished with a copy of the Despatch from the Home Government, on which your letter No. 1384, dated 20th March 1879, is founded, will be forwarded to Her Majesty's Secretary of State, and ask that no avoidable delay may be allowed in the preparation of the statistics required for the valuation of the Assets and Liabilities of the Fund on 1st April 1875.

2. In reply the Managers desire me to say that they have lost no time in taking measures to prepare so much of the information desired as it is in their power to supply. The particulars regarding Active and Retired Subscribers and their families, and the list of widows and orphans enjoying the benefits under the Old and New Rules, on 1st April 1875, are now in process of compilation

3. The Managers, however, regret that they will be unable, as requested in paragraph 5 of your No. 1384, dated 20th March, to show how the incumbent benefits under the New Rules would be modified if the property-limitation clauses of the Old Rules were still in force. No information regarding the private property of deceased Subscribers under the New Rules has ever been required, and the Managers could not now undertake to procure it. In some instances the incumbents have died since 1st April 1875. Even, however, if it were possible to collect such information regarding persons resident four years ago in many countries out of India, the Managers consider that the undertaking would be one entirely beyond the scope of their proper duties.

I have, &c,

COLMAN MACAULAY,

Secretary.

SIR,

In continuation of my letter of the 3rd ultimo, I have the honour, by the direction of the Managers, to forward the statistics required by the Secretary of State for India for the valuation of Assets and Liabilities of the Fund as on the 1st of April 1875.

A.—List of the Active Members of the Fund on 1st April 1875.

B.—List of the Retired Members of the Fund on the 1st April 1875

C.—List of Widows and Orphans enjoying benefits under the Old Rules of the Fund on the 1st April 1875.

D.—List of Widows and Orphans enjoying benefits under the New Rules of the Fund on the 1st April 1875.

E.—List of Non-Subscribers

F.—List of Retired Subscribers retaining an interest under the Old Rules.

2 I have also to forward the annual accounts of the Fund for the year 1874-75 and a copy of the rules of the Fund with latest corrections.

I have, &c.,

COLMAN MACAULAY,

Secretary.

CIVIL FUND OFFICE, *The 17th July 1879.*

7. The Actuary who has been engaged in the valuation of the Fund has just submitted his report, and copies will shortly be distributed to the Subscribers. A memorandum by Mr. Westland, showing briefly the conclusions at which the Actuary has arrived, is now submitted.

Proposed by *Mr. R. H. Wilson*, seconded by *Mr. O'Kinealy*, and carried unanimously—

"That the Managers' proceedings in admitting the families of the late Messrs. C. Currie, H. C. Sutherland, G. Ouseley, G. Butt, H. W. Alexander, R. Lowther, J. P. Gubbins, G. Udny, J. Lean, W. T. Trotter, and the posthumous son of the late Mr. E. S. Moseley, to the benefits ot the Fund be confirmed."

Proposed by *Mr. W. H. Page*, seconded by *Mr. Kisch*, and carried—

"That the interest to the contingent benefits of the Fund of Miss Amy Augusta Lawford be restored, and that on the arrears of subscription with interest being paid up she be admitted to the benefits of the Fund."

Proposed by *Mr. H. L. Harrison*, seconded by *Mr. Kisch*, and carried—

"That Article V (6) of the Rules be amended by the addition of the following clause:—

'"Every married Subscriber shall be at liberty to submit for the examination of the Managers a certificate of his marriage, and a certificate of baptism or of birth of his wife. Should such certificates be accepted, the dates shall be recorded, and it shall not ordinarily be necessary thereafter to give evidence regarding the facts."'

Proposed by *Mr. C. W. Bolton*, seconded by *Mr. J. D. Maclean*, and carried—

"That Article XXV of the Rules be amended by the insertion of words 'or of birth' after the word baptism."

Proposed by *Mr. H. M. Kisch*, seconded by *Mr. Bolton*, and carried—

"That the recommendation of the Managers, that the application of Mrs. Belli be rejected and that she be informed that the case must be considered as definitely closed, be approved."

The Secretary said that he had just received a note from Messrs. Colvin, Cowie & Co., requesting him to lay the case of Mrs. Moseley before the Meeting. The facts of the case were these:—On the death of Mr. Moseley, his widow was informed that his credit balance was short by Rs. 8,238 of the one-third value of the pensions granted to her and to her two children, and that if this deficiency was not made good, it would be necessary, under Rule VII, to levy the deduction of one-sixth from the allowances of the family. The deficiency was accordingly made good. Mrs. Moseley, at the time of making the payment, reported that the birth of a posthumous child in May was expected by her. She was immediately informed that,under the Rules,it would be necessary to make further payments according to the sex of the child. The birth of a son has now been reported and the child has been admitted to the Fund. Mrs. Moseley, however, disputes the claim of the Fund to any contribution on its behalf, and argues, that under Rule XXXI, Mr. Moseley having contributed for his other children the extra payment prescribed by Rule V, his posthumous child should be granted a pension "as if the extra contribution had been paid on its account." Rule V, however, has reference to the additional monthly subscriptions only, and not to the completion of the one-third value of the pensions of the family, which, under Rule VII, must be made before the allowances can be paid in full. This has been pointed out to Mrs. Moseley, and she has been told that the Managers have no authority to modify the Rules of the Fund. Her request can only be granted by the Subscribers at large, and the procedure under which it can be submitted to the next General Meeting has been pointed out to her agents.

Proposed by *Mr. R. H. Wilson*, seconded by *Mr. McDonell*, and carried—

"That as Mrs. Moseley's case has only been placed before the Meeting by the Secretary to the Managers at the instance of her agents, and no one has appeared to urge her claim, Mrs. Moseley be invited to state her case to the Managers for submission to the next General Meeting."

A vote of thanks to the Chairman was proposed by *Mr. O'Kinealy*, seconded by *Mr. Bolton*, and carried.

COLMAN MACAULAY, *Secretary.*

R. L. MANGLES, *Chairman.*

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 15th April 1879, and having received the assent of His Excellency the Governor-General on the 6th June 1879, is hereby promulgated for general information :—

ACT No. IX OF 1879.

An Act to amend the law relating to the Court of Wards.

WHEREAS it is expedient to amend the law relating to the Court of Wards within the territories under the administration of the Lieutenant-Governor of Bengal ; It is enacted as follows :— Preamble.

PART I.

PRELIMINARY.

1. This Act may be called the Court of Wards Act, 1879. Short title.

It extends to all the territories under the administration of the Lieutenant-Governor of Bengal, including the scheduled districts of Bengal as defined in the Scheduled Districts Act, 1874. Extent.

It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General. Commencement.

2. Bengal Act IV of 1870 (the Court of Wards Act), section 11 of Act XXXV of 1858, sections 12, 14, and 15 of Act XL of 1858, and so much of section 21 of Act XL of 1858 as provides that the Civil Court may direct the Collector to take charge of an estate, are hereby repealed. Repeal of Acts.

All persons and properties which at the commencement of this Act are under the charge of the Court of Wards as constituted by Bengal Act IV of 1870 shall be deemed to be under the charge of the Court of Wards as constituted by this Act.

And all persons and properties which at the commencement of this Act are under the charge of the Collector by virtue of an order of the Civil Court under section 11 of Act XXXV of 1858, or under section 12, section 14, or section 21 of Act XL of 1858, shall from such commencement be deemed to be under the charge of the Court of Wards.

And all rules prescribed, orders or appointments made, and agreements executed under the Court of Wards Act, 1870, and now in force, shall (so far as they are consistent with this Act) be deemed to be respectively prescribed, made, and executed under this Act.

And all orders and appointments made by Collectors under Act XXXV of 1858 or Act XL of 1858, and now in force, shall (so far as they are consistent with this Act) be deemed to be made under this Act.

And all suits and proceedings now pending, which may have been commenced under the Court of Wards Act, 1870, or by Collectors under Act XXXV of 1858 or Act XL of 1858, shall be deemed to be commenced under this Act.

3. In this Act, unless there be something repugnant in the subject or context— Interpretation.

"Collector" includes any officer in charge of the revenue jurisdiction of a district : "Collector."

"The Court" means the Court of Wards ; "Court."

or, when the Court of Wards has delegated any of its powers to a Commissioner or Collector or

any other person, it means, in respect of such powers, the Commissioner or Collector or person to whom they are delegated:

"Estate." "Estate" means all lands which are borne on the revenue-roll of a Collector as liable for the payment of one and the same demand of land revenue:

"Minor." "Minor" means a person who has not completed his age of twenty-one years:

"Section." "Section" means a section of this Act:

"Ward." "Ward" means any person who is under the charge of the Court of Wards, or whose property is under such charge.

Saving of Act XXXIV of 1858 and of jurisdiction of High Courts.

4. Nothing contained in this Act shall affect any of the provisions of Act XXXIV of 1858, or the jurisdiction, as respects infants, of any High Court of Judicature.

PART II.

CONSTITUTION, JURISDICTION, AND POWERS OF THE COURT OF WARDS.

Board of Revenue to be Court of Wards.

5. The Board of Revenue shall be the Court of Wards for the territories to which this Act extends.

It shall deal with every person and every property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Court, in accordance with the provisions of this Act.

Disqualified proprietors.

6. Proprietors of estates shall be held disqualified to manage their own property when they are—

(*a*) females declared by the Court incompetent to manage their own property;

(*b*) persons declared by the Court to be minors;

(*c*) persons adjudged by a competent Civil Court to be of unsound mind, and incapable of managing their affairs;

(*d*) persons adjudged by a competent Civil Court to be otherwise rendered incapable by physical defects or infirmities of managing their own property.

Jurisdiction of Court over disqualified proprietors

7. Whenever the sole proprietor of an estate, or all the joint proprietors of an estate are disqualified as provided in the last preceding section, the Court shall have power to take charge of all the property of every such proprietor or joint proprietor within its jurisdiction, and of the person of any such proprietor or joint proprietor who is resident within its jurisdiction; and also of the person and property of any minor member of the family of any such proprietor or joint proprietor who has an immediate or reversionary interest in the property of such proprietor or joint proprietor.

Court when bound to give up charge.

8. Whenever the circumstances of any ward become such that the Court could not take charge of him or of his property if he were not under its charge already, the Court shall be bound to release from its charge such person and his property.

Discretion of Court as to taking charge.

9. The Court may in its discretion, in any case in which it is empowered by this Act to take charge of the person and property of any disqualified proprietor,—

(*a*) take charge of such property without taking charge of such person;

(*b*) refrain from taking charge of any such person or property;

(*c*) at any time withdraw from such charge if taken;

(*d*) at any time resume such charge, after having withdrawn from it.

Procedure under Act XL of 1858, and Act XXXV of 1858.

10. Whenever a Civil Court thinks it necessary, under section 9 of Act XL of 1858, to make provision for the charge of the person and property of a minor,

whenever a Civil Court recalls any certificate under section 21 of the said Act,

or whenever a person has been adjudged, under Act XXXV of 1858, to be of unsound mind and incapable of managing his affairs,

if the property of such minor or disqualified proprietor consists, in whole or in part, of land or any interest in land, the Civil Court may apply to the Court of Wards to take charge of the person and property of such minor or disqualified proprietor; and it shall be at the discretion of the Court of Wards to take charge of such person or property, or to refuse to do so.

Nothing contained in sections 12 to 19 (both inclusive) of Act XXXV of 1858 shall be held to apply to persons or properties under the charge of the Court of Wards.

Procedure when estate is no longer under Court because some proprietors have ceased to be disqualified.

11. Whenever one or more of the joint proprietors of whose properties the Court of Wards has taken charge ceases to be subject to the jurisdiction of the Court of Wards, and the persons and properties of the remaining joint proprietors thereby cease to be subject to the jurisdiction of the Court of Wards, notwithstanding the otherwise continued disqualification of such remaining joint proprietors, the Civil Court which would have jurisdiction under Act XL of 1858 may, on the application of the Court of Wards, direct the Court of Wards to retain or resume charge of the persons and properties of the still disqualified proprietors during the continuance of their disqualification, or, subject to the provisions of section 12, for so long as such Civil Court may order.

And in case any of the proprietors who have ceased to be subject to the jurisdiction of the Court of Wards so consent, the Court of Wards may retain or resume the charge of the properties of such proprietors, or any part thereof, so long as the property of any of the disqualified proprietors remains in charge of the Court of Wards.

Withdrawal from charge by Court.

12. The Court of Wards may at any time withdraw from the charge of any person and property taken under section 10 or under section 11, and from the charge of any person or property which before the commencement of this Act was placed under the charge of the Collector by a Civil Court under section 12,

section 14, or section 21 of Act XL of 1858, or under section 11 of Act XXXV of 1858:

Provided that it shall give notice of its intention to withdraw to the Civil Court concerned, and that such notice shall be given not less than two months before the Court of Wards shall so withdraw.

Procedure when succession to property disputed.

13. Whenever, on the death of any ward, the succession to his property or any part thereof is in dispute, the Court may either direct that such property or part thereof be made over to any person claiming such property, or may retain charge of the same until the right to possession of the claimant has been determined under Bengal Act VII of 1876, or until the dispute has been determined by a competent Civil Court.

General power of Court.

14. Subject to the provisions of this Act the Court—

(*a*) may, through its manager, do all such things requisite for the proper care and management of any property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Civil Court, as the proprietor of any such property, if not disqualified, might do for its care and management; and

(*b*) may, in respect of the person of any ward, do all such things as might be lawfully done by the legal guardian of such ward.

Exercise of powers conferred on Court through others.

15. The Court may exercise all or any powers conferred on it by this Act through the Commissioners of the Divisions and the Collectors of the Districts in which any part of the property of the disqualified proprietor may be situated, or through any other person whom it may appoint for such purpose.

Delegation of powers.

The Court may, with the sanction of the Lieutenant-Governor, from time to time delegate any of its powers to such Commissioners or Collectors or other person as aforesaid, and may at any time with the like sanction revoke such delegation.

Establishments and expenses.

16. The Court may from time to time order such establishments to be entertained and expenses to be incurred as it shall consider requisite for the care and management of the persons and properties under its charge, for superintendence, for the audit of accounts, and generally for all purposes of this Act;

and may order that the cost of any such establishment and any such expenses be charged against any one or more properties for the purposes of which they are entertained or incurred.

General contribution for general purposes.

17. The Court may, in respect of such of the establishments and expenses referred to in the last preceding section as are of a general nature, direct that they shall be met by a general contribution from the properties benefitted thereby, to be levied in such manner and in such proportion as the Court may from time to time direct.

Power to manage property.

18. The Court may sanction the giving of leases or farms of the whole or part of any property under its charge, and may direct the mortgage or sale of any part of such property, and may direct the doing of all such other acts as it may judge to be most for the benefit of the property and the advantage of the ward.

When Court may order property to be formed into a separate estate.

19. If the Court thinks it expedient to direct the sale or mortgage of any part of an estate of which the ward is the sole proprietor, it may order the Collector to partition off such part into a separate estate, and the demand of land revenue and of the cesses for which the original estate was liable shall be assessed upon and divided between the two separate estates so formed, respectively, in such manner as the Court, with the sanction of the Lieutenant-Governor, may direct.

Appointment of managers and guardians.

20. The Court may appoint one or more managers for the property of any ward, and one or more guardians for the care of the person of any ward under the charge of the Court, and may control and remove any manager or guardian so appointed.

On any disqualified proprietor becoming a ward, the Court may, at its discretion, confirm or refuse to recognize any appointment of a person to be guardian of such disqualified proprietor, which may have been made by a will.

Custody, education, and residence of wards.

21. The Court may make such orders as to it may seem fit in respect of the custody, education, and residence of a minor ward, and such minor members of the ward's family as are under its charge, and in respect of the custody and residence of any ward, not being a minor, whose person is under the charge of the Court.

Allowance for ward and his family.

22. The Court shall allow, for the support of each ward and of his family, such monthly sum as it thinks fit (if any) with regard to the rank and circumstances of the parties.

PART III.

PROTECTION FROM SALE OF CERTAIN ESTATES.

Estate under charge of Court exempt from sale.

23. Every estate, and, subject to the provisions of section 14 of Act XI of 1859, every part or share of an estate for which a separate account has been opened under section 10 or section 11 of the said Act, or under section 70 of Bengal Act VII of 1876, shall, whilst it is under the charge of the Court, be exempt from sale for arrears of revenue:

Provided that all arrears of revenue shall be the first charge upon the proceeds of any such estate, part, or share, sold for any other cause than for arrears of revenue while under such charge.

Estate belonging to minor not to be sold for arrears of revenue.

24. No estate, the sole property of a minor or of two or more minors, and descended to him or them by the regular course of inheritance, or by virtue of the will of, or some settlement made by, some deceased owner thereof, shall be sold for arrears of revenue accruing subsequently to his or their succession to the same, until such minor or one of such minors has completed his age of twenty-one years; but all arrears of revenue shall be the first charge upon the proceeds of such estate if the estate is sold for any other cause during such minority.

The Collector may, on an arrear so accruing on any such estate, attach the estate and collect the rents and all arrears of rent due, managing the estate either directly or through a manager, or by farming it, as he may think fit, for a period not exceeding ten years, nor extending beyond the time when such minor or one of such minors completes his age of twenty-one years.

But Collector may attach estate

25. The exemption from sale for arrears of revenue given by section 24 shall only apply to cases in which a written notice of the fact that the estate is the sole property of one or more minors, and entitled to such exemption, has been served on the Collector before the sale.

When exemption from sale for arrears of revenue applies.

26. When an estate has been farmed under the provisions of section 24, the proceeds of such farm shall be paid to the Collector, and the Collector, after deducting the amount of the claims of the Government for revenue and other public demands and the charges of management, shall either pay the proceeds to the person authorized to receive them for the proprietor, or shall dispose of them in any of the modes mentioned in section 49 or in section 50.

Application of proceeds of farmed estate.

PART IV.

ASCERTAINMENT OF DISQUALIFICATION.

27. Whenever any Collector has reason to believe that any person residing in his district, or being the proprietor of an estate borne on the revenue roll of his district, should be declared or adjudged to be a disqualified proprietor under section 6, he shall make such enquiry as he may deem necessary, and if satisfied that such person should be so declared or adjudged, shall make a report of the same to the Court;

Collector to make enquiry and report as to disqualified proprietors

and the Court shall, on receipt of such report, make such order consistent with this Act as may seem to it expedient.

28. Nothing in section 27 shall prevent the Court or the Local Government from putting the provisions of this Act in force without any report from the Collector.

Power to enforce provisions of Act without report.

29. Whenever any Collector receives information that the sole proprietor of an estate which is borne on the revenue roll of his district has died,

Proceedings on death of a proprietor whose heirs are disqualified.

or that the sole proprietor of any estate has died within his district,

and such Collector has reason to believe that the heirs of such proprietor should be declared or adjudged to be disqualified under section 6, he may take such steps and make such orders for the safety and preservation of the movable property of such heirs, and of all deeds, documents, or papers relating to the property of such heirs, as to him may seem fit.

Such Collector may call upon any other Collector in whose jurisdiction any such movable property, or any such deeds, documents, or papers may be, to take charge of the same, and thereupon such other Collector shall have the same powers with respect to such property, deeds, documents, and papers within his district as are conferred by this section on the first-mentioned Collector.

If the property is not afterwards taken under the charge of the Court, all expenses incurred by a Collector acting under this section shall be recoverable as arrears of revenue from the owner of such property or the person or persons whom the Collector shall find to be in possession of such property, and shall constitute a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Recovery of expenses.

30. A Collector acting under the last preceding section may direct that any person who has the custody of a minor heir of any such deceased proprietor shall produce such minor before such Collector or before any other Collector on a day fixed, and the Collector before whom the minor is so produced may make such order for the temporary custody and protection of such minor as to him may seem fit.

Production of minor proprietor and order for his temporary custody.

If the minor is a female, she shall not be brought into the presence of the Collector, but the Collector may take such steps for her identification as he may think fit.

31. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be of unsound mind and incapable of managing his affairs, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply, in pursuance of the provisions of Act XXXV of 1858, to the Civil Court of the district within the jurisdiction of which such proprietor may reside.

Enquiry in case of lunatics

32. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be incapable of managing his property on the ground of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply to the principal Civil Court of the district within which such person may be residing; and upon such Collector so applying, such Civil Court shall enquire into and determine the question as to the alleged incapacity.

Civil Court to make enquiry regarding disqualification on ground of physical defect or infirmity.

33. If a sole proprietor of an estate who is resident within the local limits of the Ordinary Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal, or resident beyond the territories administered by the Lieutenant-Governor of Bengal, shall be reported by a Collector to be incapable of managing his property by reason of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other

Proceedings in case of physical defect or infirmity when proprietor in jurisdiction of High Court.

Collector as the Court may appoint, to apply to the principal Civil Court of the 24-Pergunnahs, or to such other Civil Court as the Lieutenant-Governor, on application made to him by the Collector in that behalf, may determine.

Such Civil Court shall thereupon enquire into and determine the question as to the alleged incapacity.

Powers of Civil Court when enquiry is instituted under section 32 or 33.

34. When any enquiry is instituted by a Civil Court under section 32 or section 33, such Court shall, for the purposes of making such enquiry, have the powers conferred, and proceed in the manner prescribed, by Act XXXV of 1858 with respect to the enquiries directed to be made by the said Act.

The Civil Court shall transmit to the Court of Wards a copy of the order made on each such enquiry, and the Court of Wards shall thereupon, in case the proprietor has been found by the Civil Court to be incapable as aforesaid, make such order, consistent with this Act, as it shall think fit.

The Civil Court shall have, with reference to proprietors who have been adjudged to be incapable as aforesaid, the same powers as are conferred on a Civil Court by section 21 of Act XXXV of 1858, with reference to persons adjudged to be of unsound mind and incapable of managing their affairs.

PART V.

PROCEDURE AFTER ASCERTAINMENT OF DISQUALIFICATION.

Order declaring estate under charge of Court.

35. Whenever the Court has determined to take the person or property of a disqualified proprietor under its charge, whether in accordance with an order of the Civil Court or otherwise, the Court shall make an order declaring the fact and directing that possession be taken of such person and property or of such property on behalf of the Court, and the Court shall be held to be in charge of such property from the time when possession shall have been so taken.

Collector to take possession of movable property.

36. As soon as conveniently may be after an order is made under the provisions of section 35, the Collector of every district within which any part of the ward's property may be situated, or some person authorized in writing by him in that behalf, shall take possession of all accounts, papers, and movable property of the ward, and place under proper custody such portion thereof as he may think necessary.

Any such Collector, or some person authorized as aforesaid, may, in case he has reason to believe that any such account, paper, or property is in any room, box, or receptacle within any house in the actual possession of the ward, break open the same for the purpose of searching for such account, paper, or property.

Additional powers of Collector.

37. Any such Collector may also order all persons in the employ of the ward, or all persons who were in the employ of the deceased proprietor from whom the ward has derived his property, to attend before him, and may order any person to deliver up any accounts, papers, or movable property belonging to the ward, or any accounts or papers relating to the ward's property, which the Collector has reason to believe are in such person's possession,

and may order all holders of tenures and under-tenures on such property to produce their titles to such tenures and under-tenures.

PART VI.

MANAGEMENT AND GUARDIANSHIP.

Collector when to be deemed manager.

38. If no manager of the property of a ward is appointed by the Court, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court may appoint in that behalf, shall be competent to do, under the orders of the Court, anything that might be lawfully done by the manager of such property.

Powers of manager.

39. Every manager appointed by the Court shall have power to manage all property which may be committed to his charge, to collect the rents of the land entrusted to him, as well as all other money due to the ward, and to grant receipts therefor;

and may, under the orders of the Court, grant or renew such leases and farms as may be necessary for the good management of the property.

General duty of manager.

40. Every manager shall manage the property committed to him diligently and faithfully for the benefit of the proprietor, and shall in every respect act to the best of his judgment for the ward's interest as if the property were his own.

Specific duties of manager.

41. Every manager appointed by the Court shall—

(*a*) have the care of so much of the property of the ward as the Court may direct;

(*b*) give such security (if any) as the Court thinks fit to the Collector duly to account for all such property and for what he shall receive in respect of such property;

(*c*) continue liable to account to the Court, after he has ceased to be manager, for his receipts and disbursements during the period of his management;

(*d*) pass his accounts at such periods and in such form as the Court may direct;

(*e*) pay the balance due from him thereon;

(*f*) apply for the sanction of the Court to any act which may involve the property in expense not previously sanctioned by such Court;

(*g*) sign all papers, deeds, documents, and writings which may be executed by him by virtue of his office;

(*h*) be entitled to such allowance, to be paid out of the property as the Court may think fit, for his care and pains in the execution of his duties;

(*i*) be responsible for any loss occasioned to the property by his wilful default or gross negligence.

General duty of guardian.

42. A guardian appointed to the care of a ward shall be charged with the custody of the ward, and must look to his maintenance, health, and, if he be a minor, to his education.

Specific duties of guardian.

43. Every guardian appointed by the Court shall—

(*a*) give such security (if any) as the Court thinks fit to the Collector for the due performance of his duty;

(*b*) pass his accounts at such periods and in such form as the Court may direct;

(*c*) pay the balance due from him thereon;

(*d*) continue liable to account to the Court, after he has ceased to be guardian, for his receipts and disbursements during the period of his guardianship;

(*e*) apply for the sanction of the Court to any act which may involve expense not previously sanctioned by the Court;

(*f*) be entitled to such allowance to be paid out of the property of the ward as the Court may think fit for his care and pains in the execution of his duties.

No person who can succeed to ward.

44. No person who would be the next legal heir of a ward, or would otherwise be immediately interested in outliving a ward, shall be appointed to be his guardian;

but nothing in this section shall apply to the mother of a ward, or to a testamentary guardian.

Guardian of female ward.

45. If the ward is a female, a female of the same religion shall, except in the case of a testamentary guardian, be appointed guardian, preference being given to female relatives, if any such be eligible.

But no guardian shall ordinarily be appointed or continued for a female ward if she has an adult husband.

Sums due recoverable as demands.

46. Every sum due to the Court from a manager or guardian, or from the sureties of a manager or guardian, or from any officer or servant employed under the Court, or from the sureties of any such officer or servant, shall be recoverable as a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Court may order guardian or manager to make over property.

47. The Court may order any past or present manager or guardian, or past or present officer subordinate to a manager or guardian, to deliver up his accounts or any property which may be in his possession within such time as may be fixed by the Court.

Application of moneys received by manager.

48. All moneys received by the manager shall, in the first instance, be applied as the Court may direct according to circumstances,

in payment of the allowance fixed for the support and education of the ward and his family, and of all charges of management and supervision;

in or towards the discharge of the instalments of Government revenue, and of all cesses and other public demands from time to time due in respect of such property.

Application of surplus.

49. Whenever upon the accounts a *bonâ fide* surplus is shewn after making the payments mentioned in section 48, such surplus shall be applied as the Court may direct according to the circumstances of the property concerned—

in liquidation of debts payable by the ward;

in payment of such religious, charitable, and other allowances as were paid out of the proceeds of the property before it came under the charge of the Court, and such allowances and donations befitting the position of the ward's family as the Court may authorize to be paid;

in the improvement of the lands or otherwise for the benefit of the ward or his property:

Amount expended on improvement not to exceed ten per cent. of surplus.

Provided that the amount expended on such improvement and for such benefit shall not exceed ten per centum of the said surplus, unless, in the opinion of the Court and the Lieutenant-Governor, it is desirable, for the protection of the lands, or in the interest of the ward or his property, to expend an amount exceeding such percentage:

Surplus to be made over to female and major whose property remains under the charge of the Court.

Provided also that if the ward is a female of sound mind, who has completed her age of twenty-one years, or a person who has completed his age of twenty-one years, and whose property remains under the charge of the Court with his consent, no part of the surplus shall be expended by the Court otherwise than in the liquidation of debts or in the improvement of the lands or property as aforesaid, and the remainder of the surplus shall be paid to such female or person.

Power to invest surplus.

50. If the ward is not a female or person as aforesaid, and if any surplus remains after providing so far as the Court may think fit for the objects mentioned in section 49, the same shall be applied in the purchase of other landed property, or invested at interest on the security of—

promissory notes, debentures, stock, and other securities of the Government of India, or of the United Kingdom of Great Britain and Ireland;

bonds, debentures, and annuities charged by the Imperial Parliament on the revenues of India;

stock or debentures of or shares in railway or other companies, the interest whereon has been guaranteed by the Secretary of State for India in Council;

debentures or other securities for money paid by or on behalf of any municipal body under the authority of any Act of a legislature established in British India;

or such other securities, stocks, or shares, guaranteed by the Government of India or the Government of Bengal as to the Court shall seem fit.

PART VII.

SUITS.

Manager or Collector to be next friend or guardian in suits by or against ward.

51. In every suit brought by or against any ward, he shall be therein described as a Ward of Court; and the manager of such ward's property, or if there is no manager, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court of Wards may appoint in that behalf, shall be named as next friend or

guardian for the suit, and shall in such suit represent such ward, and no other person shall be ordered to sue or be sued as next friend or be named as guardian for the suit by any Civil Court in which such suit may be pending.

Court may substitute another person to be next friend or guardian for the suit.

52. The Court of Wards may by an order nominate or substitute any other person to be next friend or guardian for any such suit; and upon receiving a copy of any such order of substitution, the Civil Court in which such suit is pending shall substitute the name of the next friend or guardian for the suit so appointed for the name of the manager or Collector.

Payment of costs.

53. If in any such suit any Civil Court shall decree any costs against the next friend or guardian for the suit of the ward, the Court of Wards shall cause such costs to be paid out of any property of the ward which for the time being may be in its hands.

Process against wards to be served through Court.

54. Every process which may be issued out of any Civil Court against any ward shall be served, through the Collector, upon the next friend or guardian for the suit as aforesaid of such ward.

Suits not to be brought on behalf of wards unless authorized by the Court.

55. No suit shall be brought on behalf of any ward, unless the same be authorized by some order of the Court:

Provided that a manager may authorize a plaint to be filed in order to prevent a suit from being barred by the Law of Limitation, but such suit shall not be afterwards proceeded with except under the sanction of the Court:

Provided also that suits for arrears of rent may be brought on behalf of any ward if authorized by an order of the manager of the landed property on which such rents are due.

Saving of suits in the High Court, and of persons who consent to remain wards.

56. Nothing contained in this Part shall apply to any suit instituted or pending in the High Court, or to a proprietor who has consented to leave his property under the charge of the Court of Wards, as provided in the second clause of section 11.

PART VIII.

PENALTIES.

For disobeying certain orders of the Collector.

57. Any person who refuses to comply with an order of a Collector under section 29, 30, 36 or 37, shall be liable, by order of the Collector, to a fine not exceeding five hundred rupees.

For disobeying orders under section 47.

58. Any person who refuses to comply with an order made under section 47 may be punished, by order of the Court, with simple imprisonment and attachment of his property until the order is complied with.

For disobeying order of Court.

59. Any person who disobeys any lawful order of the Court shall be liable, on conviction before a Magistrate, to a fine not exceeding five hundred rupees, and if he is a manager or guardian appointed by the Court, to a fine not exceeding one thousand rupees.

PART IX.

MISCELLANEOUS.

Disabilities of wards.

60. No ward shall be competent to create, without the sanction of the Court, any charge upon, or interest in, his property or any part thereof.

Adoption by ward invalid without consent of Lieutenant-Governor.

61. No adoption by any ward, and no written or verbal permission to adopt given by any ward, shall be valid without the consent of the Lieutenant-Governor, obtained either previously or subsequently to such adoption, or to the giving of such permission, on application made to him through the Court.

Exception as to persons who consent to remain wards.

62. Nothing contained in section 60 or in section 61 shall apply to a proprietor who has consented to leave his property under the charge of the Court, as provided in the second clause of section 11.

Arrears of rent how recoverable.

63. All arrears of rent due by farmers, under-tenants and ryots, in respect of property under the charge of the Court (whether such rents have become due before or after the Court has taken charge) shall be recoverable as arrears of revenue, and shall constitute a demand under Bengal Act VII of 1868, or any similar Act for the time being in force.

The last preceding clause shall not apply to arrears of rent enhanced after issue of notice under section 13 of Act X of 1859, or under section 14 of Bengal Act VIII of 1869, but of which the enhancement has not been agreed to by the person who is liable to pay the same, or has not been confirmed by a competent Court.

Collector or Court to record reasons of penalties.

64. When any penalty is imposed by any order under section 57 or section 58, the Collector or Court passing such order shall make a formal record of the same with the reasons or grounds thereof.

Procedure when Court's jurisdiction ceases.

65. Whenever the Court has determined to release the property of a ward from its charge, it shall make an order that the jurisdiction of the Court over such property shall cease on a date not more than sixty and not less than fifteen days from the date of such order; and copies of such order shall be published as the Court may direct.

Powers of Collector in making enquiries.

66. A Collector making any enquiry under this Act may exercise any power conferred by the Code of Civil Procedure on a Civil Court for the trial of suits.

Appeals.

67. An appeal shall lie from every order of a Collector under this Act to the Commissioner of the Division, and from every order of a Commissioner under this Act to the Court.

Control of Court.

68. All orders or proceedings of the Commissioner and of the Collector under this Act shall be subject to the supervision and control of the Court, and the Court may, if it thinks fit, revise, modify, or reverse any such order or proceeding whether an appeal is presented against such order or proceeding, or otherwise.

Control of Lieutenant-Governor.

69. In the exercise of the powers and in the discharge of the duties conferred and imposed respectively on the Court by this Act, the Court shall be guided by such orders and instructions as it may from time to time receive from the Lieutenant-Governor.

Power to Court to make rules

70. The Court may make rules consistent with this Act—

(*a*) defining the powers of Commissioners and Collectors respectively when the property of a ward is situated in two or more districts or in two or more divisions;

(*b*) prescribing what reports shall be made from time to time by Collectors and Commissioners on the condition of the ward and his property;

(*c*) prescribing the periods at which and the mode in which accounts shall be submitted by managers and guardians respectively, and the mode in which such accounts shall be audited;

(*d*) regulating the custody of securities and title deeds belonging to the estate or property of a ward;

(*e*) regulating the procedure in appeals from orders of Collectors and Commissioners respectively under this Act;

(*f*) prescribing the procedure to be observed when a property ceases to be under the charge of the Court;

(*g*) and generally for the better fulfilment of the purposes of this Act.

The Court may from time to time alter, add to, or repeal, such rules.

ANNUAL REPORT, CALCUTTA PORT TRUST, 1878-79.

GENERAL DEPARTMENT.—MARINE—CALCUTTA PORT TRUST.

Calcutta, the 1st August 1879.

RESOLUTION.

READ—

The Administration Report of the Commissioners for making improvements in the Port of Calcutta, for the year 1878-79.

As in previous years, the Commissioners have divided their report into two parts. In the first part an account is given of the financial position of the Trust constituted under Act V (B.C.) of 1870 for carrying out works of improvement in the port. The second part deals with the administration of the Harbour Department, which was made over to the Commissioners as Conservators of the port in 1871.

THE PORT TRUST.

2. The following statement shows the expenditure incurred on account of the Trust from the time of its creation up to the end of the year, and the sources from which the funds have been derived :—

EXPENDITURE.

	Rs.
On jetties and works for the accommodation of sea-going vessels	42,42,462
On wharves, &c., for the accommodation of boat traffic, and tramway to connect railways with wharves and jetties ...	46,29,719
On investments for a Reserve Fund	59,370
Ditto for an Insurance Fund	27,549
Total ...	89,59,100

Receipts.	Rs.	Rs.
Loans from Government	60,25,100	
Less unexpended balance	2,81,555	
		57,43,545
Contribution from Government for new road ...	...	74,584
Revenue	...	27,44,880
Sale of Surplus Land	...	3,96,091
Total	...	89,59,100

3. The different loans received from Government for the execution of works have amounted to Rs. 60,25,100, but repayments have been made from time to time, and the outstanding balance is actually Rs. 54,28,567. In addition to payments on account of capital, the Commissioners have also paid interest on their loans to the amount of Rs. 11,07,197. In compliance with instructions from the Government of India, all the loans were consolidated, on the 1st January last, into a single loan, repayable in half-yearly instalments in 30 years, with interest at 4½ per cent. It has been further decided that the Commissioners should, henceforth, borrow in the open market, in India and in the Indian currency; and with the view of facilitating such borrowing, the Government of India has consented to give up its prior lien on the property of the Trust, on the condition that a sinking fund is provided for the liquidation of all future loans in thirty years. The orders of the Government of India in this matter having rendered it necessary to amend certain sections of Act V (B.C.) of 1870, a draft Bill to effect the requisite amendments has been submitted to that Government for approval.

4. The net revenue derived from works and lands since the creation of the Trust has been Rs. 34,46,606. From this sum Rs. 26,80,794 have been spent on new works and improvements, Rs. 5,87,653 in the repayment of loans, Rs. 60,000 for the formation of a reserve fund, and Rs. 31,042 for an insurance fund. There was a cash balance of Rs. 87,117 in hand at the end of the year.

5. The amount expended during the year on new works of improvement was Rs. 10,72,040, distributed as follows :—

	Rs.
Accommodation for sea-going vessels	4,07,427
Works to facilitate inland boat traffic	3,62,233
Extension of the tramway	99,930
New moorings	58,076
Works of general improvement	1,44,374

The expenditure under the first head was chiefly incurred in the extension of three of the jetties, in protecting jetty-heads with sheet piling, in erecting a new jetty, and in rebuilding an old jetty on a new site. For the convenience of boat traffic, the retaining wall at the inland vessels' wharves has been further extended and the construction of the frontage of the new riverside road from Aheerectollah to Baug Bazar has been taken in hand. The tramway was brought into direct communication with the Chitpore station of the Eastern Bengal Railway in June 1878 by the opening of the lift bridge over the Chitpore canal. The works of general improvement carried out during the year include the building of a new warehouse and the completion of the new office of the Commissioners.

6. The dredger was at work during only 152 days of the year, and the amount of dredging done fell far below that in the previous year. The vessel was twice laid up for repairs, and it appears that portions of her fittings have suffered much from the wear and tear which she has undergone. The cost of her maintenance was Rs. 35,594, but the hopper barges earned by towing Rs. 24,310, so that the net cost of the dredging operations of the year was Rs. 11,284.

7. The income derived from the jetties amounted to Rs. 6,77,650, as against Rs. 8,00,521 in 1877-78. The falling-off is partly accounted for by the reduction in the landing charges on import cargo which was noticed in the last report. The revised tariff came into force on the 1st August 1878, and was thus in operation for eight months of the year. The loss of

revenue during this period was Rs. 32,441, or at the rate of Rs. 48,662 per annum. A considerable decrease in the quantity of piece-goods imported caused a further loss of Rs. 41,346. The receipts on account of export cargo also fell off by Rs. 39,333, owing to the cessation of the abnormal grain exports to Madras Hides and tea now furnish the bulk of the revenue derived from exports shipped at the jetties. The expenditure of the year was Rs. 4,58,270, as against Rs. 4,25,897 in 1877-78. The increase is fully explained by the adjustment of the cost of several new cranes against revenue.

8. The number of vessels accommodated at the jetties was 184. The average amount paid by each vessel for jetty hire was Rs. 454, and the average income received from each vessel on all accounts was Rs. 3,588. The receipts on account of jetty hire have risen considerably owing to the higher rate of charge introduced since October 1877; but vessels have been permitted, at the same time, to work longer hours at the jetties. All vessels wishing to make use of the jetties had an opportunity of doing so during the year, but it was sometimes found necessary to order vessels away before they had completely loaded, or to keep arriving vessels waiting. A good deal of inconvenience was thus caused to the shipping, and no time should be lost in bringing to completion the works now in progress for increasing the jetty accommodation.

9. The thirty-ton crane earned Rs. 17,084 during the year. Of this amount Rs. 9,378 were received for work done at the jetties, and Rs. 7,656 for moving heavy material about the port, and for lifting and moving the machinery of steamers under repairs. The expenditure was Rs. 10,773.

10. The receipts of the inland vessels' wharves (under which head the tramway is included) amounted to Rs. 4,59,862, and the expenditure to Rs. 2,65,157. The figures for 1877-78 were Rs. 5,49,137 and Rs. 2,59,762 respectively. The income of that year was exceptionally high, owing to the traffic in grain. The increase of expenditure last year was due to a larger outlay on the tramway, which was, however, fully compensated for by the higher net revenue received. The working of the line is now under the superintendence of a manager appointed by the Eastern Bengal Railway Company. The convenience which it affords for the conveyance of goods has been much enhanced since the opening of the bridge over the Chitpore canal, and the line is likely to prove a highly remunerative undertaking to the Commissioners.

11. The circumstances under which the control of cargo boats was transferred to the Commissioners were mentioned in the Resolution on the Report for 1877-78. Rules for the registering and licensing of these boats were drawn up by the Commissioners in the past year and received the sanction of Government. They came into operation on the 1st March last. Since the close of the year, passenger boats have also been placed under the supervision of the Commissioners. To carry out this measure a special enactment was passed, repealing certain sections of Act IV (B.C.) of 1866, which vested the Commissioner of Police with the control of these boats.

12. The total income from the Strand Bank lands was Rs. 1,40,294, as against Rs. 1,43,809 in 1877-78. Owing, however, to a reduction of expenditure the net revenue of the year was Rs. 53,495, against Rs. 43,337 in the previous year. The fall in income is explained by the fact that the rents were partially in arrears at the end of the year, and that nine months' rental of a plot of land required by the Commissioners for the new warehouse was lost.

THE PORT.

13. The financial position of the port is shown in the following statement:—

Liabilities.

	Rs.
Capital debt	17,65,000
Net revenue	9,61,177
Total ...	27,26,177

ASSETS.	Rs.
Value of block, originally Rs. 17,65,000, less depreciation, Rs. 2,87,608	14,77,392
Value of new block acquired by the Port Commissioners since 1871	4,18,557
Paid in liquidation of portion of loans advanced for port works	6,614
Investment for reserved fund	3,64,250
Depreciation fund	2,00,000
Set aside to meet cost of new block now in course of construction	66,634
Cash balance of 1st April 1879	1,92,730
Total ...	27,26,177

The capital debt represents the original value of the block made over to the Commissioners by Government. The debt is a permanent one on which the Commissioners pay interest at the rate of 4½ per cent. It is explained in the Report that "up to the close of 1877-78, the amount written off annually for depreciation of block was regulated by a scale adopted by the Commissioners in 1872, and it was then ordered that the surplus of this account, not spent in actual renewal of block, should be allowed to accumulate until the sum of Rs. 2,00,000 was reached, after which the amount to be charged to depreciation should no longer be regulated by the fixed scale, but should be the amount annually spent in renewal of block. By the close of 1877-78, the maximum sum of Rs. 2,00,000 had been accumulated, and the block therefore stands (as an asset) for 1878-79 at the value shown at the close of 1877-78. This sum of Rs. 2,00,000 has been invested in Government Securities, and the Commissioners also hold Government Securities for Rs. 3,50,000, the reserve fund accumulated to meet any extraordinary losses, such as may be caused by the occurrence of a cyclone. The balance of the revenue accounts of the several years has been spent in adding to the block of the port." While the Commissioners have realised a net revenue of Rs. 9,61,177 during the eight years of their administration, charges for mooring hire have been reduced by an amount which would aggregate Rs. 5,52,481 in the same period.

14. The total income of the port during the past year was Rs. 5,80,184, against Rs. 6,10,171 in the previous year. The receipts from mooring hire increased by Rs. 35,184, while the earnings of Harbour-masters fell by Rs. 49,206. These results were due to a large reduction of shipping, and a decline in freights, necessitating the detention of vessels in port for long periods in expectation of more favourable rates. At one period there were 172 ships in the port, and every available mooring was occupied. The total expenditure of the year was Rs. 3,98,106, against Rs. 4,28,909 in the previous year.

15. The total number of vessels which entered the port was 967, consisting of 489 steamers and 478 sailing ships. The gross tonnage was 1,430,787 tons. The decrease in both classes of vessels was most marked. In 1877-78, 726 steamers and 646 sailing ships, with a total gross tonnage of 2,056,954 tons, entered the port. Of these vessels, however, 224 were specially employed in grain traffic. The number of steamers which arrived from Europe *viâ* the Suez Canal in the past year was less than in 1877-78, but the average tonnage of the vessels shows a large increase.

16. The Harbour-masters' Department has worked satisfactorily. There was a slight increase in the percentage of accidents, but this is attributed to the freshets of the season being unusually strong. None of the accidents call for remark.

17. The floating fire-engine has been thoroughly repaired. She assisted in putting out fires on one ship and five boats during the year.

18. The anchor boats recovered 48 anchors and 743 fathoms of chain. Eighteen anchors and 236 fathoms of chain were restored to their owners, and 12 anchors and 145 fathoms of chain were sold for Rs. 1,039.

19. The amount collected by the Commissioners on account of pilotage fees, port dues and hospital dues was Rs. 21,28,873. Of this sum Rs. 11,81,318

were credited to Government, Rs. 6,39,096 were paid to the Commissioners for charges due to them, and Rs. 3,08,459 were refunded to the agents of vessels.

20. All the moorings were examined and repaired. Owing to the crowded state of the port in the two preceding years they had not been thoroughly looked after, and a complete overhaul of them was needed. The outer revetment walls at Fort Point, which are believed to have caused the deterioration of the moorings between that spot and Tolly's nullah, have lately been removed with the sanction of the Government of India, and are being replaced by a paved slope.

21. A survey of the port has been commenced by the River Survey Department since the close of the year. The work was of a pressing nature, as no survey had been made since 1872, and several changes are known to have occurred in the navigable channels.

22. A draft Bill to provide for the detention of unseaworthy ships, was received from the Government of India in the course of the year, and a report was submitted on its provisions after consulting the Port Commissioners, the Chamber of Commerce and certain Government officers. Considerable modifications of the draft have been suggested, with the view of bringing within the scope of the Bill all classes of vessels and all cases in respect of which legislation is needed. The Bill proposes to authorise the Lieutenant-Governor to vest the Commissioners with the power of enforcing its provisions at their discretion, and they will be thus in a position, when the measure becomes law, to prevent ships leaving the port in an unseaworthy condition. The provisions of the English Merchant Shipping Act of 1876, with regard to the load-line, having been held to be applicable to ships on the British register in Indian waters, the Bill leaves such ships to be dealt with, in respect of this matter, under the English Act. The Deputy Conservator of the port has been appointed to report breaches of the Act and institute prosecutions against the offenders.

23. In paragraph 60 of their report, the Commissioners refer to the action taken, and the decisions arrived at, by them in reference to the desire of the Lieutenant-Governor, conveyed in the Resolution on the last report, that they should consider, in consultation with the Superintendent of Marine and the Port Officer, whether the relations of the Port Officer to them might not be advantageously defined and made closer. Their reply on this question has been for some time before Government, but it was thought advisable to postpone passing orders upon it, pending the appointment of a new Port Officer. Now that Lieutenant Stiffe has been appointed, the matter will be again taken up and disposed of as soon as possible.

24. The report of the Auditors on the cash and store accounts of the Commissioners for the second-half of the past year draws attention to an irregularity on the part of the Commissioners in appropriating for expenditure on the retaining wall at Schalch's Wharf funds which had been expressly set aside for other works. The Commissioners have explained the circumstances under which the appropriations were made, and separate orders will be issued on the subject.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Government of Bengal.

RELIEF OF DISTRESS IN CERTAIN PARTS OF THE DISTRICT OF POOREE.

REVENUE DEPARTMENT.—FAMINE.

No. 1523—94Fam, dated Calcutta, the 1st August 1879.

From—A. MACKENZIE, Esq., Secretary to the Government of Bengal,

To—The Commissioner of the Orissa Division.

I AM directed to acknowledge the receipt of your letter No. 1406, dated the 10th July 1879, and its enclosures, submitting a final report by the Collector of Pooree on the relief operations carried on in that district during the latter part of 1877 and in 1878.

2. These operations were rendered necessary by repeated failures of crop in the tracts between the Chilka Lake and the sea, parts of the Government estate of Khoorda being at the same time affected, though not to an equal degree. The famine which then prevailed in the neighbouring districts of the Madras Presidency had the effect of drawing off the surplus stock of rice from the Pooree markets, and this, aggravated by the local failure of crops, raised prices to a figure that was practically prohibitory to many of the poorer classes, whose position at the same time had been seriously injured by the failure of the local salt manufacture.

3. The measures of relief adopted by the local officers under your supervision and control were sensible and adequate, while all tendency to panic and exaggeration was repressed. Everything that the circumstances of the case required was promptly and efficiently done, and the thanks of Government are due to yourself, to the Collector and his subordinates, and to the various unofficial bodies that worked with and assisted the district authorities. The services of the Maharaja of Mohurbhunj deserve particular acknowledgment.

4. It appears that the total expenditure on relief has been Rs. 30,864-9-8, which was met from the following receipts:—

	Rs.	A.
From the Calcutta Famine Relief Committee ...	12,000	0
„ local subscriptions	6,878	8
„ the District Road Fund	12,294	0
„ the Estates Improvement Fund	150	0
Profits on sale of rice	50	7
Total ...	31,372	15

Government also gave grants, aggregating Rs. 8,000, from Provincial Funds; but these have not been spent. The balance in hand from subscriptions is Rs. 508-5-4, and this may be credited to the Fund for Famine Relief, made over to the Lieutenant-Governor by the Calcutta Relief Committee, and now held by the Accountant-General.

5. It may be hoped that the recent good harvest, and the revival of the Pooree salt manufacture under the liberal arrangements lately sanctioned by the Government of India, will suffice to prevent any recurrence of distress in this district.

ACKNOWLEDGMENT OF THE SERVICES OF THE REV. MR. PHILLIPS, OF SANTIPORE, IN THE CAUSE OF SONTHAL EDUCATION.

No. 4165, dated Fort William, the 7th July 1879.

From—A. W. CROFT, Esq., M.A., Director of Public Instruction, Bengal,

To—The Secretary to the Government of Bengal, General (Education) Department.

IN forwarding to you the enclosed copy of a letter, No. 101PI, dated 27th May 1879, from the Superintendent of the Orissa Tributary Mehals, I beg to endorse most cordially the Superintendent's request that the thanks of Government may be given to the Rev. Mr. Phillips, of Santipore, for his long-continued, arduous, and successful labours among the Santhals of Mohurbhunj. The work done by Mr. Phillips during 35 years is a work of civilization and progress, and not merely of instruction.

2. Before sending this case for the orders of Government, I have inquired of the Superintendent whether the grant of Rs. 300, sanctioned in Government orders No. 133T, dated 16th May 1879, for the Santhali schools in Santipore

under Mr. Phillips' charge, is still required. Mr. Smith replies that the Maharajah of Mohurbhunj has undertaken the disposal of the money during the present year, and I request that this arrangement may be sanctioned. A proposal has been made to the Maharajah that in subsequent years he should defray the cost of these schools from the revenue of his own State.

No. 101PI, dated Cuttack, the 27th May 1879.
From—A. SMITH, Esq., Offg. Superintendent, Orissa Tributary Mehals,
To—The Director of Public Instruction.

IN continuation of my No. 68PI, of the 15th ultimo, I am sorry to have to report that owing to failure of health, the Rev. Mr. Phillips has been obliged to remove from Santipore, and to relinquish the charge of the Santhal schools, which were founded by him in the northern part of the Mohurbhunj territory.

2. The schools owe their existence to the untiring and disinterested exertions of this reverend gentleman. He commenced his labours about 35 years ago, and has worked steadily till the present time. The first step was to establish a normal school at Santipore, to which raw Santhal youths were drafted from the jungles, and during their stay stipends were allowed for their maintenance. Printed Santhali books were introduced, and, through the medium of their own vernacular, the youths were instructed in reading, writing, arithmetic, history, and geography. After a full period of training they were sent back to their respective villages, to be in their turn the instruments for disseminating useful knowledge amongst their untaught brethren. Village patsálás were then established, where some of the youths trained in the normal school found employment, while others followed their ancestral occupations. Under this system, Mr. Phillips was able to conduct the schools with such success that there are at present hundreds of Santhal men and women who can read and write in their own vernacular as well as in Oriya or Bengali.

3. During the last three years the Santipore normal school competed with the Government guru training schools at Cuttack, Pooree, and Balasore, and in all the examinations it acquitted itself satisfactorily. The number of schools other than the normal school at the close of last year was 15, and the number of pupils on their rolls was 247.

4. It is not too much to say that the foundation and success of the Santhal schools are wholly and solely due to Mr. Phillips, who has laboured in their interests for so many years. It is therefore a subject of much regret that his health is at present such as to preclude all hope of his being able hereafter to render further assistance. In view, however, of the aid which during such a length of years he has rendered in the cause of Santhal education, I would recommend that the acknowledgment of Government be conveyed to him for his long and valuable services.

No. 619T, dated Darjeeling, the 23rd July 1879.
From—A. MACKENZIE, Esq., Secy. to the Govt. of Bengal, General Department,
To—The Director of Public Instruction.

IN acknowledging the receipt of your office letter No. 4165, of the 7th July 1879 and enclosure, I am directed to say that the Lieutenant-Governor has learnt with great regret that ill-health compels the Rev. Mr. Phillips to leave Santipore after 35 years of self-denying labour among the Santhals of Mohurbhunj. A letter has been addressed to Mr. Phillips direct, conveying to him the acknowledgments and thanks of Government.

2. The Lieutenant-Governor will be glad to learn what arrangements are ultimately made for the management and maintenance of the schools which were under Mr. Phillips' charge. He hopes that the Maharajah of Mohurbhunj will undertake to carry on the schools upon the same plan as hitherto.

No. 620T, dated Darjeeling, the 23rd July 1879.
From—A. MACKENZIE, Esq., Secy. to the Govt. of Bengal, General Department,
To—The Superintendent of Tributary Mehals, Orissa.

WITH reference to your letter No. 101PI, of the 27th May 1879, to the Director of Public Instruction, on the subject of Rev. Mr. Phillips' removal from Santipore on account of failure of health, I am directed to request that you will, after perusal, forward the enclosed letter, No. 621T, of the 23rd July 1879, to Mr. Phillips.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* Of the area of 1,802 acres shown as leased in April 1879, 1,568 acres were actually leased in June 1878, but inadvertently omitted to be shown in the statements for previous months. Canal closed for repairs.

NOTE.—A column headed "Total inclusive of unexpired leases of previous years" has been added in order to show separately and distinctly the area that may be leased during the year and the total area under lease for irrigation.

The 4th July 1879.

The 4th August 1879.

D. B. HORN,

Asst. Secy. to the Govt. of Bengal,

Reports of Fluctuation of Traffic on the East Indian Railway from 26th May to 30th June 1879.

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 22ND JULY 1879.

Remarks on Traffic of East Indian Railway from 25th May to 30th June 1879.

THE approximate figures for the period are—

	Coaching.		Goods		Total.
	No.	Rs	Mds.	Rs	Rs
1879	826,477	8,50,827	73,34,690	37,96,046	36 46,873
1878	712,897	7,81,114	70,60,453	25,07,550	32,88,664
Increases	113,580	69,713	2,74,237	2,88,496	3,58,209
Decreases					.....

There is the difference of a day in the periods compared, *i e.* 37 days of 1879 and 36 days of 1878

The actual increase is therefore somewhat below the figures given above, viz.—

Coaching	Rs.	46,717
Goods	,,	2,12,927
Total ...		2,59,664

or 7·89 per cent.

The increase in coaching is principally due to—

1.—The Hindoo festival *Ruthjattra*, which occurred at Serampore on the 21st and 29th June this year. Last year this festival was held in July.

2.—A slight increase in the pilgrim traffic to and from Gya *vid* Bankipore station.

3.—Commissariat cattle despatched from Cawnpore and Allahabad to the frontier for transport purposes on the return of the troops from Afghanistan.

4.—We have also run a few special and extra troop trains.

In goods traffic our operations have been chiefly devoted to the carriage of coal, cotton, millets, and pulses, and salt, while we have decreases in oil, rice, wheat, and seeds. I remark on these in detail :—

Increases.

Coal, up. | Iron. | Railway materials, foreign.
Cotton. | Jaggree and sugar. | Salt.

Decreases.

Coal, down | Piece-goods. | Tobacco.
Ghee and oil. | Seeds.

Coal, upwards ... ... Mds. 2,09,385 Rs. 1,71,051

This is of course due to the demand from foreign lines for coal, and our principal despatches have been to Benares, Agra, Gazeeabad, and *vid* Gazeeabad.

Cotton ... ... Mds. 1,05,530 Rs. 1,96,953

The improvement over last year continued throughout June ; but as compared with the previous month of May, there was a falling off owing to less demand and lower prices. There are large stocks in Calcutta, and we cannot anticipate a continuance of large despatches

The clearances during June amounted to 80,378 bales only, against 47,000 in the previous month.

Iron ... ... Mds. 9,704 Rs. 16,193

This is made up of despatches from Howrah of second class iron, consisting of water pipes to Umballa for the Simla water works, of telegraph sockets to Ajmere, and of first class iron for the Agra market.

	Mds.	Rs.
Jaggree	1,17,286	17,246
Sugar	1,19 540	16,438
	2,36,826	33 684

The traffic to the Bombay Presidency and Rajpootana continued brisk during June, and the crop having been a favourable one large demands were met The principal despatching stations were Arrah, Beehea, Doomraon, Zumaneah, Ghazeepore Cawnpore, and *vid* Allyghur.

Railway materials, foreign .. . Mds 51,856 Rs. 83,054

Large despatches were made from Howrah to Cawnpore for the Furruckabad State Railway, Dildernugger, for Ghazeepore, and to Beawar for the Rajpootana State Railway.

Salt ... ... Mds. 87,358 Rs 22,168

The principal increase this month is in English salt despatched from Howrah to Patna ghât for the interior.

Decreases.

Coal, down . ... Mds. 57,254 Rs. 10,439

I remarked fully on the causes which have led to the falling off in downwards coal in my last monthly report.

Ghee and oil ... ... Mds. 8,984 Rs 12,712

Despatches of kerosine oil have been less from Howrah during the period; and in ghee the prices ruling for the article at Cawnpore and the North-West will not permit of any large expectations. It is probable this arises from less production.

Piece-goods ... .. Mds. 7,536 Rs. 5,687

As predicted in my last report, the piece-goods business has subsided considerably owing to the up-country demands having been satisfied, and we must await the approach of the cold weather before we can hope for any further active demand.

Seeds .. .. Mds. 4,08,079 Rs. 1,83,922

Throughout June the Calcutta market reports show that oil-seeds were in strong demand, but scanty supplies only were forthcoming.

Tobacco ... ... Mds. 22 420 Rs. 15,011

Last year's tobacco crops in Tirhoot and Purneah were unusually good, and large quantities were sent up to meet demand, in the North-West and the Central Provinces, where the crop had failed to some extent. There is not the same demand this year,

The figures for edible grain and pulses are—

	Increase.		Decrease.	
	Mds.	Rs.	Mds.	Rs
Barley	....	... ..	69,509	9,419
Oats	4,845	1,254	...	.....
Rice	.... .	.....	68,564	21,136
Wheat	...	.....	1,02,434	27,453
Other grains ...	1,90,495	33,680	.....	.....
Pulses	95,259	33,170	...	... .
Total ...	2,90,599	68,104	2,30,507	58,008
Increase	60,092	10,096		

For some time past my reports have had to deal with *decreases* in grain traffic, and it is therefore satisfactory to find the net result favourable during this period.

Taking the chief items, it will be seen that the traffic of June 1879 compares favorably with that of 1878, the increases being—

	Rs.
Coal	1,60,000
Cotton	1,97,000
Grain and pulses	67,000
Railway material	83,000
Total ...	5,07,000
and the decreases, rice and wheat	48,500
Seeds	1,83,000
Total ...	2,31,500

The train mileage for the period has been—

	Coaching.	Goods.	Total.
1879	247,549	518,080	766,229
1878	242,959	493,075	736,034
Increase	4,590	25,005	30,195
Decrease	.....	.....	.....

Earnings per train mile—

	Coaching.	Goods.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
1879	3 7 0	5 6 3	4 12 9
1878	3 3 5	5 1 4	4 7 6
Increase	0 3 7	0 4 11	0 4 8
Decrease	.....	.....	.....

The total train mileage shows an increase of 4 per cent.; but this is reduced to one per cent. if the difference in the number of days in the period is considered, and this result compares favourably with the increase in the number of passengers and weight of goods carried, raising of course the earnings per train mile.

Shunting Mileage.

Decrease ... 1,026½ hours.

Jubbulpore line traffic:—

	Coaching.		Goods.		Total.
	No.	Rs.	Mds.	Rs.	Rs.
1879	31,592	87,641	12,61,280	3,31,639	4,19,280
1878	28,016	69,546	7,62,275	2,31,153	3,00,699
Increase	3,576	18,095	4,99,705	1,00,486	1,18,581
Decrease	.....	.....	.....	.....	.....

It is satisfactory to note that the Jubbulpore line traffic has kept pace with the main line in the increases both in passengers and goods, the receipts from which are above those even of 1877, when we had to deal with the very large famine and wheat traffic.

The train mileage for the period is—

	Coaching.	Goods.	Total.
1879	25,615	75,087	100,702
1878	24,554	45,762	70,316
Increase	1,061	29,325	30,386
Decrease	.....	.....	.....

Earnings per train mile—

Decrease, Re. 0-1-10.
